3,300,001	3,400,000	350,000	6,700,001	6,800,000	520,000

The grain buyer bond is determined by the three-year rolling average of grain purchased annually in this state by the grain buyer. For a new licensee, the first year's bond shall be based on the projected purchase volume and the second year's bond and third year's bond shall be based on the average actual volume according to the above schedule.
