

**FIRST ENGROSSMENT
with Senate Amendments**

Sixtieth
Legislative Assembly
of North Dakota

ENGROSSED HOUSE BILL NO. 1154

Introduced by

Representative Keiser

Senator Kilzer

1 A BILL for an Act to create and enact chapter 23-39 of the North Dakota Century Code, relating
2 to regulation of tanning facilities; and to provide a penalty.

3 **BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:**

4 **SECTION 1.** Chapter 23-39 of the North Dakota Century Code is created and enacted
5 as follows:

6 **23-39-01. Definitions.** As used in this chapter, unless the context otherwise requires:

- 7 1. "Department" means the state department of health.
8 2. "Phototherapy device" means equipment that emits ultraviolet radiation and is
9 used in treating disease.
10 3. "Tanning device" means equipment that emits electromagnetic radiation having
11 wavelengths in the air between two hundred and four hundred nanometers and
12 which is used for tanning of human skin and any equipment used with that
13 equipment, including food and drug administration-approved protective eyewear,
14 timers, and handrails. The term does not include a phototherapy device used by a
15 physician.
16 4. "Tanning facility" means a place or business that provides individuals access to a
17 tanning device.

18 **23-39-02. Permit - Fee.**

- 19 1. A person may not operate a tanning facility without a permit issued by the
20 department under this chapter. The holder of a permit shall display the permit in a
21 conspicuous place at the tanning facility for which the permit is issued. Permits
22 issued under this chapter expire annually on June thirtieth. An applicant for a
23 permit shall submit an application for a permit to the department, on a form
24 provided by the department, with a permit fee established by the department. The

1 application must include the name and complete mailing address and street
2 address of the tanning facility and any other information reasonably required by the
3 department for the administration of this section.

4 2. The permit fee established by the department must be based on the cost of
5 conducting routine and complaint inspections and enforcement actions and the
6 cost of preparing and sending license renewals. Any fee collected under this
7 section must be deposited in the department's operating fund in the state treasury
8 and any expenditure from the fund is subject to appropriation by the legislative
9 assembly. The department shall waive all or a portion of the permit fee for any
10 tanning facility that is subject to local jurisdiction.

11 3. The department shall accept city or county enforcement of this chapter if the
12 department determines the city or county requirements meet or exceed the
13 requirements of this chapter and any rules adopted under this chapter.

14 **23-39-03. Advertising - Notice - Warning sign - Tubes - Prohibited claims.**

15 1. A tanning facility may not state in any advertising that the tanning facility holds a
16 license or permit issued by the department to operate a tanning facility.

17 2. A tanning facility shall give to each of the tanning facility's customers written notice
18 of the following:

19 a. Failure to wear the eye protection provided by the tanning facility may result
20 in damage to the customer's eyes and may cause cataracts;

21 b. Overexposure to a tanning device causes burns;

22 c. Repeated exposure to a tanning device may cause premature aging of the
23 skin and may cause skin cancer;

24 d. Abnormal skin sensitivity or burning of the skin while using a tanning device
25 may be caused by:

26 (1) Certain foods;

27 (2) Certain cosmetics; and

28 (3) Certain medications, including tranquilizers, diuretics, antibiotics, high
29 blood pressure medicines, and birth control pills; and

30 e. An individual who takes a drug should consult a physician before using a
31 tanning device.

- 1 3. A tanning facility shall display prominently a warning sign in each area where a
2 tanning device is used. The warning sign must convey the following directions and
3 information:
- 4 a. Follow instructions.
- 5 b. Avoid too frequent or too lengthy exposure. Like exposure to the sun, use of
6 a tanning device can cause eye and skin injury and allergic reactions.
7 Repeated exposure can cause chronic sun damage, which is characterized
8 by wrinkling, dryness, fragility and bruising of the skin, and skin cancer.
- 9 c. Wear food and drug administration-approved protective eyewear.
- 10 d. Ultraviolet radiation from tanning devices will aggravate the effects of the sun,
11 so do not sunbathe during the twenty-four hours immediately preceding or
12 immediately following the use of a tanning device.
- 13 e. Medications and cosmetics may increase your sensitivity to ultraviolet
14 radiation. Consult a physician before using a tanning device if you are using
15 medications, have a history of skin problems, or believe that you are
16 especially sensitive to sunlight. Women who are pregnant or using birth
17 control pills and who use a tanning device may develop discolored skin.
- 18 f. If your skin does not tan when exposed to the sun, it is unlikely that your skin
19 will tan when exposed to this tanning device.
- 20 4. The tanning facility shall maintain a record of the date on which each fluorescent
21 tube is replaced.
- 22 5. An owner or employee of a tanning facility may not claim, or distribute materials
23 that claim, that using a tanning device is free of risk.

24 **23-39-04. Liability.** A tanning facility's compliance with this chapter does not relieve
25 the owner or any employee of the tanning facility from liability for injury sustained by a user of a
26 tanning device.

27 **23-39-05. Duties.**

- 28 1. The owner of a tanning facility shall ensure that all of the following are fulfilled:
- 29 a. A customer under eighteen years of age may not be permitted to use the
30 tanning facility until the customer provides the facility with written consent, in
31 a form prescribed by the department, of a parent or legal guardian to use the

- 1 tanning facility. The consent must indicate that the parent or legal guardian
2 has read the warnings required by this chapter and that the customer agrees
3 to wear food and drug administration-approved protective eyewear. The
4 parent or legal guardian shall provide a notarized statement of consent or
5 sign the consent form in the presence of the owner of the tanning facility or an
6 employee responsible for the operation of the ultraviolet radiation device of
7 the facility. The written consent form expires twelve months from the date
8 signed. A customer under the age of fourteen years may not be allowed to
9 utilize a tanning device at a tanning facility without a written order from a
10 physician licensed in this state and without being accompanied by a parent or
11 legal guardian for every use of the tanning facility.
- 12 b. During operating hours there is present at the tanning facility a trained
13 operator who is able to inform customers about, and assist customers in, the
14 proper use of tanning devices.
- 15 c. Each tanning bed is properly sanitized after each use.
- 16 d. Properly sanitized and securely fitting food and drug administration-approved
17 protective eyewear that protects the wearer's eyes from ultraviolet radiation
18 and allows enough vision to maintain balance is made available to the
19 customer.
- 20 e. A customer is not allowed to use a tanning device unless the customer
21 agrees to use food and drug administration-approved protective eyewear.
- 22 f. A customer is shown how to use such physical aids as handrails and
23 markings on the floor to determine the proper distance from the tanning
24 device.
- 25 g. A timing device that is accurate within ten percent is used.
- 26 h. Each tanning device is equipped with a mechanism that allows the customer
27 to turn off the tanning device.
- 28 i. A customer is limited to the maximum exposure time recommended by the
29 manufacturer.
- 30 j. A customer is not allowed to use a tanning device more than once every
31 twenty-four hours.

- 1 k. The interior temperature of the tanning facility does not exceed one hundred
2 degrees Fahrenheit.
- 3 l. The statements under subdivision a of subsection 2 are retained by the
4 tanning facility for the lesser of three years or until the customer signs a new
5 statement.
- 6 2. A user of a tanning facility shall do all of the following:
- 7 a. Immediately before the customer's first use of a tanning facility in a year, sign
8 a statement acknowledging that the customer has read and understands the
9 notice under subsection 2 of section 23-39-03 and the warning sign under
10 subsection 3 of section 23-39-03 and specifying that the customer agrees to
11 use food and drug administration-approved protective eyewear.
- 12 b. Use food and drug administration-approved protective eyewear at all times
13 while using a tanning device.

14 **23-39-06. Injury reports.** If an individual requires medical attention due to use of a
15 tanning facility, any physician, medical professional, or the owner of that tanning facility shall
16 report that injury to the department in writing and send a copy of that report to the injured
17 individual. The owner of the tanning facility shall retain a copy of the report for at least three
18 years.

19 **23-39-07. Enforcement - Rules - Penalty.** The department shall enforce this chapter.
20 The state health council shall adopt rules necessary to implement this chapter. The
21 department may deny issuance of a permit to an applicant or suspend or revoke any permit
22 issued under this chapter if the applicant or permitholder, or an employee of the applicant or
23 permitholder, violates this chapter or any rule adopted to implement this chapter. Violation of
24 this chapter or any rule adopted to implement this chapter is a class B misdemeanor.
