"SECTION 1. AMENDMENT. Section 21-06-10 of the North Dakota Century Code is amended and reenacted as follows:

21-06-10. Moneys received through leasing of lands acquired by United States for flood control distributed to counties for schools and roads.

The state treasurer shall pay the moneys allocated to the state under 33 U.S.C. 701(c)(3) to the counties entitled to receive them in proportion to the area of the land in the county acquired by the United States for which compensation is being provided under 33 U.S.C. 701(c)(3) as that area bears to the total of these federal

lands in the state. A county receiving an allocation under this section shall disburse the moneys received as follows:

1. One-half must be paid to the school districts in the county which have lost land subject to taxation because of the acquisition of lands by the United States for which compensation is being provided under 33 U.S.C. 701(c)(3) in proportion to the area of these federal lands in each district as that area bears to the total of such lands in all of the school districts in the county. If, however, all of the land in a district has been acquired by the United States, that district's proportionate share of the funds allocated under this subsection must be paid into the county tuition fund and expended according to the law governing that fund.
2. ~~One quarter~~One-half must be paid to the county for road purposes to be expended as the board of county commissioners shall determine. One-half of the amount retained by the county under this subsection must be expended as directed by the board of county commissioners for infrastructure projects by or on behalf of organized or unorganized townships.
3. ~~The final quarter must be allocated among the organized townships, if any, which have lost land subject to taxation because of land acquisitions by the United States for which compensation is being provided under 33 U.S.C. 701(c)(3) and the county for road purposes in proportion to the area of these lands in each township as that area bears to the total area of these federal lands in the county. The county must be allocated a similar proportionate share based on the area of these lands in the county not within an organized township.~~

~~This section applies to all funds heretofore received or to be received by the counties entitled thereto.~~

SECTION 2. AMENDMENT. Subsections 3 and 4 of section 57-51-15 of the North Dakota Century Code are amended and reenacted as follows:

3. ~~The amount to which each county is entitled under subsection 2 must be allocated within the county so the first five million three hundred fifty thousand dollars is allocated under subsection 4 for each fiscal year and any for the first time three million nine hundred thousand dollars for a~~ county with a population of fewer than three thousand, four million one hundred thousand dollars for a county with a population of three thousand to six thousand, and four million six hundred thousand dollars for a county with a population of more than six thousand. Any amount received by a county exceeding five million three hundred fifty thousand dollars is credited the amount to be allocated under subsection 4 must be allocated by the county treasurer to the county infrastructure fund and ~~allocated~~ under subsection 5.
4.
 - a. Forty-five percent of all revenues allocated to any county for allocation under this subsection must be credited by the county treasurer to the county general fund. However, the allocation to a county under this subdivision must be credited to the state general fund if during that fiscal year the county does not levy a total of at least ten mills for combined levies for county road and bridge, farm-to-market and federal-aid road, and county road purposes.
 - b. Thirty-five percent of all revenues allocated to any county for allocation under this subsection must be apportioned by the county treasurer no less than quarterly to school districts within the county on the average daily attendance distribution basis, as certified to the county treasurer by the ~~county superintendent of schools~~ superintendent of public instruction. However, no school district may receive in any single academic year an amount under this subsection greater than the county average per student cost multiplied by seventy percent, then multiplied by the number of

students in average daily attendance or the number of children of school age in the school census for the county, whichever is greater. Provided, however, that in any county in which the average daily attendance or the school census, whichever is greater, is fewer than four hundred, the county is entitled to one hundred twenty percent of the county average per student cost multiplied by the number of students in average daily attendance or the number of children of school age in the school census for the county, whichever is greater. Once this level has been reached through distributions under this subsection, all excess funds to which the school district would be entitled as part of its thirty-five percent share must be deposited instead in the county general fund. The ~~county superintendent of schools of each oil-producing county~~superintendent of public instruction shall certify to the county treasurer of each oil-producing county by July first of each year the amount to which each school district is limited pursuant to this subsection. As used in this subsection, "average daily attendance" means the average daily attendance for the school year immediately preceding the certification by the ~~county superintendent of schools~~superintendent of public instruction required by this subsection.

~~The countywide allocation to school districts under this subdivision is subject to the following:~~

- ~~(1) The first three hundred fifty thousand dollars is apportioned entirely among school districts in the county.~~
 - ~~(2) The next three hundred fifty thousand dollars is apportioned seventy-five percent among school districts in the county and twenty-five percent to the county infrastructure fund.~~
 - ~~(3) The next two hundred sixty two thousand five hundred dollars is apportioned two-thirds among school districts in the county and one-third to the county infrastructure fund.~~
 - ~~(4) The next one hundred seventy five thousand dollars is apportioned fifty percent among school districts in the county and fifty percent to the county infrastructure fund.~~
 - ~~(5) Any remaining amount is apportioned to the county infrastructure fund except from that remaining amount the following amounts are apportioned among school districts in the county:~~
 - ~~(a) Four hundred ninety thousand dollars, for counties having a population of three thousand or fewer.~~
 - ~~(b) Five hundred sixty thousand dollars, for counties having a population of more than three thousand and fewer than six thousand.~~
 - ~~(c) Seven hundred thirty five thousand dollars, for counties having a population of six thousand or more.~~
- c. Twenty percent of all revenues allocated to any county for allocation under this subsection must be apportioned no less than quarterly by the state treasurer to the incorporated cities of the county. Apportionment among cities under this subsection must be based upon the population of each incorporated city according to the last official decennial federal census. A city may not receive an allocation for a fiscal year under this subsection and subsection 5 which totals more than seven hundred fifty dollars per capita. Once this level has been reached through distributions under this subsection, all excess funds to which any city would be entitled except for this limitation must be deposited instead in that county's general fund. In

determining the population of any city in which total employment increases by more than two hundred percent seasonally due to tourism, the population of that city for purposes of this subdivision must be increased by eight hundred percent. If a city receives a direct allocation under subsection 1, the allocation to that city under this subsection is limited to sixty percent of the amount otherwise determined for that city under this subsection and the amount exceeding this limitation must be reallocated among the other cities in the county."
