Minutes:

1A:448 CHAIRMAN NICHOLAS: We will now open the Hearing on HB 1258.

REPRESENTATIVE MONSON: The Bill that you have before you is introduced on behalf the Conola growers around the state. The acreage has increased tremendously. Staying in the conola has kept me in the farming business. It has been making money for me. The conola industry has really taken off. This Bill will change the membership of the oil seed council to include three conola producers. Section two actually splits the state up into three conola districts. Please see the Bill as to the districts. There will be a representative from each district. Each district has roughly the same acreage in their districts.

The conola acreage has increased to the point where it is about the same as sunflowers.

This will even out the membership. Of the oil seed council.

REPRESENTATIVE PIETCH: This will be a ten member board then?

Hearing Date 2--1--01

REPRESENTATIVE MONSON: The total number of people on the board will not be changed. I have really never counted as to how many board members there are. Excuse me, there are two extra ones.

JOHN MILKEN: I do raise canola on my farm. Across the state it is obvious that the acres of canola has grown rapidly. I certainly support the increase voice on the oil seed council for canola as a crop. I hope you pass this through.

BARRY COLEMAN, Executive Director of the Northern Executive Director of the Northern Canola Growers Association. Please see prepared text and map that is included. I am here to support 1258.

CHAIRMAN NICHOLAS: Any questions of Barry?

BARRY: There are seven districts for sunflowers and one for canola.

There are about one 1,300,000 acres of sunflowers this year, there was 500,000 thousand acres of flax.

CHAIRMAN NICHOLAS: Any other questions.

LLOYD KLEIN: Rep. Nicholas. My name is Lloyd Klein. I am a member of the Oil seed council. The bill that you have before you, I think I will respond in this way. This bill was initially set up years back. By design the board directors also became members of the National Sun flower Growers Association. They served along with industry members etc.

A person could represent sun flowers and canola growers if he grew both. There is one change to the Bill that we have asked for is that the length of the term was three years and we had a maximum of three terms allowable under the present Bill. We are asking for this to be increased to a possible fourth term. The reason for that is that in the structure of that we go

through a sequence of officers. When you multiply that out it take eight years to fulfill the sequence.

Allowing an extra term address the learning situation when members are first chosen.

WE would like for this Bill to be declared to be an emergency measure.

CHAIRMAN NICHOLAS: Any other questions.

BERDELL JOHNSON: I represent the Agr. collision. I am here to support the Bill.

CHAIRMAN NICHOLAS: I am going to entertain a motion on HB 1258.

REPRESENTATIVE LEMIEUX MOVES FOR A DO PASS AND IT WAS SECONDED BY

REPRESENTATIVE PIETSCH. The clerk will take the Roll on 1258 There were "12 yes"

"0 no" and "'3 absent'", Representative Lemieux will carry the bill.

Testimony of Barry Coleman

Northern Canola Growers Association

House Bill 1258

House Agriculture Committee

Peace Garden Room

February 1, 2001

Chairman Nicholas, members of the committee, my name is Barry Coleman, Executive Director of the Northern Canola Growers Association. I am here to offer support for HB 1258, which adds more canola representation to the North Dakota Oilseed Council, and makes some changes to director terms, which will assist the sunflower industry in its representation as well.

With the increased acreage of canola in North Dakota, many growers have been asking for increased representation on the North Dakota Oilseed Council. In 2000, growers planted 1,270.00 acres of canola in North Dakota. Industry officials are predicting a similar number of acres for 2001.

Enclosed with my testimony is a map of North Dakota showing the proposed canola districts. You will note the districts are of nearly equal acreage of canola.

Given the increased acreage of canola and its excellent fit into the cereal crop rotation in North Dakota, we feel it is prudent planning to increase the representation at this time.

Chairman Nicholas and committee members, I urge a do pass on HB 1258. I would be happy to answer any questions you may have.
