Minutes:

Senator Judy Lee opens HCR 3032. Senator Fairfield absent.

Representative Amy Warnke, in favor (Testimony attached)

Senator Erbele: Do you see these schools being turned over to the state?

Rep. Warnke: Whatever the preference of the community would be. these would be for nonviolent criminals.

Closed HCR 3032

Senator Polovitz: The bill specifically states schools what about other vacant buildings?

Senator Fischer: Community resistance is a big factor in this.

Senator Lee: What about removing the word schools from this?

Senator Brown: but they have every facility to be able to live in it, bathroom, kitchen, etc.

**HOUSE HUMAN SERVICES
HCR 3032
FEBRUARY 11, 2003**

Madame Chair and members of the committee. For your record, my name is Amy Warnke, State Representative from District 42 in Grand Forks. I appear before you today to testify in favor of HCR 3032.

I first began to think about this issue when I attended a round table discussion hosted by the Attorney General in Grand Forks over the summer. After the meeting, I spoke with several addiction counselors who were in attendance. It became very clear to me that the way we are dealing with people addicted to methamphetamine is not working. I have been told that it can take up to 3-6 months for an individual to go through withdrawal. The problem is that our correctional facility is not, in my opinion, equipped to deal with this type of addiction. It is my opinion that we need to deal with this particular addiction in a medical model to first deal with the addiction and then deal with the correctional issue once the individual is in a place where he/she can comprehend the reason for the imprisonment and actually learn something from their time in prison. With a majority of the inmates having drugs as either a primary or secondary offense, we need to begin to deal with this very difficult issue.

I do not have exact numbers as to the cost of conversion or the cost of treatment, which is the reason that this is a study and not a bill, but I feel this is a win-win for the communities that have lost their schools and the individuals in our society that need addiction treatment.

Madame Chair, I would be happy to attempt to answer any questions.

I first began to think about this issue when I attended a round table discussion hosted by the Attorney General in Grand Forks over the summer. After the meeting, I spoke with several addiction counselors who were in attendance. It became very clear to me that the way we are dealing with people addicted to methamphetamine is not working. I have been told that it can take up to 3-6 months for an individual to go through withdrawal. The problem is that our correctional facility is not, in my opinion, equipped to deal with this type of addiction. It is my opinion that we need to deal with this particular addiction in a medical model to first deal with the addiction and then deal with the correctional issue once the individual is in a place where he/she can comprehend the reason for the imprisonment and actually learn something from their time in prison. With a majority of the inmates having drugs as either a primary or secondary offense, we need to begin to deal with this very difficult issue.

On a secondary note, we have several vacant public school buildings resulting from consolidation of schools. These buildings have the necessary kitchen, physical plant, recreation area, administrative offices and classrooms that could be converted into lockdown rooms. It seems logical to look for alternative uses for these facilities and to bring jobs back to some of these rural communities.

I do not have exact numbers as to the cost of conversion or the cost of treatment, which is the reason that this is a study and not a bill, but I feel this is a win-win for the communities that have lost their schools and the individuals in our society that need addiction treatment.

Madame Chair, I would be happy to attempt to answer any questions.
