2. ~~Thirty-seven~~ Two and seven-tenths percent must be transferred monthly to the township highway fund.
3. One and five-tenths percent must be transferred monthly to the public transportation fund.
4. Thirty-four and five-tenths percent ~~of such moneys~~ must be allocated to the counties of this state in proportion to the number of motor vehicle registrations credited to each county. Each county must be credited with the certificates of title of all motor vehicles registered by residents of ~~such~~ the county. The state treasurer shall compute and distribute the counties' share monthly after deducting the incorporated cities' share. All the moneys received by the counties from the highway tax distribution fund must be set aside in a separate fund called the "highway tax distribution fund" and must be appropriated and applied solely for highway purposes in accordance with section 11 of article X of the Constitution of North Dakota. The state treasurer shall compute and distribute monthly the sums allocated to the incorporated cities within each county according to the formula in this subsection on the basis of the per capita population of all of the incorporated cities situated within each county as determined by the last official regular or special federal census or the census taken in accordance with the provisions of chapter 40-02 in case of a city incorporated subsequent to ~~such~~ the census. ~~Provided, however, that~~ However, in each county having a city with a population of ten thousand or more, the amount transferred each month into the county highway tax distribution fund must be the difference between the amount allocated to that county pursuant to this subsection and the total amount allocated and distributed to the incorporated cities in that county as computed according to the following formula:
  - a. A statewide per capita average as determined by calculating twenty-seven percent of the amount allocated to all of the counties under this subsection divided by the total population of all of the incorporated cities in the state.

- 1           b.    The share distributed to each city in the county having a population of less  
2                than one thousand must be determined by multiplying the population of that  
3                city by the product of 1.50 times the statewide per capita average computed  
4                under subdivision a.
- 5           c.    The share distributed to each city in the county having a population of one  
6                thousand to four thousand nine hundred ninety-nine, inclusive, must be  
7                determined by multiplying the population of that city by the product of 1.25  
8                times the statewide per capita average computed under subdivision a.
- 9           d.    The share distributed to each city in the county having a population of five  
10                thousand or more must be determined by multiplying the population of that  
11                city by the statewide per capita average for all such cities, which per capita  
12                average must be computed as follows: the total of the shares computed  
13                under subdivisions b and c for all cities in the state having a population of less  
14                than five thousand must be subtracted from the total incorporated cities' share  
15                in the state as computed under subdivision a and the balance remaining must  
16                then be divided by the total population of all cities of five thousand or more in  
17                the state.

18 The moneys allocated to the incorporated cities must be distributed to them monthly by the  
19 state treasurer and must be deposited by the cities in a separate fund and may only be used in
