27 1. The state water commission, on behalf of the state of North Dakota, may sell in
28 one or more parcels the land and building known as the "state water commission
29 maintenance shop" located at 2603 East Broadway Avenue, Bismarck, North
30 Dakota, and legally described as follows:

1 A tract of land lying in the Northwest Quarter (NW 1/4) of Section
2 Two (2), Township One Hundred Thirty-Eight (138) North, Range Eighty (80)
3 West of the Fifth (5) Principal Meridian, in the County of Burleigh and State of
4 North Dakota, and described as follows:

5 Commencing at the northwest corner of said section two; thence
6 traveling in a southerly direction along the west boundary of said section two
7 for a distance of seven hundred seventy-four and six-tenths feet (774.60);
8 thence turning a right angle to the left in an easterly direction along a line
9 which is parallel to the north boundary of said section two for a distance of
10 forty-seven feet (47.00), which shall be called the true point of beginning;
11 thence continuing due east along said line for a distance of eight hundred
12 forty-two and nine-tenths feet (842.90); thence turning a deflection angle of
13 ninety degrees and twenty-two minutes (90 degrees 22') to the right and
14 traveling in a southerly direction to a point of intersection with the north fifty

23 boundary of said section two for a distance of one hundred fifty feet (150.00)
24 to the point of beginning. Including all of the property bounded by the above
25 described line, subject to existing rights-of-way and easements.

26 The above described tract of land contains 11.77 acres, more or less.

27 2. The conveyance authorized by this section is exempt from sections 54-01-05.2 and
28 54-01-05.5. The conveyance may only be made after the property has been
29 appraised and the property must be sold at public auction unless no bid equals or
30 exceeds the minimum appraised value. The appraisal must be dated no earlier
31 than eighteen months before the auction. If at the public auction no bid equals or

1 exceeds the minimum appraised value, the state water commission may negotiate
2 a price for the land with a purchaser.

3 3. All proceeds from the sale or so much of the sale proceeds as may be necessary,
4 not otherwise appropriated, are appropriated on a continuing basis to the state
5 water commission for the purchase or lease of land and the construction of a
6 building and associated appurtenances to be used as a new maintenance facility.
7 The purchase authorized by this subsection may proceed only after completion of a
8 certified appraisal of the property to be purchased and completion of a physical
9 inspection of any building to be purchased demonstrating that the building is
10 structurally sound and suitable for the state water commission's purposes.

11 4. The attorney general shall review and approve the form and legality of all legal

16 must be used to purchase or lease land and construct a new maintenance shop building. If the
17 proceeds from the sale are less than \$977,100, the state water commission may use other
18 funds appropriated to the state water commission for the purpose of purchasing or leasing land
19 and constructing a new maintenance shop building. If the proceeds from the sale are not
20 available at the time the state water commission needs to purchase or lease land and construct
21 the new building and associated appurtenances, the state water commission may use other
22 funds appropriated to the commission provided that, upon receipt of the proceeds of the sale,
23 the state water commission shall transfer to the funds from which money was taken an amount
24 equal to any funds utilized for the purchase or lease of land and construction of the new
25 maintenance building. If the state water commission uses other funds appropriated to the
26 commission because the funds from the sale of the land and building are insufficient, the state
27 water commission need not make a transfer of sale proceeds. No more than a total of
28 \$977,100 may be expended from the amounts appropriated under this Act to purchase land and
29 construct the new maintenance building and associated appurtenances.

30 **SECTION 8. GRANTS - WATER-RELATED PROJECTS - CARRYOVER**

2 this exclusion is only in effect for two years after June 30, 2007. Any unexpended funds
3 appropriated from the resources trust fund after that period has expired must be transferred to
4 the resources trust fund and any unexpended funds appropriated from the water development
5 trust fund after that period has expired must be transferred to the water development trust fund.

6 **SECTION 9. LINE OF CREDIT - CONTINGENT APPROPRIATION.** If determined
7 necessary by the state water commission, the Bank of North Dakota shall extend a line of
8 credit, not to exceed \$25,000,000, which is appropriated to the state water commission, for the
9 biennium beginning July 1, 2005, and ending June 30, 2007.

10 **SECTION 10. REPAYMENT OF LINE OF CREDIT - CONTINGENT**
11 **APPROPRIATION.** If the line of credit authorized in section 9 of this Act is extended to the
12 state water commission by the Bank of North Dakota, there is appropriated out of any moneys
13 in the water development trust fund, the resources trust fund, bond proceeds, or other sources,
14 the sum of \$25,000,000, or so much of the sum as may be necessary, to the state water
15 commission for the purpose of repaying the line of credit, for the biennium beginning July 1,
16 2005, and ending June 30, 2007.

17 **SECTION 11. AMENDMENT.** Section 61-02-23.3 of the North Dakota Century Code is
18 amended and reenacted as follows:

19 **61-02-23.3. Construction and operation of the Devils Lake outlet - Authorization -**

21 an outlet from Devils Lake, including executing an agreement with the federal government
22 wherein the state water commission agrees to hold the United States harmless and free from
23 damages, except for damages due to the fault or negligence of the United States or its
24 contractors. The state engineer may employ full-time personnel and may employ such other
25 personnel as are necessary for the operation and maintenance of the Devils Lake outlet within
26 the limits of legislative appropriations for that purpose. Notwithstanding section 61-02-64.1,
27 funds disbursed from the contract fund and appropriated for the purposes of this section may be
28 used for salaries, equipment, operations, and maintenance costs relating to the Devils Lake
29 outlet.
