Tom,

Here is the NWEA data that I got from Pat Dugan today. It lists the number of students and partners in ND. He also told me that 90% of the students in ND are in schools who use NWEA. It does not mean they test all of the students within those school however. Scrole to the very bottom of this email and you will find Pat Dugan message and contact information. Lois

If you go to NWEA.org about us and then member schools you will find the list of ND Schools. I have cpioed them below.
