Minutes::Chair Carlson opened general discussion on rereffered HB 1050, relating to an appropriation for state employee compensation adjustments.

Rep. Ron Carlisle: Introduction of bill. (SEE HANDOUT)

Tape Number

Chair Carlson: There is no health insurance in this bill anywhere.

Rep Carlisle: We can check with council, it's in all the various budgets.

Chair Carlson: What's the dollar figure for the increase over last biennium with a 4% and 4% general funds?

Rep. Carlisle: It's roughly 20 and 20 between general and special funds. There will also be some adjustments to this bill, because when we put the bill in, we didn't know how many FTE's the Governor would have in his budget.

Chair Carlson: Is the 20 million the increase?

Allen Knudson, Legislative Council: Actually the total general fund will drop about a million dollars. Instead of 20.9 it will be 19.8 million.

Page 2 House Government Performance Division Bill/Resolution Number HB1050 Hearing Date February 7, 2005

Chair Carlson: 19.8 million would be the additional general funds for 4% and 4%?

Allen: That's the total cost of the 4% and 4%. The Governors recommendation has 4% and 3%.

Chair Carlson: Did the special funds go up then? When the general went down, did the special funds go up?

Allen: Right, the special funds total would be 21.7 million, and all funds would be 41.5 million.

Rep. Skarphol: On the distribution between general and special funds, will that change if we change the practice and go back to the practice we used last time, where all fund transfers are run through the general fund?

Allen: There would be a slight change in that. There isn't as many special funds this time.

Chair Carlson: How did you arrive at 4% and 4%? What's the rational behind it?

Rep. Carlisle: We had a series of meetings last summer, and we talked to groups. We looked at last session that we held on to the medical, and we looked at our preliminary budget numbers.

Chair Carlson: How does the 4% and 4% address equity?

Rep. Carlisle: We did not look at that part. We looked at some minimums, that sometimes effects the compression issue. A good point about the equity, we were looking at just a straight up 4% and 4%. We did not specifically address the equity issue.

Chair Carlson: If we were to tell you that we look at the money and say that the 19.7 or 19.8 million appears to be a number that we could live with, but we have different ideas of how to distribute it. What would your comment be on that?

Rep. Carlisle: We will wait and see what your committee does. Some of us are fairly committed on this issue.

Chair Carlson: Your committed on the money, or the 4% and 4%?

Page 3 House Government Performance Division Bill/Resolution Number HB1050 Hearing Date February 7, 2005

Rep. Carlisle: At this point the 4% and 4%, absolutely.

Rep. Skarphol: Were you aware when you introduced this that OMB was considering a 5 million dollar equity package?

Rep. Carlisle: Yes, I was. I'm on the State Employees Compensation Commission, and the motion for the 4% and 4% was mine.

Rep. Skarphol: The language in section 2, the three subsections, is that unique, or is that typical of a compensation package?

Rep. Carlisle: I think that's boiler plate language about the probationary employees.

Rep. Dave Weiler: I want to lend my full support for the bill. I'm committed to the 4% and 4%, and committed to the money, however if you do want to increase it that would be fine with me.

Chair Carlson: Do you think that all Realtors should be paid the same, or should performance be part of the package?

Rep. Weiler: Not at all, and performance is part of the package.

Margaret Sitte: I am also here in support of this bill. Although I have expressed my concerns about equity. I would like to see those at the bottom have some way of catching up.

Chris Runge: (SEE WRITTEN TESTIMONY)

Chair Carlson: How many people do you represent in your organization?

Chris: We represent approximately 1800 active members, and approximately 1100 to 1200 retiree members in our organization.

Chair Carlson: What's the difference in dollars if this 4% and 4% is 19.8, what's the Governors 4% and 3%. What's the number on that?

Page 4
House Government Performance Division
Bill/Resolution Number HB1050
Hearing Date February 7, 2005

Allen: That's 18.1 million, 1.7 million difference.

Tom Tupa: (SEE WRITTEN TESTIMONY, ALSO SUPPLIED TESTIMONY FOR BOB EVANS)

Rep. Carlson: Is yours a fairly new organization?

Tom: Yes, we are when you compare it, we're only about 10 years old.

Chair Carlson: This bill doesn't do anything to address equity?

Tom: As I read it, I would agree.

Rep. Skarphol: Do you have difficulty with the implied equity pools out there? Do you think they're appropriate, or do you think those dollars should be rolled into the package in some fashion?

Tom: I think eventually it all becomes one lump sum that your dealing with. I think the equity pools are good for a couple of reasons. First of all, we know that in corrections there is a major issue going on. We also know from some of the survey information, and from talking to some of our members and agency and department people, that there is need for some other equity pool money just to deal with certain types of classifications of employees, such as engineers or environmental scientists. There are pockets of employees sought after in the private sector, and those are the ones that will hopefully be adjusted if you had an equity pool available to those agencies in departments that have those types of employees.

Chris: I pretty much agree. I think it's important to have the equity pool, because of how far behind some of our long term employees are. They've been working 15 to 20 years, and they haven't even made it to their midpoints yet. I think it is critical that there be an equity pool similar to what we had in 1999 and 2001.

Rep. Skarphol: At the end of last session, we went home thinking that the salary increases were going to be based on a reduction in state employees. Since that reduction didn't take place, we kind of expected to see a 0 % and 0%. Some of us were quite surprised to see 3600 state employees get a raise. Did you find that rather surprising, or did you anticipate that to be what would happen as a result of 0% and 0%?

Chris: We anticipated that the pay raise that the legislator gave was not going to be successful. We did not support it, we did not think it was going to be possible. I think we need to take a closer look at those numbers, because some of those numbers you'll have to extract out of there, were for legislatively approved pay raises.

Tom: I wasn't overly surprised with the number of adjustments that were made in the last biennium. Given the fact that some of them were unclassified, but there was also a big group of promotions, work force adjustments, those kind of things that are legitimate reasons for salary adjustments.

Chair Carlson: Did that help, or was that negative toward equity?

Tom: I think if agencies and departments were restricted from using roll up dollars, I think that might have a negative impact when you get to the equity issue.

Gary Feist, President of the ND Public Employees Association: For the bill. I'm the person who moved the 5 million dollar equity pool that was put into the Governors budget. There was a public employee survey asking employees how they felt about their jobs, and there future here as a state employee. In that survey we saw a lot of complaints about salaries, and while they were happy with their insurance benefits that they had, employees were concerned about falling further and further behind the market. So I think this 4% and 4% goes a long way.

Chair Carlson: Your solution on the equity pool would be to keep creating the pools like that?

Gary: I think it helps move people up from compression problems. It allows agencies to help

move people up into their ranges who have been here for long periods of time.

Chair Carlson: Has your organization ever looked at the way that we have our categories and our pay schedule layout? Have you ever taken a look at that, and said the system is a little flawed, it doesn't allow enough movement between the system, and this would be our recommendation to change it?

Gary: I don't think there has ever been any money available to actually move people through the ranges.

Chair Carlson: If you wanted to get a raise, how are you going to move to the next one? You either have more job responsibility, or you have more skill, correct?

Gary: If there actually is a position open for you to move.

Chair Carlson: Then you would have to have a higher level of skill, would you not?

Gary: Right.

Chair Carlson: So is that a right or a wrong system? I mean if we're constantly talking about equity, then I would think that you would take a good hard look at the process of how people move within the ranges.

Gary: What could be done, is it could be a step system where you actually get to move through your pay ranges.

1Chair Carlson: Right now the system is that you can stay where you're at, and we're going to give you a 4% raise, correct?

Page 7 House Government Performance Division Bill/Resolution Number HB1050 Hearing Date February 7, 2005

Chris: Right, we don't have a step system, we have put in a system of pay grades, and then there is a range within your pay grade. It's dependent upon the money that comes out of the legislator, as to what everybody gets based on performance.

Chair Carlson: How do you fix it?

Chris: My answer is that there has to be money attached to it.

Chair Carlson: If the system is flawed, even if we changed the system to make it more equitable, even if we didn't give you a raise, at least it would be equitable among the people working there.

Chris: I do believe that we can embark on a plan for the next number of legislators that does take into consideration a priority that we need to move state employees through their pay grades with their years of service, taking into consideration performance, and those kind of issues that you folks are valuing.

Dennis Fewless: (SEE WRITTEN TESTIMONY)

Chair Carlson: What value do you place on the other benefits you receive; healthcare, retirement, days off, vacation pay?

Dennis: We put a high value on our benefits package. I would never argue that there's shortfalls there.

Rep. Skarphol: With the turnover in new hires in state government, do you have any idea what percentage of them are getting their first job?

Ken Purde: I wouldn't have any way of tracking or identifying that.

Rep. Skarphol: You did a very substantial study of salary comparisons. What do you anticipate the cost of something like that would be, where you just hire a private firm to do that?

Page 8
House Government Performance Division
Bill/Resolution Number HB1050
Hearing Date February 7, 2005

Ken: There was one point about 15 years ago when we did ask that question, and actually contacted a couple of consultants for an estimate of what that sort of survey and product would be. It was tens of thousands of dollars to look at 150 or so job classes and 10 or more survey participants. I can't imagine a consultant could come in and do it for under 50,000 dollars. Minutes: Chair Carlson opened general discussion hearing on HB 1050, relating to an appropriation for state employee compensation adjustments.

Discussion of Amendment. (SEE AMENDMENT 50263.0103)

Rep. Skarphol: I would move 0103.

Rep. Monson: Second.

Rep. Glassheim: I got one or two e-mail's about longtime employees who still aren't up to the midpoint of their ranges. It seems to me a discouraging situation. Is that at all addressed in here?

after 10, 15, and 20 years.

Chair Carlson: I think that this addresses that, because it falls under the equity part. It says equity increases to address the documented or serious internal agency and equity. That would be where they talk about compression, and where they talk about above or below the midpoint.

Rep. Glassheim: I was concerned with the people who are below the midpoint of their range,

Chair Carlson: The midpoint or the range has to do with their market adjustments.

Pam, OMB: The problem is that people being at the top of their range and not moving up, because that hardly ever happens. Everytime a legislative salary increase was given, the range moves up as well. The problem is that everybody sits at the bottom of their range, because when they get their increase, the range moves up as well with the market.

Rep. Glassheim: Is there any way to address people below midpoint?

Pam: Yes, you just need more money.

Chair Carlson: Or you reallocate the money that you have, and address those that are the farthest from the midpoint, those that have the compression, or those that have an advance. That's the purpose of having a compensation pool, or to have the discretion and have some guidelines to do it. Could you list the 8,000 employees, and find somebody that didn't fit in one of these categories, I would guess you probably could.

Rep. Glassheim: There's something else floating around about raising 35 bucks, or 50 bucks at the bottom before you do the percentages. Would that bring people towards the midpoint more than percentage increases?

Pam: I think that deals with just percentages of the lower paid.

Chair Carlson: Normally the 35 bucks has been up to those that are making below a certain

level of income, then it drops off after that, or the number went from 35 to 50 bucks as the

income levels went up. In essence, if you do it all the way across the board, again all you did was

moved everybody up. I believe this gives you the flexibility to give someone a 6% adjustment, to

get them away from that situation, that now you can only give them 2 or 35 dollars. What this

bill does is makes the managers manage, and makes them be accountable for the raises they give

them and why.

Rep. Glassheim: Does this replace the 5 million equity pool?

Chair Carlson: The amendments you'll see in the OMB bill, that will be removed.

Rep. Glassheim: Relative to the Governor's budget, what is the amount of the 2% equity?

Rep. Skarphol: 5 million, 2 ½ general fund.

Rep. Glassheim: This gives each department 2% even if they don't need it?

Chair Carlson: Well, they're getting 3 and 4. They're getting 3% and 4%, and they have to

justify or give reasons why they're distributing the second two. Everybody's getting 3 and 4.

Rep. Glassheim: So under the equity you can get market, merit, and discretionary?

Chair Carlson: Yes.

Rep. Glassheim: So it's not just equity, it's anything?

Chair Carlson: No, it's those four points there that can be distributed, and you document how

you do it.

Rep. Glassheim: So each department will find someway to use the extra 2%?

Chair Carlson: They're going to be budgeted to four, for the second year of the biennium.

Roll taken on Amendment 0103 to HB 1050.

General Discussion
Page 4
House Government Performance
February 14, 2005

Rep. Skarphol: I move HB 1050 as amended.

Rep. Monson: Second.

HB 1050 is a do pass, as amended.

Closed General Discussion Hearing.

Committee Clerk Signature TWT for Chris allywww.
Minutes:

Chairman Svedjan opened discussion on HB 1050 concerning state employee compensation adjustments. Rep. Carlson gave the Committee a handout (#1) "State Agency 2003-05 Biennium Salary Increases" to review. Rep. Carlson moved to approve Amendment .0103; Rep. Skarphol seconded.

Chairman Svedjan called for discussion. Rep. Carlson stated that the original bill sponsored by Representatives Carlisle, Martinson, Porter, and Senators Stenehjem, Nething & Schobinger, had increases for the State Employee Compensation 4% the first year and 4% the second year. He read the proposed Amendment .0103 into the record. He stated that the Amendment basically replaces the original bill.

The Government Performance subcommittee worked with the Director of Human Resources to consider issues, such as equity, compression, freezing within the market range, and switching pay grades. **Rep. Carlson** stated that numbers 1-4 in section one allow managers to manage.

Page 2
House Appropriations Committee
Bill/Resolution Number HB 1050
Hearing Date Monday, February 14, 2005
(Meter #8.7)

Rep. Carlson also stated that the Governor's package had a general fund appropriation of \$18,074,042. The proposed package with 3% and 4%, not counting health care, is \$16,500,000 increase. This bill deals with salary issues only.

Rep. Arsvold asked about the price tag on 4% and 4% proposed on the original HB 1050. **Rep. Skarphol** said the full price tag was \$41.5 million, not including health care, general and special funds. The 3% and 4% is \$34.6 million, \$16.5 million in general funds and \$18.1 million on other funds. That's the total increase for the salaries for the biennium. **Rep. Carlise** added that the general fund amount under the 4% and 4% is \$19.8 million. **Rep. Skarphol** said \$21.7 special funds.

Rep. Kroeber asked if the last 2% would be found in Agency budgets and **Rep. Carlson** explained that if the 4 and 3 are reversed to a 3 and a 4, it's automatically going to be less because the number is not compounded.

Rep. Kempenich asked what the percentages were based on and Ms. Roxanne Woeste,

Legislative Council, said the percentages are based on salaries that are currently on the agencies'

pay plans that were submitted with their budget requests.

Rep. Glassheim said this plan is discouraging because the health benefits have been reduced from full family to single and that the equity pool has been diluted. He pointed out that Human Resources claims that there are problems with retention and recruitment and this will make matters worse over the long term. Rep. Skarphol responded that equity has been adequately addressed in this biennium and he noted that there are \$11 million of salary increases represented

in Handout #1. What is being proposed in 1050 is on top of this \$11 million. He would take issue with some of the raises proposed by Emergency Management, but he would do that later.

Rep. Glassheim noted that rather than \$11 million, what the Committee is talking about it \$3.9 million in general funds. It's \$11 million total with special funds. The increase over the biennium is \$4 million rather than \$11.

Chairman Svedjan called for a roll call vote (#1) on the motion to adopt Amendment .0103. to House Bill 1050. Motion carried 15-8-0.

Representative Carlson moved a DO PASS on HB 1050 as amended; Rep. Skarphol seconded. Hearing no further discussion, Chairman Svedjan called for a roll call vote (#2) on HB 1050 as amended. Motion carried 15-8.

Rep. Glassheim requested a minority report, which Chairman Svedjan noted.

Rep. Bellew requested that he not be included in the minority report even though he voted against the bill. Chairman Svedjan stated that Rep. Bellew voted on the minority side.

Rep. Delzer suggested that if it's the desire of the minority to have the original bill, instead of having a minority report, couldn't there be a discussion on the Amendment. Rep. Glassheim asked if the minority report could have more in it than the original bill. Chairman Svedjan reasoned it would be better to debate this issue on the sixth order and there was general agreement.

Chairman Svedjan closed discussion on HB 1050.

(Meter #25.2)

FISCAL NOTE

PROPOSED AMENDMENTS TO HOUSE BILL NO. 1050

Page 1, line 1, replace "an appropriation for" with "a statement of legislative intent regarding" Page 1, replace lines 3 through 24 with:

"SECTION 1. LEGISLATIVE INTENT - STATE EMPLOYEE COMPENSATION ADJUSTMENTS - GUIDELINES. It is the intent of the fifty-ninth legislative assembly that 2005-07 biennium compensation adjustments for permanent state employees are to be increases of three percent beginning with the month of July 2005, to be paid in August 2005, and of four percent beginning with the month of July 2006, to be paid in August 2006. Of the four percent increase beginning with the month of July 2006, two percent is to be distributed for the following adjustments:

- Equity increases to address a documented and serious internal agency inequity affecting the agency's ability to retain an employee.
- 2. Market adjustments to address a documented external salary disparity identified by comparison with generally recognized market data. Appropriate documentation supporting all market adjustments must be maintained. Market adjustments may not be provided in situations where serious internal inequities will result.
- 3. Merit and performance increases in recognition of documented performance which is consistently superior or which consistently exceeds performance and accountability standards.
- Discretionary salary adjustments at the discretion of the appointing authority based on changes in workload, promotion, reclassification, or other permanent job reassignment. Appropriate documentation and justification must be maintained by the appointing authority.

Employees whose documented performance levels do not meet standards are not eligible for the general increases.

Probationary employees are not entitled to the general increases. However, probationary employees may be given all or a portion of the increases upon completion of probation, at the discretion of the appointing authority.

During the biennium, no salary increase other than the three percent in July 2005 and the four percent in July 2006 may be given to an employee whose salary exceeds or would exceed the salary range maximum.

Each agency appropriation for salaries and wages is increased by three percent the first year and four percent the second year of the 2005-07 biennium for these compensation adjustments.

SECTION 2. AGENCY SALARY INCREASE INFORMATION. State agencies shall report to the human resources management services division of the office of management and budget in the format developed by the division, information regarding the state employee salary increases provided pursuant to section 1 of this Act. The human resources management services division shall analyze the impact of the increases on the classified employee system and include this analysis in the division's presentation to the appropriations committees of the sixtieth legislative assembly."

REPORT OF STANDING COMMITTEE

HB 1050: Appropriations Committee (Rep. Svedjan, Chairman) recommends AMENDMENTS AS FOLLOWS and when so amended, recommends DO PASS (15 YEAS, 8 NAYS, 0 ABSENT AND NOT VOTING). HB 1050 was placed on the Sixth order on the calendar.

Page 1, line 1, replace "an appropriation for" with "a statement of legislative intent regarding"

Page 1, replace lines 3 through 24 with:

"SECTION 1. LEGISLATIVE INTENT - STATE EMPLOYEE COMPENSATION ADJUSTMENTS - GUIDELINES. It is the intent of the fifty-ninth legislative assembly that 2005-07 biennium compensation adjustments for permanent state employees are to be increases of three percent beginning with the month of July 2005, to be paid in August 2005, and of four percent beginning with the month of July 2006, to be paid in August 2006. Of the four percent increase beginning with the month of July 2006, two percent is to be distributed for the following adjustments:

- 1. Equity increases to address a documented and serious internal agency inequity affecting the agency's ability to retain an employee.
- Market adjustments to address a documented external salary disparity identified by comparison with generally recognized market data. Appropriate documentation supporting all market adjustments must be maintained. Market adjustments may not be provided in situations where serious internal inequities will result.
- 3. Merit and performance increases in recognition of documented performance which is consistently superior or which consistently exceeds performance and accountability standards.
- 4. Discretionary salary adjustments at the discretion of the appointing authority based on changes in workload, promotion, reclassification, or other permanent job reassignment. Appropriate documentation and justification must be maintained by the appointing authority.

Employees whose documented performance levels do not meet standards are not eligible for the general increases.

Probationary employees are not entitled to the general increases. However, probationary employees may be given all or a portion of the increases upon completion of probation, at the discretion of the appointing authority.

During the biennium, no salary increase other than the three percent in July 2005 and the four percent in July 2006 may be given to an employee whose salary exceeds or would exceed the salary range maximum.

Each agency appropriation for salaries and wages is increased by three percent the first year and four percent the second year of the 2005-07 biennium for these compensation adjustments.

SECTION 2. AGENCY SALARY INCREASE INFORMATION. State agencies shall report to the human resources management services division of the office of management and budget in the format developed by the division, information regarding the state employee salary increases provided pursuant to section 1 of this Act. The human resources management services division shall analyze the impact of the

Minutes: Chairman Holmberg opened meeting on HB 1050.

Rep. Ron D. Carlisle, District 30 appeared in support of HB 1050. The ND State Employee Compensation Report was provided as his written testimony, see appendix I.

Sen. Dave Nething, District 12 appeared in support of HB 1050. Stating that he supports the Original form of the bill, the 4 and 4 increase. "This is the highest priority."

Rep. Lisa Meier, District 32 appeared in support of HB 1050 in its original form.

Rep. Andrew Maragos, District 3 appeared in support of HB 1050, in its original form.

Sen. Dick Dever, District 32 appeared in support of HB 1050 in its original form, asking the committee to now wait until the last minute to pass the bill out of committee.

Gary Fiest, President, NDPA appeared in support of HB 1010 in its original form. Written testimony was provided, which was read verbatim, see appendix II.

Tom Tupa appeared in support of HB 1010 is its original form. Written testimony was provided see appendix III.

Page 2 Senate Appropriations Committee Bill/Resolution Number HB 1050 Hearing Date 03/07/05

Jeff Wald appeared to read the prepared testimony of **Ag Commissioner Roger Johnson**, see appendix IV for copy of testimony.

Sen Bowman: The decision we face is to try to find the money for the positions you want, or fund the other 1 percent. I want to do what is best for ND. What would you rather have?

Mr. Wald: Maintain base lever of programs.

Linda Haufed Human Resources, DOCR appeared in support of HB 1050 in its original form. Ms. Haufed provided a background and discussed problems hiring and retaining qualified employees due to the low pay.

Irish Leonard's, Human Resources, Department of Public Instruction appeared in support of the original version of HB 1050. She stated that it is hard to keep people, a large number of there employees are quitting.

Arty Path, Human Resource Director, Department of Information Technology appeared in support of the original version of HB 1050. Stating that the department is facing compression issues.

Chairman Holmberg closed meeting on HB 1050.

| Committee Clerk Signature Minutes: | Jane | TOUK | |
| Chairman Holmberg opened | the discussion or | n HB 1050 regarding sta | ate employee salaries. |
| Senator Schobbinger distribu | ted amendments | and moved a DO PAS | S on the |
| AMENDMENTS, Senator Cl | hristmann secoi | nded. Discussion follo | wed. |
| Senator Krauter asked about | the \$5 million ed | quity pool and if there w | vas intent to have the \$5 |
| million in another bill. | | | |
| Senator Holmberg indicated t | his bill is only fo | or a straight 4 and 4 per | rcent raise for state |
| employees. The \$5 million equ | uity pool will be | in HB 1015 where it wa | as originally or it might b |
| discussed by the House. I don' | 't know what the | House is discussing the | at is why we are moving |

Senator Krauter indicated that based on the comments on the floor the other day relating to the NDPEA letter and endorsing that and using this vehicle as the mechanism as the funding

forward today.

mechanism for 4 and 4 and it makes reference to the \$5 million equity pool in that same sentence and we were led to believe that would be here with this.

Senator Holmberg indicated that is a separate issue and this is the vehicle for the 4 and 4.

Allen Knutson indicated the change in .0203 amendment is that it removes the phrase regarding 2 percent of the salary will be allocated differently.

A voice vote was taken and the motion carried.

Some discussion carried on about the \$5 million dollar equity fund, and whether the 4 and 4 percent was fully funded.

Senator Mathern indicated the intent was to have the equity adjustment for \$5 million and I so move that we add to this bill, the equity adjustment package of \$5 million. Senator Krauter seconded. Discussion took place.

Senator Andrist indicated he supports the 4 and 4 but I think it should not be distributed equally. I think part of that needs to go for equity and it should be skewed so that higher portions go to individuals in the lower end of the scale.

Senator Krauter clarified the \$5 million equity pool is only \$2.5 million general fund and \$2.5 million special funds. As we work through the Department of Corrections budget before crossover, this was an issue that kept coming up. All of the Senators have been told we are going to be addressing this. If we are going to keep addressing the issue of equity, we need to be sincere about what we are doing here. So I request a yes vote.

Senator Holmberg indicated the comment about we are going to address this and were told we would have an opportunity to vote on all of these issues. The primary issue that was presented over the past weeks has been the 4 and 4 fully funded and the other two issues that deal in

Page 3 Senate Appropriations Committee Bill/Resolution Number 1050 Hearing Date April 1, 2005

salaries include the issue of equity vs. Merit and the other issue was the equity pool. We are addressing today the 4 and 4. We will be addressing the other issues.

Senator Bowman indicated he voted against the 4 and 4 and the equity issue has a bigger concern to him. When we have people we can't find replacements for, that seems more important to me. The other concern is not knowing the ending fund balance yet, how much of that is going to be built on the two trust funds.

A roll call vote was taken resulting in 6 yes, 8 no, and 1 absent. The motion failed.

Senator Schobbinger moved a DO PASS with the AMENDMENT .0206, Senator Fischer seconded. A roll call vote was taken resulting in 12 yes, 2 no, and 1 absent. Senator Holmberg will carry the bill.

Chairman Holmberg closed the discussion on HB 1050.

STATEMENT OF PURPOSE OF AMENDMENT:

This amendment adds \$6,924,651, of which \$3,289,683 is from the general fund, for state agencies to provide an additional 1 percent state employee salary increase for the first year of the 2005-07 biennium. The state employee compensation guidelines are changed to provide that state employees receive a 4 percent salary increase for the first year and a 4 percent salary increase for the second year of the 2005-07 biennium. Provisions designating that one-half of the second year increase be used for specific purposes are removed.

Renumber accordingly

STATEMENT OF PURPOSE OF AMENDMENT:

This amendment adds \$6,924,651, of which \$3,289,683 is from the general fund, for state agencies to provide an additional 1 percent state employee salary increase for the first year of the 2005-07 biennium. The state employee compensation guidelines are changed to provide that state employees receive a 4 percent salary increase for the first year and a 4 percent salary increase for the second year of the 2005-07 biennium. Provisions designating that one-half of the second year increase be used for specific purposes are removed.

2005 TESTIMONY

HB 1050

BILL PROVIDING FOR STATE EMPLOYEE SALARY INCREASE

The attached bill provides for salary increases for state employees for the 2005-07 biennium. The bill provides for salary increases of 4 percent effective July 2005 and 4 percent effective July 2006.

The amounts and funding sources included in the bill are based on 2003 pay plans and will need to be adjusted when 2005 agency pay plans are submitted with the executive budget. Statutory amendments will also be necessary for elected officials' salary increases.

The bill assumes that funding for the full cost of employee health insurance premiums will be included in the appropriation bills for the 2005-07 biennium to

be submitted by the Office of Management and Budget.

Funding for the University System and the University System office is not included since block grant appropriations are provided for University System institutions and the institutions have the flexibility of transferring funding and using tuition income for salary increases. Salary increase funding for these entities is requested separately as part of the University System office and each higher education institution's budget request.

ATTACH:1

INFORMATION REGARDING STATE EMPLOYEES

This memorandum contains the following information regarding state employees:

- · History of the number of employees.
- Statutory eligibility for health insurance and retirement benefits.
- State employee retirement history and potential future eligible state employee retirees.
- Other fringe benefits such as holidays, annual leave, sick leave, and family leave.
- Travel reimbursement.
- · Status of health insurance costs.
- Cost of salary increases for a biennium.

HISTORY OF THE NUMBER OF EMPLOYEES

The following table summarizes full-time equivalent (FTE) positions for the 1987-89 through 2003-05 bienniums:

| A | uthorized FTE P | ositions¹ | | • | State Governme | nt Employee | 82 |
|-------------------------------------------------|-----------------------|-------------------|---------------------------|----------------------------------|-------------------------------|-------------------------|----------------------------|
| Biennium 1987-89 | Education 4,205.26 | Other 7,769.72 | Total 11,974.98 | Calendar Year 1988 1989 | Education 12,300 12,500 | Other 6,900 7,200 | Total 19,200 19,700 |

¹Authorized FTE positions - The number of positions shown is the number authorized by legislative appropriations. Positions not reflected include higher education employees of auxiliary operations or research programs funded through grants, which are not subject to legislative appropriation. The positions shown for education include the Department of Public Instruction and the University System.

STATUTORY ELIGIBILITY FOR HEALTH INSURANCE

North Dakota Century Code (NDCC) Chapter 54-52.1 provides that group medical insurance and group life insurance is available to employees who meet the eligibility requirements of being a permanent employee of the state. A permanent employee is one whose services are not limited in duration, who is filling an approved and regularly funded position in a governmental unit, and who is employed at least 17.5 hours per week at least five months each year or for those first employed after August 1, 2003, is employed at least 20 hours per week and at least 20 weeks each year of employment.

²State government employees - The number of employees is the annual average of employees based on information collected monthly by Job Service North Dakota. The numbers shown include employees of higher education auxiliary operations and research programs funded through grants, which are not subject to legislative appropriation. The number is not on an FTE basis.

³The FTE count for higher education was reduced by 688.17 FTE positions to reflect institutional reductions and to report only the number of FTE positions funded from the general fund.

STATUTORY ELIGIBILITY FOR RETIREMENT

North Dakota Century Code Chapter 54-52 provides that employees who are 18 years old or older, whose services are not limited in duration and who are filling an approved and regularly funded position in an eligible governmental unit, and are employed at least 20 hours per week and at least 20 weeks each year of employment are eligible to participate in the defined benefit retirement plan administered by the Public Employees Retirement System Board. Chapter 54-52.6 allows certain employees to participate in a defined contribution retirement plan.

House Bill No. 1257 (1999) provided that a state employee, except an employee of the judicial branch or an employee of the State Board of Higher Education and state institutions under the jurisdiction of the board, who is eligible for retirement and is in a position not classified by Human Resource Management Services of the Office of Management and Budget may elect to participate in the defined contribution retirement plan. December 2004, there are 9,868 state employees enrolled in the defined benefit retirement plan, and 243 employees in the defined contribution retirement plan.

STATE EMPLOYEE RETIREMENTS - HISTORIC

The following table shows the number of state agency employees and higher education employees that have retired and that were eligible for retirement in the years from 1997 through 2003, based on "normal" and "Rule of 85" "defined benefit" retirement, and employees under the 401(a) defined contribution plan who were age 65 or older or whose age plus years of service equaled 85 or more, as provided by the Public Employees Retirement System:

| | | | | | · | _ | | Seven- Year |
|---------------------|----------------------------|---------------------------|--------------------|---------------------------|--------------------|--------------------|---------------------------|-----------------------|
| Retired Eligible | 1 997 109 227 | 1998 131 291 | 1999 117 325 | 2000 134 408 | 2001 100 473 | 2002 115 633 | 2003 158 780 | Average 123 448 |

POTENTIAL FUTURE ELIGIBLE STATE EMPLOYEE RETIREES

The following table shows the potential number of state employees eligible for retirement benefits under the state's "defined benefit" provisions, and the "401(a) defined contribution" plan, as provided by the Public Employees Retirement System. The amounts in the December 2004 column are the number of employees eligible for "normal" and "Rule of 85" retirement under the state's "defined benefit" provisions as of December 31, 2004, and the number of employees under the "401(a) defined contribution" plan who are age 65 or older or those whose age plus years of service equal 85 or above, as of December 31, 2004. The amounts in the December 2005 through December 2014 columns are the incremental number of eligible "normal" and "Rule of 85" retirees for each agency, including employees with either defined benefit or defined contribution plans, based on an additional year of service and age.

| State agencies | December 2004 812 | December 2005 277 | December 2006 255 | December 2007 286 | December 2008 332 | December 2009 352 | December 2010 389 | December 2011 345 | December 2012 . 400 | December 2013 411 | December 2014 382 | Total 4,221 |

OTHER FRINGE BENEFITS

Holidavs

The following is a list of statutory holidays cited in NDCC Sections 1-03-01 through 1-03-02.1, attached as Appendix A, on which North Dakota state offices are closed:

- Every Sunday.
- January 1 New Year's Day.
- The third Monday of January Martin Luther King, Jr., Day.
- The third Monday of February Recognition of the birthday of George Washington.
- The Friday preceding Easter Sunday Good Friday.
- The last Monday of May Memorial Day.
- July 4 Independence Day.
- The first Monday of September Labor Day.

- November 11 Veterans Day.
- The fourth Thursday of November Thanksgiving Day.
- December 25 Christmas Day.
- Every day appointed by the President of the United States or by the Governor of this state for a public holiday.

If a holiday falls on Saturday or Sunday, the preceding Friday or following Monday, respectively, is considered the holiday. Also, state offices close at noon on December 24, but this is an office closure, not a holiday. The noon closure applies only on December 24 and is not moved to the preceding Friday or following Monday.

Annual Leave and Sick Leave

According to NDCC Section 54-06-14, annual leave and sick leave must be provided for all permanent employees of the state who are not employed under a written contract of hire.

According to North Dakota Administrative Code Chapter 4-07-12, all state and local government agencies, departments, institutions, and boards and commissions that employ individuals in positions classified by Human Resource Management Services are recommended to use the following annual leave schedule:

| Years of Service | Hours Per Month | Hours Per Year |
|------------------|-----------------|----------------|
| 0-3 | 8 | 96 |
| 4-7 | 10 | 120 |
| 8-12 | 12 | 144 |
| 13-18 | 14 | 168 |
| Over 18 | 16 | 192 |

According to North Dakota Administrative Code Chapter 4-07-13, all state and local government agencies, departments, institutions, and boards and commissions that employ individuals in positions classified by Human Resource Management Services are recommended to use the sick leave accumulation rate of eight hours per month.

Employees who are eligible for annual and sick leave begin to accrue leave from the day of hire. The accrual of annual leave is limited in that no more than 240 hours of annual leave may be carried forward from one year to the next, according to the cutoff date established by the agency. Any hours in excess of 240 will be lost. All accrued, unused sick leave may be carried over from one year to the next, and NDCC Section 54-06-14 provides for a lump sum payment equal to one-tenth of the pay attributed to an employee's unused sick leave accrued to an employee with at least 10 continuous years of state employment.

Family Leave - Family Sick Leave

North Dakota Century Code Chapter 54-52.4 provides family leave which is an unpaid leave of absence available to an employee for the birth, adoption, or foster placement of a child; or for the serious health condition of a parent, child, spouse, or employee to all state employees who have been employed by the employer for at least 12 months, and who has worked at least 1,250 hours for the employer over the previous 12 months.

North Dakota Century Code Chapter 54-52.4 also provides that an employer who offers compensated leave to its employees for illnesses or other medical or health reasons should allow an employee to use that leave as family sick leave when there is an illness or medical need in the employee's family. Employees are limited to using 40 hours of sick leave for this purpose in any 12-month period.

TRAVEL REIMBURSEMENT

North Dakota Century Code Section 44-08-04, attached as Appendix B, provides for meals and lodging reimbursement for state officials and employees. Section 54-06-09, attached as Appendix C, provides for mileage and travel expense of state officers and employees.

Meals and Lodging

Under NDCC Section 44-08-04, state officials and employees may claim reimbursement for meals and lodging while conducting work away from their normal working and living city of residence for all or any part of a day. Reimbursements are provided for each quarter of a day as follows:

| Quarter | Allowance | In State | Out of State |
|--------------------------------------------------------------------------------------------------------|----------------------------------------------|---------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------|
| 6:00 a.m 12:00 noon 12:00 noon - 6:00 p.m. 6:00 p.m 12:00 midnight 12:00 midnight - 6:00 a.m. | Meal ¹ Meal Meal Lodging | \$4 \$6 \$10 Actual - Up to \$45 plus any additional state or local taxes for a single room | 20% of GSA ² daily rate 30% of GSA ² daily rate 50% of GSA ² daily rate Actual (single room) |

¹An employee or officer may not be reimbursed for the first quarter meal allowance if travel begins after 7:00 a.m.

The Office of Management and Budget also provides a policy for agencies to follow in reimbursement for meals and lodging, attached as Appendix D. The policy is based on NDCC Section 44-08-04.

Mileage

North Dakota Century Code Section 54-06-09, attached as Appendix C, provides that unless an exemption is provided, a state employee or officer, when required to travel by motor vehicle or truck in the performance of an official duty, use a state-owned vehicle whenever possible. When a personal motor vehicle is used, the section provides for a mileage reimbursement of 31 cents per mile actually and necessarily traveled in the performance of the official duty.

STATUS OF HEALTH INSURANCE COSTS

The executive budget recommendation anticipates health insurance costs to increase by \$14.3 million for the 2005-07 biennium, of which approximately 40 percent or \$5.8 million is from the general fund. The executive budget recommendation budgeted health insurance costs at \$559 per month per employee, which is a 14.4 percent increase over the 2003-05 biennium.

COST OF SALARY INCREASES FOR A BIENNIUM

The estimated cost of a 1 percent state employee salary increase per year, including fringe benefits, is \$3.4 million, of which \$1.7 million is from the general fund. The executive budget recommendation includes a 4 percent salary increase for state employees for the first year of the 2005-07 biennium and a 3 percent salary increase for the second year, for an estimated cost of approximately \$37.95 million, of which \$18.1 million is from the general fund. These estimates exclude higher education employees.

A schedule of annual state employee salary increases and inflation rates is attached as Appendix E.

ATTACH:5

²General Services Administration (GSA) - The GSA daily rate is specific to each city in the United States and ranges from \$31 to \$51 per day.

CHAPTER 1-03 HOLIDAYS

1-03-01. Holidays. Holidays are as follows:

- 1. Every Sunday.
- 2. The first day of January, which is New Year's Day.
- 3. The third Monday of January, which is Martin Luther King Day, in recognition of the life, legacy, and dream of Martin Luther King, Jr.
- 4. The third Monday in February, in recognition of the birthday of George Washington.
- 5. The Friday next preceding Easter Sunday and commonly known as Good Friday.
- 6. The last Monday in May, which is Memorial Day.
- 7. The fourth day of July, which is the anniversary of the Declaration of Independence.
- 8. The first Monday in September, which is Labor Day.
- 9. The eleventh day of November, which is Veterans' Day.
- 10. The fourth Thursday in November, which is Thanksgiving Day.
- 11. The twenty-fifth day of December, which is Christmas Day.
- 12. Every day appointed by the President of the United States or by the governor of this state for a public holiday.

Nothing in this section may be construed to prevent the holding of legislative sessions or the taking of final action on any legislative matter upon any of such holidays other than Sunday. Any action heretofore taken upon any legislative matter upon any such holiday is valid and legal for all purposes.

- 1-03-01.1. Closing of state offices Christmas Eve. State offices must be closed at twelve noon on December twenty-fourth, Christmas Eve day, unless it is a weekend or holiday pursuant to section 1-03-02.1.
- 1-03-02. When day following holiday shall be a holiday. If the first day of January, the fourth day of July, the eleventh day of November, or the twenty-fifth day of December falls upon a Sunday, the Monday following shall be the holiday.
- 1-03-02.1. When holiday falls on a Saturday. If any of the holidays enumerated in section 1-03-02 fall on a Saturday, the Friday immediately before shall be the holiday.

44-08-04. Expense account - Amount allowed - Verification.

- 1. Except as provided in section 44-08-04.1, each elective or appointive officer, employee, representative, or agent of this state, or of any of its subdivisions, agencies, bureaus, boards, or commissions, may make claim for meals and lodging while engaged in the discharge of a public duty away from the claimant's normal working and living residence for all or any part of any quarter of a day. Claims may also be made for meals that are included as part of a registration fee for a conference, seminar, or other meeting and for meals attended at the request of and on behalf of the state or any of its subdivisions, agencies, bureaus, boards, or commissions; however, if a meal is included in a registration fee, the applicable quarter allowance cannot be claimed for that meal. Claims for meals specifically included in a registration fee for a conference, seminar, or other meeting must be allowed even if the city at which the conference, seminar, or meeting is held or the meal is provided is the claimant's normal working and living residence. Reimbursement is allowed only for overnight travel or other travel, away from the normal place of employment, for four hours or more. Verification of expenses by receipt is required only for lodging expenses.
- 2. Expenses for travel within the state must be reimbursed at the following rates for each quarter of any twenty-four-hour period:
 - a. First quarter is from six a.m. to twelve noon and the sum must be four dollars. First quarter reimbursement may not be made if travel began after seven a.m.
 - b. Second quarter is from twelve noon to six p.m. and the sum must be six dollars.
 - c. Third quarter is from six p.m. to twelve midnight and the sum must be ten dollars.
 - d. Fourth quarter is from twelve midnight to six a.m. and the sum must be the actual lodging expenses not to exceed forty-five dollars plus any additional applicable state or local taxes. A political subdivision may reimburse an elective or appointive officer, employee, representative, or agent for actual lodging expenses.
- 3. The allowance for out-of-state meals, within the continental United States, is equal to the per diem meals rate in the city for which a claim is made on that day as established by rule for federal employees by the United States general services administration and must be allocated twenty percent to the first quarter, thirty percent to the second quarter, and fifty percent to the third quarter.
- 4. The allowance for meals in Canada, Alaska, and Hawaii may not exceed one and one-half times the current continental United States standard rate for federal employees established by the United States general services administration.
- 5. The allowance for meals outside the continental United States, Canada, Alaska, and Hawaii may not exceed two times the current continental United States standard rate for federal employees established by the United States general services administration.
- 6. The allowance for lodging outside the state must be the actual lodging expense.

7. A department, institution, or agency of this state may set a rate for travel expenses outside the state less than those set forth in this section. Verification of any other type of expense not prescribed by this section must be as prescribed by the office of the budget except no receipt may be required for taxi or cab fares of ten dollars or less. The office of management and budget shall disapprove any claim it determines to be in error or unlawful or not within the limits of legislative appropriations.

54-06-09. Mileage and travel expense of state officers and employees.

- 1. State officials, whether elective or appointive, and their deputies, assistants, and clerks, or other state employees, entitled by law to be reimbursed for mileage or travel expense, must be allowed and paid for mileage and travel expense the following amounts:
 - a. The sum of thirty-one cents per mile [1.61 kilometers] for each mile [1.61 kilometers] actually and necessarily traveled in the performance of official duty when the travel is by motor vehicle or twenty-seven cents per mile [1.61 kilometers] if the travel is by truck, the use of which is required by the employing entity. The sum of seventy cents per mile [1.61 kilometers] for each mile [1.61 kilometers] actually and necessarily traveled in the performance of official duty when the travel is by private airplane. Mileage by private aircraft must be computed by actual air mileage when only one state employee or official is traveling; if two or more state employees or officials are traveling by private aircraft, the actual mileage must be based on the road mileage between the geographical points. Reimbursement for private airplane travel must be calculated as follows:
 - (1) If reimbursement is for one properly authorized and reimbursable passenger, reimbursement must be paid on a per mile basis as provided in this subsection.
 - (2) If reimbursement is claimed for a chartered private aircraft, reimbursement may not exceed the cost of regular coach fare on a commercial flight, if one is scheduled between the point of departure, point of destination, and return, for each properly authorized and reimbursable passenger on the charter flight; or, where there is no such regularly scheduled commercial flight, the actual cost of the charter.
 - b. Except as provided in subdivision a, when travel is by rail or certificated air taxi commercial operator or other common carrier, including regularly scheduled flights by airlines, the amount actually and necessarily expended therefor in the performance of official duties.
- 2. No reimbursement may be paid for leased private aircraft, except for leased or rented private aircraft from a recognized fixed base aviation operator who is in the business of leasing and renting private aircraft and is located on an airport open for public use.
- 3. If only one person engages in such travel in a motor vehicle exceeding at any geographical point three hundred miles [482.80 kilometers] beyond the borders of this state, reimbursement is limited to eighteen cents per mile [1.61 kilometers] for Page No. 4 miles driven in excess of six hundred miles [965.60 kilometers] of round trip out-of-state travel.
- 4. An official, deputy, assistant, clerk, or other employee, when required to travel by motor vehicle or truck in the performance of official duty, shall use a state-owned vehicle whenever possible unless exempted under section 24-02-03.3. However, an agency, institution, department, board, bureau, or commission may allow use of an official's, deputy's, or employee's personal motor vehicle in circumstances authorized by the official, deputy, or the employee's supervisor. If personal motor vehicle use is authorized under this subsection, the agency may also allow mileage reimbursement at a rate less than that otherwise provided in this section. When official travel is by motor vehicle or airplane owned by the state or by any department or political subdivision of the state, no allowance may be

- made or paid for such mileage, except that governmental entities may share expenses when officials or employees of those entities travel in the same motor vehicle or aircraft.
- 5. Notwithstanding the other provisions of this section, state employees permanently located outside the state or on assignments outside the state for an indefinite period of time, exceeding at least thirty consecutive days, must be allowed and paid thirty-one cents per mile [1.61 kilometers] for each mile [1.61 kilometers] actually and necessarily traveled in the performance of official duty when such travel is by motor vehicle, and the three-hundred-mile [482.80-kilometer] restriction imposed by subsection 3 does not apply.
- 6. Before any allowance for any such mileage or travel expenses may be made, the official, deputy, assistant, clerk, or other employee shall file with the employee's department, institution, board, commission, or agency an itemized statement showing the mileage traveled, the hour of departure and return, the days when and how traveled, the purpose thereof, and such other information and documentation as may be prescribed by rule of the employee's department, institution, board, commission, or agency. The statement must be submitted to the employee's department, institution, board, commission, or agency for approval and must be paid only when approved by the employee's department, institution, board, commission, or agency.

Office of Management and Budget

Travel

August 1, 2003

Policy 505 - Reimbursement for Meals and Lodging

NDCC Chapter 44-08-04 provides for reimbursement of employee expenses for meals and lodging while an employee is away from their normal working and living residence.

If meals are included as part of a registration fee for a conference, seminar, or other meeting, the employee should be reimbursed for the entire registration fee, if paid by the employee. However, the employee cannot claim reimbursement for the applicable meal allowance for that quarter. An employee should be reimbursed for meals paid by the employee while attending a meeting at the request of, or on behalf of, the state or any of its subdivisions, agencies, bureaus, boards, or commissions.

Chapter 44-08-04 provides that reimbursement is allowed only for overnight travel and other travel while away from the normal place of employment for four hours or more. Employees will not be reimbursed for the first quarter if travel began after 7:00 a.m. In order to claim expenses for the second and third quarters, the employee must have been in travel status one hour before the start of the quarter being claimed, and travel status must extend at least one hour into the quarter being claimed. The expense allowance for each quarter of any 24-hour period is as follows:

| Meal Allowance | <u>In-State</u> | Out-of-State |
|-----------------------------------------|-----------------|-----------------------|
| 1. First quarter, 6 a.m. to 12 noon | \$4.00 | 20% at GSA daily rate |
| 2. Second quarter, 12 noon to 6 p.m. | \$6.00 | 30% of GSA daily rate |
| 3. Third quarter, 6 p.m. to 12 midnight | \$10.00 | 50% of GSA daily rate |

4. Fourth quarter, 12 midnight to 6 a.m.

In-State Lodging:

Maximum of \$45.00 plus any additional applicable state and local taxes on lodging. If the room is more than \$45.00, the individual may only be reimbursed for the additional taxes based on \$45.00, and the additional taxes must be pro-rated. For example; if the room is 50.00 and taxes are 50.00, the individual will be reimbursed 45.00 plus $45/50 \times 5 = 4.50$.

Out-of-State Lodging: Actual lodging expense.

(continued)

Office of Management and Budget Travel

Policy 505 (continued)

August 1, 2003

Those persons engaged in travel outside of the continental United States shall be reimbursed for meals as follows:

➤ The allowance for meals in Canada, Alaska, and Hawaii may not exceed one and one-half times the current continental United States standard rate for federal employees established by the United States general services administration.

> The allowance for meals outside the continental United States, Canada, Alaska, and Hawaii may not exceed two times the current continental United States standard rate for federal employees established by the United States General Services Administration.

The standard rate for the continental United States is \$31 effective October 1, 2003.

Verification of claims via receipt is not required for the first three quarters but is required for lodging (see Policy 513 also). Receipts are also required for each taxi fare in excess of \$10 and for other miscellaneous expenses in excess of \$10. Parking fees may be claimed only with a receipt from a hotel/motel or airport.

The head of any department, institution, or agency may set a rate for out-of-state travel which is less than that set forth by statute.

NOTE: Before any allowance for such mileage or travel expenses will be made, the official, deputy, assistant, clerk, or other employee will file with the agency, an itemized statement showing mileage traveled, the purpose thereof, and such other information and documentation as may be prescribed by the IRS, or an agency. Statements such as "to attend a meeting" etc., should not be accepted as sufficient documentation for purpose of travel.

If an employee is not claiming reimbursement for lodging, please indicate such on the Travel Expense Voucher. A fillable and printable Adobe (.pdf) Travel Expense Voucher can be found at: http://www.state.nd.us/eforms/Doc/sfn52785.pdf

If an employee is claiming reimbursement for meals for travel when no overnight stay is involved, the meal reimbursement is taxable. When completing the Travel Expense Voucher, taxable meals must be noted accordingly. The employee will receive the full meal reimbursement and the taxes will be withheld through the payroll system during the next payroll cycle.

See Out-of-State Meal Allowance Rates at http://www.state.nd.us/fiscal.

ANALYSIS OF STATE EMINATION YEE SALARY INCREASES

11 In addition, the 2001 Legislative Assembly provided:

\$5 million, \$2.7 million of which is from the general fund, for market equity compensation adjustments for classified employees as approved by the Central Personnel Division. \$4,628,824 from the general fund for equity and special needs for entities under the control of the State Board of Higher Education. A portion of this amount may be used for salary increases to address equity issues

\$178,233, \$142,697 of which is from the general fund, for salary equity adjustments for elected and appointed officials.

\2 In addition, the 2005 executive budget recommends:

\$5 million, \$2.5 million of which is from the general fund and \$2.5 million of special funds for market equity salary adjustments based on market data for all classified employees. Those employees furthest from market will receive the largest increase. Employees at or above the midpoint of their salary range will not receive adjustments. \$1 million to the Department of Corrections and Rehabilitation to provide market equity salary increases for correctional officers.

TESTIMONY IN SUPPORT OF HB 1050

Before the Government Performance Subcommittee House Appropriations Committee February 7, 2005

Chairman Carlson and members of the Government Performance Subcommittee, my name is Chris Runge and I am the Executive Director of the North Dakota Public Employees Association, American Federation of Teachers Local 4660. I am here to testify in support of HB 1050. First of all, I would like to thank the sponsors of the bill for submitting legislation to fully fund a 4% and 4% pay raise. This bill differs slightly from Governor Hoeven's compensation package submitted in HB 1015 as it fully funds the 4% pay raise in the second year of the biennium, a one percent difference.

We know that you have been given all the facts and figures of where the state employees stand in terms of their wages and that they lag behind the market ranging from 14% to over 30%. It is also important to note that as the baby boomers start retiring there will be an even larger impact on state employees and the need to recruit workers. We will

Quality Services from Quality People

Testimony

have more positions open and it is becoming harder and harder to recruit and retain qualified employees. And when a new employee is hired many times the agency have to pay more which creates a compression problem with long-term employees. It also creates a morale problem when a new employee starts at a salary close to an existing employee.

Turnover has also been dramatic during the first five years of employment, according to the State Employee Compensation report, almost 50%. We lose 27% of our state employees during their first two years on the job. The cost to recruit and retain employees would be less if we kept pace with market pay.

The quality of our state workforce is tremendous. They provide quality services to the citizens of North Dakota each and every day. We want you to know that we will continue to do our jobs for citizens but ask that you support the fully funded 4% and 4% pay raise contained in HB 1050 as well as the equity pools contained in HB 1015 and in the Corrections budget. We also ask that the State continue to fully fund the health insurance premium, allowing our state employees to not further lose ground.

We are cognizant of the balancing act that you must accomplish with the money that is available to you. We are equally cognizant of the competing need for funding for corrections, human services, higher education and other programs. We hope that you will see the needs of state employees as a priority this session and pass HB 1050, the equity pools in HB 1015 and the Corrections budget and fully fund the health insurance plan. The majority of state employees did not receive any pay raise during the last session and a

pay raise is sorely needed. Once again, thank you to the sponsors of HB 1050 and we hope that you will give HB 1050 a DO PASS recommendation.

Thank you and I am available to answer any questions that you may have.

Testimony Government Performance Subcomittee of the House Appropriations Committee 2/7/05

Good morning Chairman Carlson and members of the committee. My name is Dennis Fewless. I am a long-time state employee and a member of the Independent North Dakota State Employee Association.

I am a director of a division of 33. Over the years, my staff and I have watched as our colleagues in energy companies, product manufacturing, and federal and local agencies have received better pay and continued cost-of-living and merit increases. And we have watched as our bills for electricity, heating, groceries, etc. continued to increase, greatly outpacing our abilities to pay.

We are encouraged by HB 1050, which can help correct some of these inequities. I believe HB 1050 is absolutely necessary to obtain and maintain a workforce that can ensure a high quality of life and environment for economic growth in North Dakota.

I encourage you to vote yes on HB 1050. Thank you, Chairman and committee members for your consideration and time.

TESTIMONY IN SUPPORT OF HB 1050 House Appropriations

February 7, 2005

تبياني ..

2/6/05 5:53 PM

Mr. Chairman and Members of the Committee. My name is Bob Evans. I am a long time state employee with over 30 years of service to the state. Most of those years have been with the Department of Transportation. I currently serve as the Director of Human Resources with NDDOT. My testimony is on my own behalf and does not reflect the official position of NDDOT.

In that I am unable to appear in person, I request the committee accept my written testimony for the record. I had previously appeared before committee in support of HB 1015. My written testimony for HB 1050 largely parallels my previous testimony.

Throughout the many years of employment, there have been several cycles of employee pay market deficits and then catch-up raises. I have also experienced several creative changes in the way benefits were funded in order to maximize the effectiveness of employee expenditures.

The current salary deficit is the most severe deficit experienced. State employee salaries lag by very significant amounts the salaries that are paid to cities, counties, other states, and the major private sector employers in and out of North Dakota.

This deficit is creating a severe morale problem. NDDOT conducts a periodic survey of employees as a part of our department performance management system. In the most recent survey, March 2003, the second lowest rated questions was, "Among the DOT employees, morale is high." In other parts of the survey, employees report that they like the department, they like the work and mission of the organization, they like their supervisors and fellow employees. The only significant area of concern relates to concern about the level of salaries and prospects for competitive salaries in the future.

As a result of the very positive discussions about employee salary increases based on HB 1050, I sense a real relief from the salary doldrums. The prospect of up to 8% salary increases over the course of the upcoming biennium is having a very positive impact on morale.

I am well aware of the total compensation concept and am well aware of the importance of the benefits to my financial well-being. I would also add that we are all grateful for the creativity in creating the most cost effective benefit system anywhere. For the dollar spent, state employees have the

best benefit package. I thank legislature for this great package.

م يلجه ۽

I think many of you are aware that NDDOT has experienced difficult recruiting challenges for many of our technical career areas. As a result of important tools provided in past sessions, combined with a short term hiring pause for civil engineers, the department has been able to fill most of these positions. Now, our goal is to retain this valuable young talent.

Younger employees do not have the same appreciation for benefits that our more mature employees. Younger employees are concerned mostly about getting established, starting their families, and paying off their student loans. For them, concerns about retirement and health insurance are years off.

The state needs a balance. We do need benefits because we get such a big bang for our buck. We also need competitive salaries, because the value of benefits is not equal for all employees. Unless we have competitive salaries to match up with an excellent benefit program, I am concerned that the state's investment in these excellent young employees will be lost because they will feel forced to go where competitive salaries and largely similarly valued benefits is available.

I urge a Do Pass on HB 2050 and then quick action on the floor to maintain this very positive message regarding employee salaries.

TESTIMONY ON HB 1050

HOUSE APPROPRIATIONS COMMITTEE

February 6, 2005

Mr. Chairman and members of the committee, my name is Tom Tupa and I am representing the Independent ND State Employee's Association (INDSEA). I am here in urging your support for HB 1050.

One of the 2004 goals of INDSEA was to seek a "reasonable salary increase applied equitably to all State employees". We think HB 1050 will help achieve this goal.

In 2003, there was an attempt to provide a slight salary adjustment but that effort did not become a reality for many employees. While some employees did get their increases, not everyone was so fortunate. And, many of those employees who did get salary adjustments in the current biennium, got them as a result of a reclassification, promotion, or an increased workload.

We applaud those departments and agencies that were able to give adjustments.

We also applaud the sponsors of 1050 who recognized the need to adequately compensate all State employees.

INDSEA believes HB 1050 needs support and passage. By now, most employees and legislators have seen or heard of the Compensation report put together by the ND Human Resource Management Services Office of OMB. The information contained in that report, shows ND state employee salaries far behind most other states and the private market. HB 1050 will help close the gap.

The report also identified a high turnover rate of State employees in the first five years of employment. We believe HB 1050 will also help reduce that turnover rate.

Mr. Chairman and committee members, I urge you to give serious consideration to HB 1050 and its request for the 4 % salary increase this year and another 4% in 2006. Please give HB 1050 a strong "do pass" recommendation.

Thank you, Mr. Chairman and committee members. I will try to respond to any question you might have.

NOTE: This report does not include institutions under the control of the State Board of Higher Education and agriculture research and extension entitles.

The 2003 Legislative Assembly provided contingent stalay increases for the executive and judicial branchas up to 1 percent of salaries effective January 1, 2004, and up to 2 percent effective January 1, 2005. The increases were to be provided from savings resulting from the eliminated positions and savings from other vacent positions are to be pooled and used for executive and judicial branch employee salary increases. At least 70 percent of the funding for the increases provided must be from pooled savings of the eliminated positions.

The Office of Management and Budget reported that the executive branch pool and the state elected officials pool did not include sufficient savings from eliminated or vacant positions to allow for state employee salary increases at 1 percent salary increases effective January 1, 2004.

The 2003 Legislative Assembly provided funding for the following salary equity adjustments:

| | General Fund | Special Funds | Total |
|-------------------------------------------------------------------------|-----------------|------------------|-----------|
| Attorney General's office for assistant attorney's general | | \$241,024 | \$241,024 |
| Legislative Council | \$150,000 | | 150,000 |
| Public Employees Retrement System | | 80,362 | 80,362 |

TESTIMONY IN SUPPORT OF AMENDMENTS TO HB 1050 TO REINSTATE THE 4% AND 4% SALARY INCREASE AND THE \$5 MILLION EQUITY POOL Before the Senate Appropriations Committee Monday, March 7, 2005

Good afternoon Chairman Holmberg and members of the Senate Appropriations Committee, my name is Gary Feist and I am president of the North Dakota Public Employees Association AFT 4660. I have been a state employee for the past 14 ½ years as an auditor in the Tax Department. I also currently represent classified employees on the State Employee Compensation Commission (SECC).

I am here today to ask you support and reinstate the SECC's recommendation of a 4% & 4% across the board salary increase in HB 1050 and the \$5 million dollar equity pool in HB 1015 for those employees who are furthest from their midpoints with the most years of service. I have heard some legislators and citizens of North Dakota say that the 4% and 4% is a too large of an increase. I believe the 4% and 4% is fair and reasonable considering that most state employees did not receive a salary increase during the last biennium. The 4% and 4% is really only a 2% increase for years 2003 through 2007. The 4% and 4% will only maintain the current purchasing power for an employee when considering that inflation has been 1.9 to 2.3% over the past couple of years.

North Dakota has quality public employees providing quality services to the citizens of North Dakota each and every day of the year. We have quality employees that maintain and plow the roads we drive, highway patrol and correctional officers that keep us safe, and auditors like me, which help collect the revenue for the state by administering the laws passed by the legislature. I believe this legislature

Quality Services from Quality People

Testimony

must pass the 4% and 4% salary proposal to remain competitive in recruiting and maintaining its quality employees. In the 2004 State Employee Compensation Report distributed by the North Dakota Human Resource Management Services division of OMB it is stated that currently the state loses 27% of its employees before their 2nd anniversary and that 50% of the turnover is attributable to employees with less than 5 years of service. Another important fact in the report states that in March of 2007 32% of state employees will by eligible for retirement. Passing the 4% and 4% and the \$5 million equity pool as recommended by the SECC and included in Governor Hoeven's budget will be a step in the right direction to achieving the state's goal of maintaining a quality workforce. In passing the 4% and 4% pay increase, the state will also be making an investment in its greatest asset, its people.

÷,

The 2004 North Dakota State Employee Compensation report released by NDHRMS states that the classified employees have fallen further behind the market over the last two years and now are 13.3% to 30.4% below market. The report also shows that to maintain the state's goal of keeping its pay ranges at 95% of market; the midpoints would have to be moved 10.5 % to 24%. If the ranges were moved, NDHRMS stated that it would cost \$2 million a year to bring employees to the new minimums and \$25 million to keep employees at their same position within their pay ranges. State employees realize that we cannot make up these differences over night, but the state must start to close the gap if it wants to be competitive in maintaining its quality workforce.

NDPEA and all state employees are appreciative of the state paying 100% of the premium of a family health insurance plan and we will continue that cost-sharing agreement. Maintaining the fully funded family plan is critical in keeping the state competitive. In the NDHRMS compensation report, it is also noted that in comparing total compensation North Dakota is 10.1% below the 10-state average.

Amending HB 1050 to fully fund the across the board 4% and 4% pay increase in HB 1050, providing for an equity pool of \$5 million in HB 1015, and maintaining the health insurance will go a

long way to improving the morale of public employees and providing a feeling to public employees that the quality services they provide to the citizens of ND are valued by this legislature and the citizens of North Dakota. NDPEA and all state employees request that this committee and the senate amend HB 1050 to include the fully funded 4% and 4% and amend HB 1015 to include the \$5 million dollar equity pool.

Thank you for this opportunity to testify today and I am available to answer any questions you may have.

14

PROPOSED AMENDMENT TO HOUSE BILL NO. 1050 Prepared by the North Dakota Public Employees Association AFT 4660, AFL-CIO Submitted to the Senate Appropriations Committee March 7, 2005

Page 1, line 1, after A BILL replace the remainder of the bill with "an Act to provide an appropriation for state employee compensation adjustments.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. APPROPRIATION—STATE EMPLOYEE COMPENSATION. The sums hereinafter listed, or so much of the sums as may be necessary, are appropriated from the general fund and from special funds or moneys derived from federal funds or other income in the state treasury, not otherwise appropriated, as indicated to the agencies and institutions of state government for the purpose of providing compensations adjustments to employees of the various agencies and institutions in accordance with section 2 of the Act, for the biennium beginning July 1, 2005 and ending June 30, 2007.

SECTION 2. LEGISLATIVE INTENT - STATE EMPLOYEE COMPENSATION

ADJUSTMENTS - GUIDELINES. It is the intent of the fifty-ninth legislative assembly that 2005-07 compensation adjustments for permanent state employees are to be increases of four percent, beginning with the month of July 2005, to be paid in August 2005, and four percent, beginning with the month of July 2006, to be paid in August 2006, subject to the following limitations:

- 1. Employees whose documented performance levels do not meet standards are not eligible for the general increases.
- 2. Probationary employees are not entitled to the general increases. However, probationary employees may be given all or a portion of the increases upon completion of probation, at the discretion of the appointing authority.
- 3. During the biennium, no salary increase other than the four percent in July 2005 and the four percent in July 2006 may be given to an employee whose salary exceeds or would exceed the salary range maximum."

Renumber accordingly.

Testimony of
Agriculture Commissioner Roger Johnson
HB1050
Senate Appropriations Committee
March 7, 2005

Chairman Holmberg and members of the Appropriations Committee, I am Agriculture

Commissioner Roger Johnson. I am here today in support of HB1050 which provides raises to state employees of three percent and four percent for the coming biennium.

The lack of raises for state employees as a result of the 2003 Legislature has had a detrimental impact on state employees' morale and has caused our agency significant monetary and other losses.

We are a small state agency—the 2003 Legislature authorized us for 57 FTEs. In the first eighteen months of the current biennium, we have lost ten employees, and the lack of raises for state employees was a significant factor in this extremely high turnover rate. All but one of these employees went to positions outside state government. In the previous biennium, only three employees left our agency for other employment. Of those three, two went to positions outside state government and one left as a result of disciplinary action.

Losing a state employee represents not only the added cost of recruiting and filling a vacant position, it also represents a loss of investment in training, it represents a loss of valuable experience and it represents added costs of training a new employee.

The work these people do every day is just as important as the work of those who teach in public schools and universities. Approving this package of raises would send a strong signal to the employees that make sure that your food is safe, that ensure that pesticides are not misused and provide an array of other necessary services to the public.

Further, I request that you consider modifying the current pay package to the level recommended by the Employee Compensation Commission given the good news in the budget forecast. I respectfully request that you consider raises of four percent during each of the two years of the biennium with the reestablishment of the equity pool recommended by the commission and the governor.

Thank you for the opportunity to testify. I'd be happy to answer any questions that you have.

Independent North Dakota State Employees Association

P.O. Box 1714 Bismarck, North Dakota 58502

TESTIMONY ON HB 1050

SENATE APPROPRIATIONS COMMITTEE

MARCH 7, 2005

Mr. Chairman and members of the committee, my name is Tom Tupa and I am representing the Independent ND State Employee's Association (INDSEA). I am here in urging your support for HB 1050.

In 2004 INDSEA had as one of its objectives in the 2005 Session a "reasonable salary increase applied equitably to all State employees". We think HB 1050 will help achieve this objective. But, we would like to see it go back to its original 4 and 4 and urge the committee to make that adjustment.

In 2003, there was an attempt to provide a slight salary adjustment but, that effort fell short. Higher Education and some other employees did get their increases, while others did not. Some increases were for reclassifications or promotions.

By now, legislators have seen or heard of the Compensation report put together by the ND Human Resource Management Services Office of OMB. The information contained in that report, shows ND state employee salaries far behind most other states and the private market.

I would like to make a couple of comments about the findings. The report shows a high employee turnover rate in the first 5 years of State employment. That tells me that State government has become a training ground for other employers. Those "other"

I

employers, be they in the public or the private sector, are getting the cream of the crop of our entry-level employees. We need to halt the State employee out migration to other employers and perhaps even out of State.

The Compensation Report also addresses the retirement projections for the next several years. If we think we have a problem with recruitment and retention of good, quality employees today, wait till 2007 and beyond when it is projected we could have 32 % of our State workforce eligible for retirement.

Regarding the adjustments, I would like to ask the committee to give detailed attention to the distribution formula for whatever the end result will be. Last session, the Legislature tried to provide for a small salary adjustment tied to the reduction in employee positions. But, I think, the lack of guidance and direction from the Legislature prevented some of the adjustments from happening. I ask that as legislators, you provide more direction on how to distribute the salary increases more equitably.

Mr. Chairman and committee members, I urge you to give serious consideration to HB 1050 and the request for salary adjustments in the next biennium. Please give the bill a strong "do pass" recommendation with the extra 1%.

Thank you Mr. Chairman and committee members.

Senate Appropriations Committee

House Bill 1050

Mr. Chairman and members of the Committee, I am Linda Houfek and I am the Human Resources Director for the Department of Corrections and Rehabilitation. I am here today to talk about the \$5 million equity pool and pay raises for state employees.

The DOCR has approximately 650 authorized staff and on average about 40 temporary employees. We employ staff in several job categories including administrators/management, professional, para professional, protective service staff, administrative services staff, skilled craft and service/maintenance staff. DOCR staff are located in four separate facilities and in fourteen regional locations throughout the State.

It has been my good fortune to work for the DOCR for the last 20 years, first for the NDSP and now for the Central Office of our department. Our employees, as other state employees, are dedicated to the work that they do. Work where the primary responsibilities are public safety and the supervision of offenders who are placed in the care, custody and control of the DOCR. These are not glamorous jobs; they are jobs that if we are doing them well will not attract media and public attention. Many of our staff work shifts. Some of these shifts start early in the morning and others end late at night. In the community our juvenile corrections staff and parole and probation staff are called upon to work at all hours of the day and night. For the majority of our staff, their work takes no holidays or weekends and often finds our staff away from their families at times when normally families are spending time together. The potential for danger is great every working day.

The number of offenders that we supervise has increased tremendously (the inmate population, for example, has almost doubled in the last 10 years from 677 to 1329). The complexity of work done by the DOCR has also increased placing a strain on our budget and on the staff to ensure that in the institution and in the community we are meeting the legal, medical, treatment, education and safety needs of offenders, and at the same time maintaining staff and public safety.

The average salary for the DOCR is approximately \$29,000 a year and a large number of our staff earn well under that amount. An entry level Correctional Officer starts out as a temporary employee and earns \$1750 per month or \$21,000 a year and receives no benefits. In the last three years our overall turnover rates have exceeded the state average by about 2% and in some units within our divisions it has exceeded the state rate by as much as 4%. Turnover in our longer-term temporary positions, in some of the divisions, have at times been 70% to 80%. We struggle to retain staff in several positions.

Recruiting has also presented challenges to the DOCR. We find ourselves with more vacancies and often fewer applicants. On average it takes well over three months to fill many of our treatment position vacancies, and at times well over that to fill Registered Nurse vacancies.

In 1999 and again in 2001, the DOCR received over \$500,000 from the Market Equity dollars appropriated by the legislature through the Office of Management and Budget/HRMS. This was used to adjust staff salaries, under the midpoint of their salary ranges, based on years of service. In 1999, 79% of our staff received an average adjustment of a 2% equity increase and in 2001, 92% received an average of a 2% equity increase. By combining these increases along with the general increases, we begin to see staff move away from the bottom of their pay ranges.

Using the flexibility provided by the HRMS salary adjustment rules, administrators and supervisors have been able to provide increases for moving staff off probation, promotions, workload/responsibility adjustments on a limited basis and equity increases for a few crisis level staffing situations.

Our staff, as other State employees, did not go to work for the State expecting to become wealthy, but they do want to be compensated fairly for the work that they do.

INTRODUCTION

This report is provided as a resource describing and analyzing the compensation of North Dakota State Employees. The report focuses on "career service" employees.

North Dakota currently employs approximately 7,316 'regular' employees. This number does NOT include the University System. This number does not include temporary employees

Generally, the 7,316 employees is comprised of:

Classified 6.409

Career or Civil Service employees under the jurisdiction

of HRMS Personnel System

Unclassified 907

Includes State Officials (Elected, Appointed, Deputies); Legislative Council staff; ND Court System; Workforce Safety & Insurance; Dept of Commerce; Physicians;

Teachers; and other miscellaneous categories

This report focuses on the compensation of the Classified or Career Service employees under the jurisdiction of the classification system administered by the Human Resource Management Services (HRMS) Division of the Office of Management and Budget. The North Dakota Class Evaluation System administered by HRMS provides a consistent basis for determining the relative value of jobs within state government and for comparing that value to the compensation for jobs outside of North Dakota state government.

CLASSIFIED EMPLOYEE INFORMATION

The following tables provide a snapshot of facts and figures describing the classified workforce of the state. The first table describes an average employee over the years.

| \$75,000to \$80,000 \$11 \$ 0.2 | Light malan |
| \$80,000to \$85,000 | 200700 |
| \$85,000 to \$90,000 \(\) 2 0.0 | 1% |
| 6,409 | 1 |

- Over 46% of the classified workforce earns less than \$30,000/yr
- 22% of the classified workforce earns more than \$40,000/yr

These pay levels may be put further into context with some information regarding the education levels of the workforce:

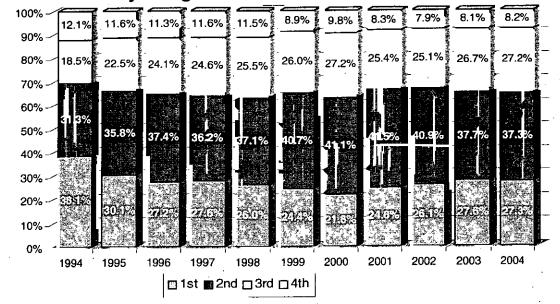

- 82% of Classified Employees have formal education or trade school beyond high school
- 54% of Classified Employees have a bachelors degree or higher

In the North Dakota general workforce:

- 84% of workers have completed high school
- 22% have a bachelors degree or higher

One goal of a pay plan is to establish salary ranges that are competitive within the employment market. A second goal is to pay employees properly within the salary range based on individual value to the organization (performance, training, experience, etc). One issue facing North Dakota is that funds have not been available to distribute pay of existing employees through the ranges. Consistently, over 2/3 of our employees have been paid in the lower half of their assigned salary range.

Salary Range Quartile Distribution

Percent of employees

TURNOVER INFORMATION

Turnover rates are often used to evaluate the workplace. Compensation is one employment factor that can affect turnover rates. Other working conditions, benefits, employee/management relations, personal opportunities, and personal issues such as family and spouse employment opportunities can also play a role at least as significant as pay in job retention.

Detailed analysis can identify certain occupations or other demographic segments with more significant turnover issues. The following tables show an overall rate of 8.4% but identify some specific segments of our workforce where turnover is a more significant issue.

Implementation of the ConnectND HR module has improved the capability to separate Inter-Agency Transfers when analyzing turnover information.

| Percent | of Total Turnov | er By Reason |
|----------------------|---------------------|-------------------------|
| Reaso | on with the wheat o | .∉∵2001 <u>: ∵ 2002</u> |
| | Involuntary | 10.5% 9.4% 12.1% |
| , incress profession | Retirement | 14.4% 17.5% 22.2% |
| Other Emp | loyment/Personal | 66.9% 66.4% 44.7% |
| Hea | ilth or No Reason | 8.2% 6.7% 20.9% |

The reasons people leave state employment show a steady increase in retirement which is consistent with overall workforce demographics.

Although there is a reduction shown in resignations for 'Other Employment/Personal', it appears that may be offset by the increase in 'Health or No Reason'. Some resigning employees simply will not reveal their reasons or future plans.

Turnover rates by occupation are generally confirmed by agency observations of areas where recruiting is difficult. Agencies report that it's more and more difficult to find well-qualified administrative support staff. Educational positions are difficult to fill. Medical/Health occupations continue to see high demand. Custodial & Food Service have shown a significant increase from 2002 to 2003. Lower turnover rates showing up in Information Technology and Engineering

| Occupation | 2001 | 2002 | 2003 |
|----------------------|-------|--------|-------|
| Admin Support | 9.1% | € 8.2% | 9.7% |

| Labor/Trades | 6.5% | 5.2% | 6.0% |

occupations is probably due to aggressive salary administration triggered by high demand in those occupations for a number of years.

Finally, when turnover occurs in terms of years of service gives us further clues of what issues might exist. A very large portion (nearly 50%) of our total turnover occurs with employees who have less than 5 years of service.

Especially noteworthy is the rate of 27% for employees with 1-2 years of service; in other words, we lose over ¼ of our employees between their 1 and 2 year anniversaries!

| The rate reduces significantly | CARREST OVER 1904 SECTION OF THE PROPERTY OF T |

Obviously then, turnover increases dramatically as employees with 30 and over 40 years of service qualify for retirement.

RETIREMENT PROJECTIONS

A few basic projections done the ND Public Employees Retirement System in March of this year showed that just over 6% of current employees are eligible for 'Normal' or 'Rule of 85' retirement. Another 15% meet requirements for early retirement.

Those same projections advanced to March 2007 showed 13% of current employees eligible for 'Normal' or 'Rule of 85' retirement. Another 19% would meet requirements for early retirement at that time.

The aging 'Baby Boomer' workforce impacting employment throughout the country is also being felt in North Dakota.

The following table compares salary increases appropriated for classified state employees with Market Increases reported through annual Salary Budget Surveys conducted by World at Work (formerly the American Compensation Ass'n) and with the annual reported CPI increase.

| | | Salary Increase History | | |

SALARY SURVEY

Salary survey information is obtained from two sources. North Dakota participates with 26 other states in the Central States Compensation Association. The CSCA is a consortium formed to lessen the burden of states surveying each other and to ensure and improve the quality of salary survey information.

North Dakota focuses on the following 10 state governments for a comparative employment Market:

Colorado

Iowa

Kansas

Minnesota

Missouri

Montana

Nebraska

Oklahoma

South Dakota

Wyoming

The second source is Job Service North Dakota through Occupational Employment Surveys.

Data from both of these sources provide the basis for the following payline charts. Specific data from the two surveys are shown in Appendix 1 – CSCA and in Appendix 2 – Job Service ND.

The following payline charts show comparisons of State Classified pay, Salary Range Midpoints, and Employment Market pay.

Chart 1 – Shows the relationship of average salaries, salary range midpoints, and the employment market as of December 2004.

Chart 2 – Shows the same information as Chart 1 but 'zooms' in on grades 4-15 to show more detail. 97% of classified employees are in grades 4-15.

- Average Salaries are lagging market pay ranging from 14 to over 30%
- Classified Midpoints are behind market pay by 17 to 30%

Chart 3 – Shows where the midpoints $\underline{\text{should be}}$ to maintain a relationship of 95% of market pay

• Salary ranges need to be moved from 10 to 24%

Chart 4 – Shows that IF the midpoints are restored to 95% of market, average salaries would range from about 8% to 24% below the midpoints.

BENEFITS

Another significant component of employee compensation is the fringe benefit package. The CSCA includes benefits in the association's annual survey. Generally, the comparisons focus on the cost of benefits to the employer. Quality of benefits, especially insurances, is extremely difficult if not impossible to compare due to all the variables in coverage options. In general, North Dakota's benefit package is competitive. The following tables compare benefits among the states.

"Table 36 – Central States Regional Total Compensation Analysis (Classified Only)" is taken from the CSCA Benefit Survey Report. The table calculates a 'Total Compensation' value for each state based on the reported average salary for the respective state classified employees and calculates leave based on a 5 year employee. The analysis calculates the hourly value for each benefit and includes that in a Total Compensation value.

For our standard 10-state employment market, the Total Compensation values range from \$20.76/hr in South Dakota to \$32.36/hr in Iowa. The overall average Total Compensation is \$25.43. North Dakota's value is \$21.44 (18.6% below the average). If we include the additional 1% retirement contribution for retiree health insurance, North Dakota's value increases to \$21.60 (17.7% below the average). If we further include the 4% contribution made by the State on behalf of the employee, the value is \$22.23 (14.4% below the average).

ND HRMS

The following table provides a further detailed look at health insurance premiums paid by the ten states in our employment market. The health plans in various states include many variables and ranges of plan options making comparisons such as this very complex. The focus of the table is to compare the premiums (or range of premiums) paid by each state.

| | d encourage t | Single Prem | ium Split | .1 | Family Pren | nium Split |

| ND * | <i>\$230</i> | 100% \$230 | 0% \$0 | \$300 | 10076 \$300 | 0,0 |

Observations:

Single Plan

- The average premium ranges from \$318-\$365; the lowest is a CO plan at \$261
- States average 91% of the premium with average employer cost ranging from \$305-\$331
- Employees average 9% of the premium with the average employee cost ranging from \$31-\$34
- ND pays \$230 per month for 100% of the premium; less than the average minimum of \$305 paid by states
- Only 2 states contribute less than ND for the minimum employee only plan; CO
 \$156 (57%) and NE @ \$221 (70%)

Family Plan

- The average premium ranges from \$803-\$957; the lowest is a MT plan at \$572
- ND is the only state paying 100% of the premium
- States average 76% of the premium with employer cost ranging from \$326-\$910
- Employees average 24% of the premium with the average employee cost ranging from \$198-\$268
- ND pays \$568 per month for 100% of the premium
- 4 states contribute less than ND for the minimum family plan

North Dakota's 100% premium is less than the average 76% premium paid by the survey states.

OBSERVATIONS/CONCLUSIONS

- With no salary range movement and little salary increase activity this biennium, the State has continued to fall further behind employment market pay
- Both Salary Ranges and Average pay levels are far below market averages
- Fringe Benefit package which has been a key to retaining and recruiting is competitive but not a market leader
- The State must strive to maintain competitive salary ranges
- The State must strive to advance employees into/through their ranges with training and experience
- Distribute salary increases strategically to address inequities among employees and between agencies in order to maximize available funds

Explanation of Market/Equity Model

Employee List

- 1 8-tile Identifies which 8th of the range the employee's salary is in (5 indicates pay above midpoint).
- 2 Yrs Svc Employees total years of state service on 7/1/01

Range Compression Matrix

- 8-tile -1st, 2nd, 3rd, 4th octile (or eighth) of the salary range; 5 indicates any pay above midpoint.
- 4 Yrs Svc -3 groupings of years; 0-7 years, 7-12 years, over 12 years.

The spreadsheet bases the calculated salary increases on range position and years of service.

| An employee paid in the | 1st | eighth of the range with 0-7 yrs of service was identified for a | 2.1% increase. |
