PROPOSED AMENDMENTS TO ENGROSSED HOUSE BILL NO. 1015

Page 7, after line 19, insert:

"SECTION 19. LEGISLATIVE INTENT. It is the intent of the sixty-first legislative assembly that public school districts and private schools help ensure that families of enrolled school-age children are aware of available health care coverage. Health care coverage may be available from individual student policies or from state or federally funded programs, such as medicaid or the children's health insurance program. It is expected that schools will provide information and applications to families as part of annual enrollment efforts. The department of human services and the superintendent of public instruction may offer assistance to schools with this effort."

Renumber accordingly
