

2009 HOUSE BILL NO. 1400

SECTION 63. LEGISLATIVE COUNCIL STUDY - DISPLACEMENT OF STUDENTS - NATURAL OR MANMADE CAUSES. During the 2009-10 interim, the legislative council shall consider studying longer term elementary and high school closings and student transfers necessitated by the occurrence of widespread or severe damage as a result of any natural or manmade cause, including fire, flood, tornado, storm, chemical spill, and epidemic. The study should address the coordination of plans to accommodate displaced students, examine responsibility for payment obligations to districts that are not able to provide services, examine responsibility for compensating districts that have accepted displaced students, and specifically examine the expenses incurred by school districts that provided services to displaced students during the 2009 floods. The legislative council shall report its findings and recommendations, together with any legislation required to implement the recommendations, to the sixty-second legislative assembly.
