1999-01	666,376,575	411,729,980	99,134,854	72.9%	1,614,882,210	479,006,259	29.7%
2001-03	696,418,291	399,450,730	87,628,335	68.5%	1,728,640,384	509,007,648	29.4%
2003-05	779,877,151	455,465,630	102,926,972	73.7%	1,816,885,505	541,233,990	29.8%
2005-07	914,892,520	593,055,235	231,745,335	87.0%	2,000,537,074	568,465,879	28.4%
2007-09	1,007,325,000 (1)	497,816,000 (1)	148,569,848 (1)	67.3% (2)	2,456,973,956 (2)	683,465,879	27.8% (2)

(1) Official forecast. For individual and corp income tax, this includes -$115 million in property tax relief

(2) 2007-09 General Fund Appropriation includes $164 million in "one time" expenditures and $115 million in property tax relief. Excluding them, the share major tax types are of the total SGF increases to 81.1% and the share of total SGF to DPI increases to 31.4%.

NOTE: Beginning with FY 90, a portion of the sales and use tax collections has been distributed to the state aid distribution fund. The collections shown here have not been reduced by the SADF share in order to maintain the overall economic trend. This does slightly overstate the share of total SGF collections made up of these major tax types from FY 90 forward, however.
