Kevin McCoy
USA TODAY-Editorial Department
535 Madison Avenue
New York, NY 10022

Dear Mr. McCoy:

I must say, you have quite an extensive information request. Doing all that information justice, will take several issues of the USA TODAY. If we had many requests like yours we would have to hire an extra person to get all the information to you. Therefore we cannot provide the information free of charge but are charging you by the hour for the temporary help we have on hand plus \$.25 per page of copy as allowed by North Dakota law. We hope you will provide the remittance "soon" just as your request indicated.

In answer to your questions we have provided you with copies of the financial information from the audited financial statements for the last five years. There is a typical list of board members which we publish in our annual report and it has been included.

We typically have just one support staff in the board of pharmacy office, although just this last year we have begun operating the prescription drug monitoring program for North Dakota and we have 1.2 FTE's to operate that program.

All of our board members are appointed by the governor and all of them are pharmacists. Our board of pharmacy has recently decided to attempt to expand that to include one registered pharmacy technician and one public member. This has not been through the legislative process, as yet.

Boards members that have served the last five years are as follows with their appointment dates indicated:

Gary W. Dewhirst, R.Ph.	Hettinger	Term expires 2008	Appointed 2001
Bonnie J. Thom, R.Ph.	Granville	Term expires 2009	Appointed 2004
Laurel Haroldson, R.Ph.	Jamestown	Term expires 2010	Appointed 2005
Gayle Ziegler, R.Ph.	Fargo	Term expires 2011	Appointed 2008
Rick L. Detwiller, R. Ph.	Bismarck	Term expires 2012	Appointed 2002

Other members in past 5 years:

Dewey Schlittenhard, R.Ph.	Bismarck	Resigned 2008	Appointed 2001
Harvey J. Hanel, Pharm.D., R.Ph.	Bismarck	Term expired 2005	Appointed 1995
David J. Olig, R.Ph.	Fargo	Term expired 2004	Appointed 1994
Patricia M. Churchill, R. Ph.	Bismarck	Term expired 2002	Appointed 1992

We do not have their complete employment histories although we can report their current employment.

Gary W. Dewhirst, R.Ph. is a pharmacist working for Thrifty White Drug in Hettinger, ND. Gary previously owned the store but sold it a few years ago to Thrifty White, after his appointment to the board and has since then been reappointed to the board.

Bonnie J. Thom, R.Ph. worked for Trinity Hospital in Minot, ND, does consulting for several nursing homes, and is a co-owner of Velva Drug with her daughter.

Laurel Haroldson, R.Ph. from Jamestown, ND, works for Walz Pharmacy in Jamestown.

Gayle Ziegler, R.Ph., our most recent appointment to the Board of Pharmacy, is a hospital pharmacist at MeritCare South Campus in Fargo, ND.

Rick L. Detwiler, R. Ph. has managed several independent retail pharmacies in the past and currently manages the sterile products compounding pharmacy and out-patient pharmacy for St. Alexius Medical Center in Bismarck, ND.

Dewey Schlittenhard, R.Ph. served for seven years on the Board of Pharmacy, was appointed when he was the out-patient pharmacy manager for MeritCare Hospital in Fargo, and currently is the vice-president of Ancillary Services at St. Alexius Hospital.

Harvey J. Hanel, Pharm.D., R.Ph. was a hospital pharmacist, went on to teach at North Dakota State University College of Pharmacy, worked as a trainer for a small group of retail pharmacies and now is the pharmacist at Workforce, Safety, and Insurance.

David J. Olig, R.Ph. owns and operates Southpointe Pharmacy in a Clinic in Fargo, ND.

Patricia M. Churchill, R. Ph. owned a couple of pharmacies along with her husband, Jim Churchill, R.Ph., and has since sold those pharmacies and works for Thrifty White in Mandan, ND.

The terms of board members are typically 5 years unless someone resigns early or moves out of state. The Pharmacist Association, which provides the nominees to the governor, has enforced upon themselves an arbitrary limit of two five-year terms although there is no limit in the statute or rule.

I typically use two or three contract employees to do inspections and investigations, and since we are a small state go myself if that is necessary. All of our investigative staff are pharmacists.

The North Dakota State Board of Pharmacy oversees a total of 235 pharmacies:

Hospital pharmacies=48 Retail pharmacies=170 Tele-pharmacies=17

As of the date of this letter this is the most current statistics:

Pharmacists-770 ND; 1214 Out-of-state

Interns-369 Technicians-567 Wholesalers-623

We inspect our pharmacies every year with unannounced inspections, although it is a little difficult to keep it secret when the inspector is in the area, everyone seems to know. We do send out a pre-inspection report for completion by pharmacies and that is

reviewed by the inspector when he arrives over the announced next two or three months.

I have included copies of the board orientation manual relative to conflict of interest issues.

The current executive director is hired by the board of pharmacy. The current executive director of the Board of Pharmacy graduated in 1968 from the NDSU College of Pharmacy, owned and operated a pharmacy in North Dakota and one in Montana, and was also the consultant pharmacist for a small rural hospital. He served on the North Dakota Board of Pharmacy as an appointed member from 1984 to 1994. He served as the executive of the North Dakota Pharmacist Association from 1991 to 1997 when he became the executive director of the North Dakota State Board of Pharmacy.

Board meetings are not typically recorded with audio or video. Minutes are taken and approved at the next meeting by the Board of Pharmacy. Hearings held for disciplinary reasons or rule hearings are typically recorded and the recording is kept for 60 days according to North Dakota law or until the appeal process has run its course.

Transcripts are not typically made of these recorded meetings unless specifically requested by one of the participants.

Complainants are always permitted to appear and speak or testify at disciplinary proceedings conducted by the board. They are usually subpoenaed if we have a formal hearing. North Dakota requires that all hearings be run in accordance with the North Dakota Administrative Practices Act.

Recent legislation which the board has helped draft, has supported, and which significantly affect consumers or pharmacies are: the 2007 Prescription Drug Repository Program legislation and legislation to begin a Prescription Drug Monitoring Program for North Dakota. The wholesaler licensing legislation was redone in the 2007 session requiring pedigrees for drug products with the goal of preventing counterfeit or substandard drug products being introduced into the distribution chain. Over the last five years the board has adopted rules and worked on the implementation of those rules to develop 17 Tele-pharmacies in North Dakota to provide pharmacy services to communities which had lost or were about to lose their pharmacy. This rule allows a registered pharmacy technician to be in a small community preparing prescriptions under the computer, audio, and video supervision of the licensed pharmacist who is at a different location. The patient is then consulted by the pharmacist via the audio and video link. We are now currently implementing a Tele-pharmacy-in-Hospitals project which will extend pharmacy services to many of our critical access hospitals currently operating with only one pharmacist, or often a consultant pharmacist, on a part-time basis.

The board has been supportive of several pieces of legislation which the legislature has enacted. The North Dakota legislature is very responsive to good ideas whether they come from us or from others. I have enclosed copies of the referenced laws and rules. The board of pharmacy has made a decision to move forward with some specific pharmacy regulations along the line of USP795 and 797. We need to be sensitive that we do not force rural hospitals out of business or make regulations so strict that small communities lose services.

There have been no significant initiatives regulating pharmacies proposed, that have not been adopted.

Conflict of interest policies are always challenging in a small state where we all know each other and all do business with each other. The standard in North Dakota is that whenever a potential conflict arises that conflict should be publicly disclosed and is recorded in the minutes and then the balance of the board determines whether that board member should vote on that particular issue. We like to err on the side of getting everyone's input and allowing them to vote once the disclosure has been made public.

The board's entire budget is funded by license fees collected from our licensees whether pharmacies, wholesalers, pharmacists, technicians, interns, etc.

Sincerely yours,

Howard C. Anderson, Jr., R.Ph.
Executive Director
