

June 26, 2007

Kelly Services contracted with the Legislative Assembly to provide secretarial services, telephone message services, and bill and journal room services. A total of eight Kelly Services employees filled the above mentioned roles

Kelly Services accepted bid was \$714.25 per day. The 60<sup>th</sup> Legislative Assembly met for 77 days.

The total potential spend for the 77 day Assembly was \$54,997.

The actual spend was \$49,658.03 representing savings of \$5339 or 9.7%.

This saving was accomplished by managing daily workflow and reducing daily labor costs through the use of on-site supervisors.

The addition of a printer in the bill and journal room was a success. It was reported that amendments and conference committee changes were printed in the bill room, greatly reducing turn around time.

Stuart Carlson, SPHR
