- The board of a school district may, upon its own motion, establish a free public kindergarten for the instruction during a school year of resident children below school age.
 - 2. If the board receives a petition signed by at least five percent of the qualified electors residing in the district, the board must submit the question of establishing a kindergarten to the electorate at the next annual or special school district election. The margins of electoral approval provided in section 57-15-14 must be applied.
- 3. The board of a school district that establishes a kindergarten under this section may levy a tax pursuant to subdivision p of subsection 1 of section 57-15-14.2.

NOTE: Present Section 15-45-01 provides that the petition to establish a kindergarten must be "signed by qualified electors of the school district comprising at least five percent of the number of persons enumerated in the school census for that district for the most recent year such census was taken, but in no case less than twenty-five." The 1997-98 Education Services Committee was concerned that some districts might not have 25 residents. At the request of the committee, the Legislative Council staff reviewed percentages required for other petitions in the title:

Section 15-20.2-13. Referendum on district participation in vocational and technology center - Petition signed by twenty percent of the qualified electors of the school district voting at the last annual school election.

Section 15.1-09-47. Board of education of city of Fargo - Removal of unlimited taxing authority - Petition signed by twenty percent of the individuals enumerated in the most recent school district census.

Subject to committee review, the rewrite maintains the five percent petition signature requirement found in current law but removes the requirement for a minimum of 25 signatures.
