Political Pressures as Reflected in
Claim Constituency Requests

Constituency Services

Prior to WSI Board of Directors

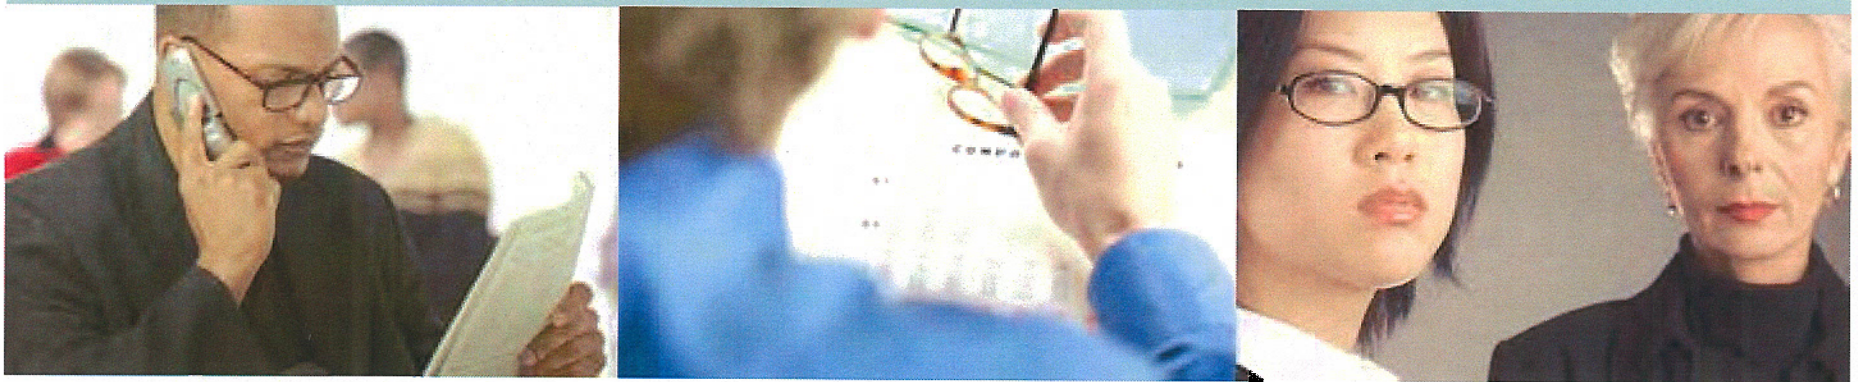

- Increased number of constituency requests
- Requests were more politically influenced
- These results illustrate the political influence could change claim determinations
- The effects correlate with direct Governor oversight

Constituency Services

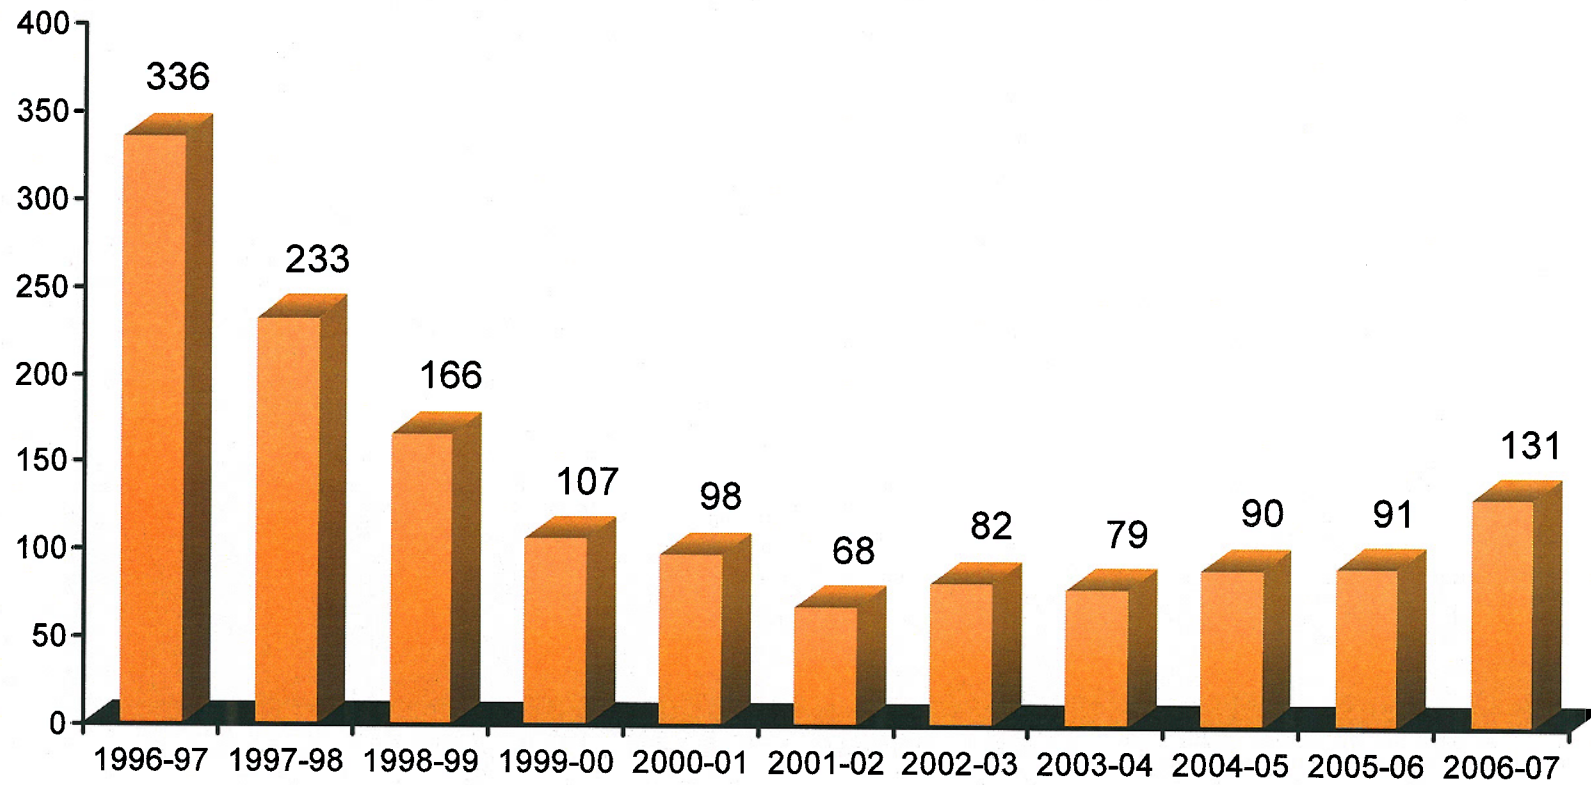

Post WSI Board of Directors

- Reduction in number of constituency requests
- Requests were less politically influenced
- Current system promotes an independent review of claims issues
- Determination based on the merits of the claim

WSI Constituency Requests

At June 30 each year
