

**Sixty-first Legislative Assembly of North Dakota
In Regular Session Commencing Tuesday, January 6, 2009**

SENATE BILL NO. 2101
(Industry, Business and Labor Committee)
(At the request of Job Service North Dakota)

AN ACT to amend and reenact subsection 6 of section 52-04-05 and subsection 2 of section 52-04-06 of the North Dakota Century Code, relating to rounding of calculations for employer unemployment compensation contribution rates.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Subsection 6 of section 52-04-05 of the North Dakota Century Code is amended and reenacted as follows:

6. a. Except as otherwise provided in this subsection, an employer's rate may not be less than the negative employer minimum rate for a calendar year unless the employer's account has been chargeable with benefits throughout the thirty-six-consecutive-calendar-month period ending on September thirtieth of the preceding calendar year. If an employer in construction services has not been subject to the law as required, that employer qualifies for a reduced rate if the account has been chargeable with benefits throughout the twenty-four-consecutive-calendar-month period ending September thirtieth of the preceding calendar year. If an employer in nonconstruction services has not been subject to the law as required, the employer in nonconstruction services qualifies for a reduced rate if the account has been chargeable with benefits throughout the twelve-consecutive-calendar-month period ending September thirtieth of the preceding calendar year. The executive director may provide any negative employer whose contributions paid into the trust fund are greater than the benefit charges against that employer's account, for a minimum of three consecutive years immediately preceding the computation date or subject to the law as required, with up to a thirty percent reduction to that employer's rate for any year if that employer has in place a plan approved by the bureau which addresses substantive changes to that employer's business operation and ensures that any rate reduction provided will not put the employer account back into a negative status.
- b. An employer that does not qualify under subdivision a is subject to a rate determined as follows:
 - (1) For each calendar year new employers must be assigned a rate that is ninety percent of the positive employer maximum rate or a rate of one percent, whichever is greater, unless the employer is classified in construction services. However, an employer must be assigned within the negative employer rate ranges for any year if, as of the computation date, the cumulative benefits charged to that employer's account equal or exceed the cumulative contributions paid on or before October thirty-first with respect to wages paid by that employer before October first of that year. All results calculated under this paragraph must be rounded to the nearest one-hundredth of one percent.
 - (2) New employers in construction services must be assigned the negative employer maximum rate.
 - (3) Assignment by the bureau of an employer's industrial classification for the purposes of this section must be the three-digit major group provided in the

North American industrial classification system manual, in accordance with established classification practices found in the North American industrial classification system manual, issued by the executive office of the president, office of management and budget. Employers who are liable for coverage before August 1, 2001, remain under an industrial classification under the two-digit major group provided in the standard industrial classification manual unless they are classified in the construction industry within the standard industrial classification code.

SECTION 2. AMENDMENT. Subsection 2 of section 52-04-06 of the North Dakota Century Code is amended and reenacted as follows:

2. For each calendar year the bureau shall establish a schedule of positive employer rate groups within the positive employer minimum rate and the positive employer maximum rate determined under section 52-04-05. Each successive rate group for positive employer rate groups must be assigned a rate equal to one hundred twenty percent of the previous group's rate with a minimum increase of one-tenth of one percent and a maximum increase of four-tenths of one percent. The number of rate groups in the positive employer schedule must be ten. For each calendar year the bureau shall establish a schedule of negative employer rate groups with the negative employer minimum rate and the negative employer maximum rate determined under section 52-04-05. Each successive rate group for negative employer rate groups must be assigned a rate equal to the previous group's rate plus four-tenths of one percent. The number of rate groups in the negative employer schedule must be the number required to provide for a rate group at each four-tenths of one percent interval between the negative employer minimum rate and the negative employer maximum rate determined under section 52-04-05. All results calculated under this subsection must be rounded to the nearest one-hundredth of one percent.

President of the Senate

Speaker of the House

Secretary of the Senate

Chief Clerk of the House

This certifies that the within bill originated in the Senate of the Sixty-first Legislative Assembly of North Dakota and is known on the records of that body as Senate Bill No. 2101.
