

North Dakota Hospital Association

Vision

The North Dakota Hospital Association will take an active leadership role in major Healthcare issues.

Mission

The North Dakota Hospital Association exists to advance the health status of persons served by the membership.

Judicial Process Committee September 16, 2010

Chairman Meyer and Committee Members, I'm Tim Blasl and represent the North Dakota Hospital Association. NDHA is a voluntary, not-for-profit organization comprised of hospitals and health systems, related organizations, and other members with a common interest in promoting the health of the people of North Dakota.

For the record, the North Dakota Hospital Association does support the two bill drafts relating to involuntary mental health commitment procedures. Our legislative committee and sub-committee have reviewed the two bill drafts. The North Dakota Hospital Association feels this enhances mental health services statewide.

Thank You for your time.
