Committee Clerk Signature

Ellen LeTang

Explanation or reason for introduction of bill/resolution:

Workers' compensation coverage for real estate modifications

Minutes:

Chairman Keiser: Opens the hearing on HB 1453.

Renee Phenning~North Dakota Building & Trades Council: Currently in law there is 50 thousand dollars for improvements to the person who is catastrophically injured. This is raising it up to 100 thousand dollars. We support this bill.

Chairman Keiser: It's a simple bill. Anyone here to testify in support of HB 1453?

Ann Green~Staff Counsel with WSI: (see attached testimony).

Representative Ruby: That means people that have hit the cap many years ago or fairly recent, it applies to them as well as any new injury?

Ann Green: That's correct.

Chairman Keiser: How many people do we have in the systems that are 50 thousand or less?

Ann Green: For the 50 thousand or less is 122. Our records show that we paid out everywhere from the ceiling of 50 thousand dollars down to \$19.99.

Chairman Keiser: How many of those people will now apply for the balance of the 100 thousand?

Ann Green: It's entirely possible at this point there are 3 that are at or near 50 thousand dollars. There are 18 that are over 10 thousand dollars and 6 between 5 & 10 thousand and the remainder are at the 5 thousand dollar mark. Then there are less than a half dozen.

Representative Amerman: If they do come forward with a request if this bill passes, are there certain criteria that they have to meet?

Ann Green: There is a committee internally at WSI that reviews each application for a modification.

Representative N Johnson: Could you refresh me on vehicles?

Ann Green: There is also a 100 thousand dollars available lifetime benefits for either the purchase or renovation of the vehicle but they are separate benefits.

Vice Chairman Kasper: Is there an appeal process for the injured worker if he or she is turned down on this request?

Ann Green: There is not.

Vice Chairman Kasper: Would the department object to having an appeal process established?

Ann Green: No, but let me double check. I want to be sure I'm giving you correct information. My memory there is not an appeal process of the rejection of a specific project. It doesn't preclude a reapplication modification to the project.

Vice Chairman Kasper: Unlimited numbers of applications to maybe conform to what you don't like?

Ann Green: Yes.

Vice Chairman Kasper: So that would be some sort of an appeal process.

Chairman Keiser: Further questions? We really don't have people at 50 thousand and everyone is way below that, why aren't we going to 75 thousand instead of 100 thousand, why double it if there is no one there?

Ann Green: We had some conversations before the bill was introduced in working with the senator. Our suggestion was for a lower amount and the bill was introduced this way. Based on its impact we felt that it was reasonable.

Chairman Keiser: Anyone else here to testify in support, in opposition, neutral position of HB 1453. Seeing none, closes the hearing on HB 1453. What are the wished of the committee?

Vice Chairman Kasper: Do Pass

Representative Kreun: Second.

Representative Ruby: I will probably support it; we went from 20 thousand to 50 thousand before. That was a 30 thousand dollar jump, nobody has hit the cap yet but this seems to open it up.

Representative Kreun: That's a lifetime amount and if you have to sell your home or car, you may have to readapt a couple different times, so that bill is up to the 100 thousand. It doesn't take long to get to the maximum amount.

Representative Ruby: Usually disabled people aren't buying and selling houses very often.

Chairman Keiser: I can support 75 thousand but I not supporting 100 thousand. I don't think that is good fiscal policy.

Vice Chairman Kasper: I withdraw the motion.

Representative Kreun: Second the withdrawn motion.

Chairman Keiser: If we are going to be fiscally responsible, I feel it's prudent to review this. If they come in and show a significant need, I'm all for it.

Representative Vigesaa: I move to adopt the amendment going from 100 thousand to 75 thousand.

Representative Frantsvog: Second.

Voice vote, motion carried.

Vice Chairman Kasper: Moves for a Do Pass as Amended.

Representative Kreun: Second.

Roll Call was taken for a Do Pass as Amended on HB 1453 with 14 yeas, 0 nays, 0 absent and Representative M Nelson is the carrier.

FISCAL NOTE
Requested by Legislative Council
01/28/2011

Amendment to: HB 1453

1A. State fiscal effect: *Identify the state fiscal effect and the fiscal effect on agency appropriations compared to funding levels and appropriations anticipated under current law.*

Explanation or reason for introduction of bill/resolution:

Relating to workers' compensation coverage for real estate modifications

Minutes:

Testimony attached

Chairman Klein: Opened the hearing on House Bill 1453.

Representative Maragos: In support of the bill. He stated that they were updating the bill. He said a constituent felt the amount was too small and asked that it be raised to 75,000 dollars.

Chairman Klein: Asked if his constituent had an amount before the 2003 session. He said it was an issue since he had been in the Legislature and that they have tried hard to continue to make strides to help him.

Rep. Maragos: Said he thought they had but didn't know if there was a fiscal note that had any significant impact. He said he hopes that the committee will find a proper amount to allow the bill to be passed.

Senator Andrist: He said he was trying to understand the specific language. He asked if it would give him 75,000 more dollars or if it would give him 25,000 dollars?

Rep. Maragos: It would allow him to spend another 25,000 dollars above the original 50,000 dollars.

Senator Larsen: Said this person is also one of his constituents. He said that this man has been on workers' compensation since 1962, is in a wheel chair and has had his legs amputated. Some of the money will go to give more access with the wheelchair, to be able to go into the garage with the car and for the walk way up. He has already utilized all of the initial 50,000. The cost of bringing it up to 75,000 is for the cost of living. He said that the WSI program has recently been working well for this man but thirty years ago it was frustrating trying to get things done and accomplished. He said that the man is very happy with the way things are now but wants to make some things better.

Senator Laffen: Asked if this dollar cap was to make modifications to the personal residence like wheelchair ramp and the garage and if this would even include something like kitchen cabinets.

Senator Larsen: It could, whatever it would do to make his life easier to get around and function. He said he can't speak to the rest of the group that is using this but if they can't use the bathroom facilities accommodations have to be made.

Senator Schneider: Commented that it stated the organization may pay an amount not to exceed 50,000 and now it is potentially 75,000. He then asked what kind of showing has to be made in terms of whether these modifications are necessary.

Senator Larsen: He said the constituent did say he had used all of the 50,000 and was asking for another 25000 but didn't know what he had to prove.

Tim Wahlin, Chief of Injury Service of Workforce Safety and Insurance: Testimony Attached (1).

Chairman Klein: In response to Senator Andrist question on the additional 25,000 it is just on top of the 50,000. He asked for him to explain how that would work.

Tim: He said that understanding is correct and the additional 25,000 dollars will be given to those catastrophically injured workers who already expended the 50,000 dollars. It gives an additional 25,000 dollar benefit for those real estate modifications that are necessary.

Chairman Klein: Asked for him to briefly explain what making the home more comfortable and functional would entail.

Tim: He said WSI had this benefit in law for a significant period of time. He said this was adjudicated, as are all medical benefits at WSI, to the extent that it is a cost effective, necessary expenditure. They review the requests and will make decisions based upon that. He then goes over the statute and what is covered.

Senator Larsen: You said it will not affect the fiscal note, how many people are in this position and how old they are?

Tim: He said that there are seven injured workers who have received the 50,000 dollar benefits. He said that two dozen have received some modifications but not the full cap. To the extent that the fiscal note references that it is not fiscally significant, it is in comparison to what WSI pays out in benefits.

Chairman Klein: Stated that this gentleman was injured a long time ago.

Tim: That is correct.

Senator Schneider: Asked how many catastrophic injured workers there were in North Dakota.

Tim: He said he didn't have the exact number but the number he remembered was that in recent history they averaged 1.4 a year. He said roughly 2 a year going forward, especially with the development out west and the industry coming in.

Chairman Klein: Asked how many workers were lost in death and if it has gone up.

Tim: He said it had. Recently it has gone up to eighteen or nineteen a year. The number of deaths on the job compensable is going up.

Chairman Klein: He asked about the modifications provided for automobiles.

Tim: He said it is in the same set of legislation. He said there is a 100,000 dollar life time benefit for the catastrophically injured in equipment and vehicles for their lifetime.

David L. Kemnitz, President of the NDAFL-CIO: In support of the bill. He said in order to help the claimants, all have gone through all request to prove that the injury was attributed to the work.

Sebald Vetter, C.A.R.E: In support of the bill. He said prices keep going up and it is about time that it was raised.

Chairman Klein: Closed the hearing.

Senator Andrist: Moved a do pass.

Senator Nodland: Seconded the motion.

Roll Call Vote: Yes-7 No-0

REPORT OF STANDING COMMITTEE

HB 1453, as engrossed: Industry, Business and Labor Committee (Sen. Klein, Chairman) recommends DO PASS (7 YEAS, 0 NAYS, 0 ABSENT AND NOT VOTING). Engrossed HB 1453 was placed on the Fourteenth order on the calendar.

2011 TESTIMONY

HB 1453

2011 Engrossed House Bill No. 1453
Testimony before the Senate Industry, Business and Labor Committee
Presented by Tim Wahlin, Chief of Injury Services
Workforce Safety and Insurance
March 7, 2011

Mr. Chairman and Members of the Committee:

My name is Tim Wahlin, Chief of Injury Services with Workforce Safety and Insurance (WSI), here to provide assistance on Engrossed House Bill 1453.

Workforce Safety and Insurance currently provides a benefit to those injured workers who are catastrophically injured or claims where exceptional circumstances exist. Understanding that a work injury has forever changed their lives, North Dakota law provides a benefit in addition to medical or disability benefits. This benefit provides for renovations to real estate necessary to make an injured worker's home more accessible, functional and comfortable.

In 2003, the level of this benefit was raised from twenty thousand dollars to fifty thousand dollars and has not been modified since. An increase appears reasonable. Given the number of eligible recipients, WSI does not anticipate a significant fiscal impact.

The application clause of House Bill 1453 provides that the increase is available to all purchases and repairs after the effective date of the Act making this increase available to all eligible injured workers regardless of their date of injury.

This concludes my testimony. I am happy to answer any questions you may have.
