

Looking East

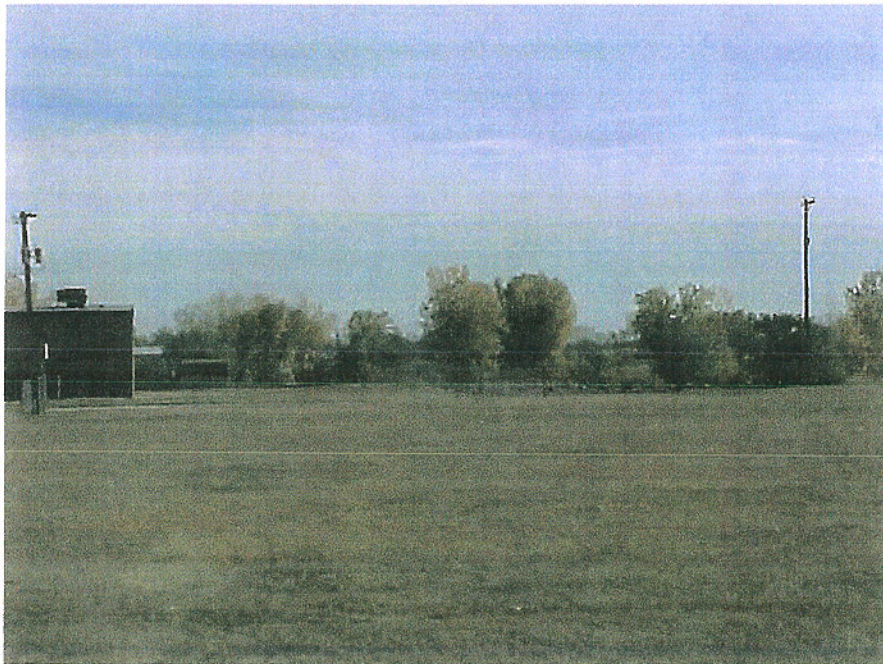

Looking Northeast

**SE Minot Public Works building (M-1 Light Industrial Zoned) located next to Manufactured Housing (MH Manufactured Home District). As the industrial areas expand, the effects upon the neighborhood increase. This is one of the areas at the edge of city limits.**

**Looking Southeast**

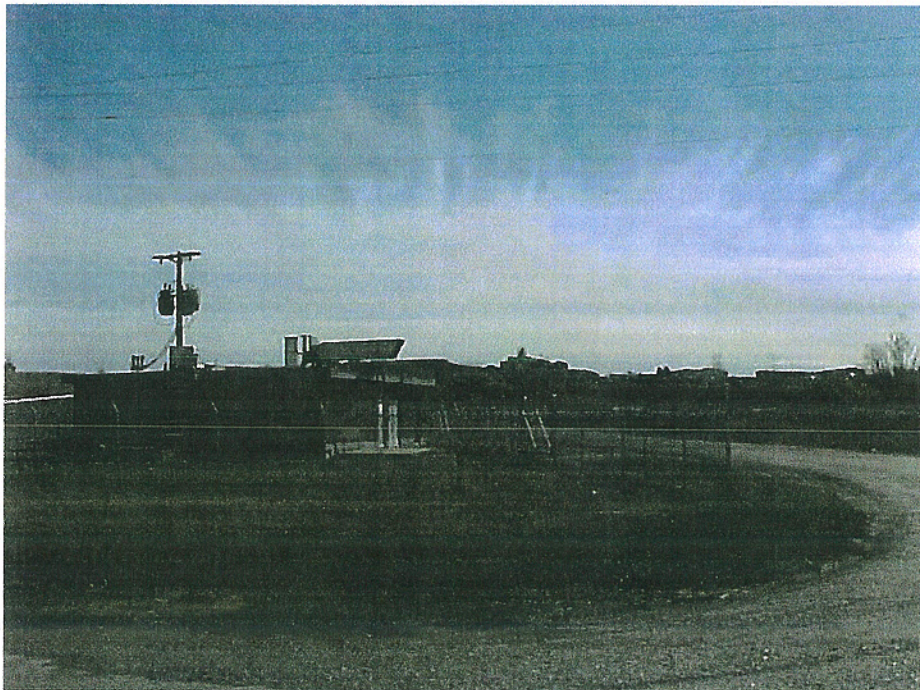

**Looking South**

**This area is also at the edge of city limits near a former elementary school. The Head Start program now runs the facility and it is surrounded by Industrial expansion.**

Looking Southeast

Looking South

These pictures represent a lift station serving a Manufactured Home Community in the back. It is adjacent to Highway Commercial and is currently charged 100% surcharge on city services. It was developed in the late 1970's and the city limits is within 500 yards.

**Commercial Rear Yard**

**Manufactured Housing**

Again, we have a housing district up against a heavy commercial district with no urban improvements and a minimal maintained road system.

**Highway 2 East / Frontage Road**

**Looking East on Highway 2 / Frontage Road**

**This is an example of a safety concern in that only 24 inches separate the divided highway and a frontage road.**
