

**Presentation to  
the Information  
Technology  
Committee**

Tuesday, August 16, 2011  
Harvest Room,  
Bismarck, North Dakota

**LISA FELDNER, CIO**

## Statewide Longitudinal Data System

- Longitudinal means the study of a subject over time
- Early childhood through the education system into the workforce
- States are required to implement a system if they accepted ARRA funds. ND received over \$86 million in ARRA education funds in 2009.

3

## SLDS Funding

- Department of Public Instruction received a \$7 million grant in 2009 to implement the K-12 portion of the system
