2. **Narrative:** Identify the aspects of the measure which cause fiscal impact and include any comments relevant to your analysis.

PERS referred this bill to our actuaries Deloitte and Touche. They indicated that it would not be possible to do a traditional actuarial analysis on the bill due to its scope in terms of waiving plan limits and not having any historical demographic information on potential utilization. However they did indicate that the bill would clearly increase costs to the plan as a result of waiving plan limits. Depending on the resulting utilization that cost could add several dollars or more per contract per month to the projected premiums. PERS presently has about 22,000 contracts on the plan. A one dollar increase applied across all contacts would increase costs by \$22,000 per month or about \$528,000 per biennium.

- 3. State fiscal effect detail: For information shown under state fiscal effect in 1A, please:
  - A. **Revenues:** Explain the revenue amounts. Provide detail, when appropriate, for each revenue type and fund affected and any amounts included in the executive budget.
  - B. **Expenditures:** Explain the expenditure amounts. Provide detail, when appropriate, for each agency, line item, and fund affected and the number of FTE positions affected.
  - C. **Appropriations:** Explain the appropriation amounts. Provide detail, when appropriate, of the effect on the biennial appropriation for each agency and fund affected and any amounts included in the executive budget.

Indicate the relationship between the amounts shown for expenditures and appropriations.
