Bill/Resolution No.:

                                  HB 1407

**1A. State fiscal effect:** *Identify the state fiscal effect and the fiscal effect on agency appropriations compared to funding levels and appropriations anticipated under current law.*

**2. Narrative:** *Identify the aspects of the measure which cause fiscal impact and include any comments relevant to your analysis.*

Section 1 as amended will have no impact on the Insurance Department expenses or appropriation.

Section 2 as amended: It is estimated that the study required by Section 2 may cost roughly \$250,000 because of the large number of mandates and the wide variety of mandates that are to be included in the study and the large number of hours that will be necessary to complete the study. The Insurance Department anticipates that it will have an outside consulting actuary perform the study. The estimate is based on a recent study of mandated benefits performed for the Texas Insurance Department. The study involved 13 benefits and cost \$225,000.

There will be no fiscal impact on the General Fund or any special fund because spending for the study is restricted by Section 3 of the Second Engrossed House Bill No. 1407. The study is conditioned on excess moneys being available from income collected by the Insurance Department during the 1999-2001 biennium thus there will be no impact on any fund in any biennium.
