A section is added requiring the department to make the program changes necessary to operate programs utilizing funding from the federal temporary assistance for needy families (TANF) block grant within North Dakota's funding allocation by the end of the 2003-05 biennium.

A section is added directing the department to establish a \$6 copayment for Medicaid recipients for each emergency room visit that is not considered an emergency by hospital personnel and directing the department to make other programmatic changes or establish other copayments or service limits within the medical services program to operate the program within the funding level approved by the Legislative Assembly for the 2003-05 biennium.

A section is added providing for a Legislative Council study of programs providing services to children with special health care needs.

A section is added providing for a Legislative Council study of North Dakota's long-term care continuum of services, including service delivery methods and payment systems.

A section is added providing for a Legislative Council study of the feasibility and desirability of creating a Medicaid advisory council.

A section of legislative intent is added providing that the department conduct three-month rather than three-month and six-month "followup" reviews of vocational rehabilitation clients who begin working if allowed under federal regulations.
