3. a. Except as otherwise provided in this subsection, an employer's rate may not be less than the negative employer minimum rate for a calendar year unless the employer's account has been chargeable with benefits throughout the thirty-six-consecutive-calendar-month period ending on September thirtieth of the preceding calendar year. If an employer in construction services has not been subject to the law as required, that employer qualifies for a reduced rate if the account has been chargeable with benefits throughout the twenty-four-consecutive-calendar-month period ending September thirtieth of the preceding calendar year. If an employer in nonconstruction services has not been subject to the law as required, the employer in nonconstruction services qualifies for a reduced rate if the account has been chargeable with benefits throughout the twelve-consecutive-calendar-month period ending September thirtieth of the preceding calendar year. During the building of the trust fund reserve, the rate assigned to an employer may not exceed one hundred thirty percent of the previous year's rate for that employer and an employer may not receive more than a ten percent decrease in that employer's rate from the previous year's rate, for the calendar years 2000, 2001, and 2002. However, this rate limitation provision for calendar years 2000, 2001, and 2002 does not apply to an experience-rated employer that was a new employer the previous year, a negative employer that was a positive employer the previous year, a positive employer that was a negative employer the previous year, an employer that has failed to file a report, a new employer, and an employer that chose to make payments in lieu of contributions.

During the building of the trust fund reserve for calendar years 2000, 2001, and 2002, a negative employer that was a negative employer the previous year may not make excess contributions under subsection 4 of section 52-04-06 to become a positive employer. The executive director may provide any negative employer whose contributions paid into the trust fund are greater than the benefit charges against that employer's account, for a minimum of three consecutive years immediately preceding the computation date or subject to the law as required, with up to a thirty percent reduction to that employer's rate for any year if that employer has in place a plan approved by the bureau which addresses substantive changes to that employer's business operation and ensures that any rate reduction provided will not put the employer account back into a negative status."
