Minutes:

Rep. Porter appeared as prime sponsor with written testimony stating it is unfair to companies who went in on the master settlement to begin with. The master settlement created an unlevel playing field amongst companies and feels it needs to be leveled out, creates an unfair competitive advantage.

Doug Barr, Litigation Attorney with the Attorney General's Office appeared in support with proposed amendments. Stating that the statute Chapter 51-25 basically does is that if the party is not part of the master settlement agreement, they have to put into an escrow account each year a certain amount of funds based upon their sales in ND. Those funds continue to be theirs but in that escrow account for a certain amount of time so that if the State or some other party from ND sues them, we are assured there is a fund upon which recovery can be made. The concern is that a lot of these companies come and go in 2 or 3 years and if they put out a product that someone gets harmed from, there is no place to go for recovery.

The amendments mean that if you don't comply with ND Law, you cannot do business here, basically do what you want, but you need to comply with ND Law.

Questions from the committee on how would this affect the sale on the Reservations and what is a dealer vs. distributor on Reservations (response both are licensed and are retailers in the State)
Is the bulk going to the Reservations and that a distributor may pick up a lot of product but distributed elsewhere. How many MPM's are we looking at (response 18, 6 are not in compliance, the one's overseas are harder to get to come into compliance)

Gary Anderson, Director for Sales and Special Taxes for the Tax Dept. appeared to answer questions and in support of this bill stating that one of the difficulties in regard to the Tribal sales, is being sold in ND are products being purchased by ND wholesalers, although its not taxed, its going through our wholesales and doesn't prevent any of our Indian Retailers from purchasing products from outside the state and its that product that is being shipped across the state line directly to the Reservation, which is regarded as interstate commerce sale and the State of ND is preempted by federal law from interfering with that shipment of product in. So in effect we lose our jurisdiction if we wanted to try to apply tax to that transaction.

No opposition.

Minutes: Doug Barr of the Attorney General Office appeared on behalf of the committee stating he would support an emergency clause as noted in the testimony of last week. One of the purposes of this bill is to have those who are not compliant with ND law to fire, discontinuing selling in ND. Some of them have been out of compliance with ND Law for a number of years.

Rep. Niemeier asked what the master settlement was.

Explanation: One of the specific concerns, 2 sessions ago, ND adopted a law that requires those who are not parties to the U.S.A. to put a statutory amount of money into an escrow account so that those funds were available if those individuals are sued based upon their sale of product. A lot of these companies come, market their product, do the damage then disappear and there is no way to get relief.

Rep. Pollert asked what the current statute is.

Answer: This is not a tax, the funds are theirs but it is put into an escrow account, if they pull it out and are not sued, they can take it out when they leave.

Representative Porter, Representative Niemeler, Representative Uglem, Senator Polovitz, Senator Erberle, Senator Fischer were present.

Representative Porter: stated that was hog housed in the House and the Attorney General amended in the Senate.

Doug Barr: was present and explained the changes in the amendment to HB 1269.

Representative Porter: nonparticipating companies the basically have a competitive edge.

Doug Barr: it has a dramatic difference.

Senator Polovitz: what is the purpose of the escrow?

Doug Barr: the purpose of the escrow is 2 fold, and the courts have up held it a lot of the nonparticipating manufactures have challenged the constitutionality, we had federal court at the lower level, its 2 fold one it is to balance the amount, and the public interest of not making

extremely low product because that is what the youth go for because they don't have the funds to pay for the name brands, and the second is so that there is a fund, since they are selling a dangerous product, so that there is an escrow, for the many law suits based on tobacco products, so that the money is there for the next 25 years until they are not sued they get it back after it has been there for a while.

Representative Polovitz: how do they get it back, and why would they want it back, you said that they could take it out after some time.

Doug Barr: under the statute they have to put a certain percentage in, and if they sold mainly in a couple of states the statute permits them to get a refund of a certain amount of it, so they try to get it all out because then they can use it like any business, the more cash flow they have to lower their prices can be and this just makes it so their payments are more equal to everyone else.

Representative Niemeier: I'm looking at the addition here of units sold in the state, what is the significance of that, of just restricting this to just our state.

Doug Barr: they had to put in escrow a percentage of their national sales, then each state looked at their percentage of the MSA payments, and North Dakota is a smaller state so we get like .0 something of the MSA payments. To the extent they put more in then they would have paid to North Dakota, they get the rest back. If you sold it all in one state, you would get most of it back, and this provides that now its based upon what they would have paid overall and not to just the individual state, its a very difficult reading language.

Representative Niemeier: does this mean that when they are selling in other states, they pay into a escrow account in those states individually, its every state for itself.

Page 3

Doug Barr: yes, the manufacturers have to pay into all the states that have adopted a statute, these companies have and escrow account with North Dakota as a beneficiary.

Senator Polovitz: are we working off of Senate amendments?

Doug Barr: yes we are.

Representative Porter: we will reconvene next week, meeting adjourned

Representative Porter, Representative Uglem, Representative Neimeier, Senator Erberle, Senator Fischer, Senator Polovitz were present.

Representative Porter: as we left yesterday we had a homework assignment for Mr. Barr.

Doug Barr: I spoke to representatives from RJR and Philip Morse, at the local and national level and we worked out a sensible amendment to section 2, which provides that if the portion of 5125 that's the escrow statute, that relates to nonparticipating manufacturers, all it does is instead of saying the laws of the state or the United States it says subsection 2 of Section 51-25-02, and that's the section that requires companies that are not parties to the master settlement agreement, to pay the escrow, so if any of those companies are not in compliance then we would give them the right to a 2832 hearing, and then we would notify distributors that they are not in compliance

HB 1269

Good afternoon Madam Chairman and members of the House Human Services Committee. For the record, my name is Todd Porter, State Representative District 34 Mandan.

HB 1269 is a fairness issue.

Currently all the major tobacco manufacturers are subjected to the master agreement (tobacco settlement). This was a settlement funded by the tobacco companies through sales of tobacco products.

HB 1269 addresses concerns that there are small tobacco companies engaging in the business in North Dakota that are not a part of the master settlement. This creates an unlevel playing field with the companies that have agreed to participate in the master agreement.

I would be happy to answer any questions the Committee may have.

Thank you

TESTIMONY BEFORE THE
SENATE HUMAN SERVICES COMMITTEE
IN SUPPORT OF ENGROSSED HOUSE BILL NO. 1269

Douglas A. Bahr
Director, Civil Litigation Division
Office of Attorney General

March 3, 2003

Engrossed House Bill 1269 prohibits tobacco distributors from knowingly selling tobacco product manufactured by tobacco product manufacturers who are not in compliance with North Dakota and federal law. The bill applies to laws regarding areas such as labeling, packaging, importing, and escrow deposits under N.D.C.C. ch. 51-25. If a tobacco distributor knowingly sells tobacco product manufactured by a noncompliant tobacco product manufacturer, the tobacco distributor could be subject to the sanctions provided in N.D.C.C. ch. 57-36. See N.D.C.C. § 57-36-04 (licensure action); N.D.C.C. § 57-36-33 (class A misdemeanor, confiscation and forfeiture).

Engrossed HB 1269 will assist the state in enforcing laws against tobacco product manufacturers. Tobacco product manufacturers are not licensed by the state. Some are located in foreign countries and it is very hard and costly to sue them. Even if the state does successfully sue a foreign tobacco product manufacturer, it could be difficult if not impossible to enforce the judgment in a foreign country. By enactment of Engrossed HB 1269, the state will be able to prevent tobacco companies that refuse to comply with the law from selling product in North Dakota.

The Attorney General proposes the attached amendment to Engrossed HB 1269. Chapter 51-25, N.D.C.C., was enacted by the 1999 Legislative Assembly. The purpose of the statute is to support the enforcement of the Master Settlement Agreement ("MSA"), which was entered into in 1998 by North Dakota, 45 other states, and the major tobacco manufacturers and numerous smaller manufacturers. As a result of the MSA, to date North Dakota has received payments of approximately \$87,511,350. The states and their citizens, especially youth, have also benefited from the marketing restrictions in the MSA.

Chapter 51-25, N.D.C.C., was designed to ensure a source of recovery for future harm caused North Dakota and its citizens by tobacco companies that are not parties to the MSA. It requires NPMs whose cigarettes are sold in the state to establish and annually fund an escrow account in an amount determined by their sales volume in the state. Funds placed in an escrow account are released to the NPM after 25 years if not used before then to pay a judgment against the NPM.

The proposed amendment would amend chapter 51-25 by eliminating an unintended consequence of the original language that has compromised the law's effectiveness. Section 51-25-02(2)(b)(2) permits an NPM to obtain a release of funds from escrow "[t]o the extent that a tobacco product manufacturer establishes that the amount it was required to place into escrow in a particular year was greater than the state's allocable share of the total payments that the manufacturer would have been required to make in that year under the master settlement agreement" Experience has shown that this provision enables NPMs that concentrate their sales in a single state or a few states to obtain an early release of the great majority of their escrow deposits.

The proposed amendment would cure this unintended consequence by amending section 51-25-02(2)(b)(2) to limit releases from escrow accounts under that provision to any amounts paid into escrow in excess of the MSA payments that the NPM would have been required to make on account of cigarettes sold in the state for a particular year had it participated in the MSA in that year. Those payments would not be limited to the state's allocable share of total MSA payments, so the release would be much less significant than it is under the current statute for NPMs that concentrate their sales in one or a few states.
