POINT OF PERSONAL PRIVILEGE

REP. BEADLE rose on a point of personal privilege.

REMARKS OF REPRESENTATIVE BEADLE

MR. SPEAKER AND MEMBERS OF THE ASSEMBLY: As many of you know I coached debate for six years after competing in it for many years prior to that. I, and my students, had the opportunity to represent the State of North Dakota at both state and national level competitions. However, what 3 students from Shanley High School accomplished over this past weekend is truly unprecedented in North Dakota. These students won the International Public Policy Forum international championship.

Founded in 2001, the Bickel & Brewer/New York University International Public Policy Forum. (IPPF) is the only contest that gives high school students around the globe the opportunity to engage in written and oral debates on issues of public policy. This program is available to all public and private high schools for free, and is considered one of the premier academic competitions in the world. 216 schools from 36 states and 30 countries entered the competition in October, with the top 8 teams competing this past weekend in New York City. There, Shanley's team of Chase Johnson, a senior, and twin brothers Seb and Tom Startz, juniors, defeated Hamilton High School of Chandler, Arizona to claim the international title. These students were coached by Dr. Robert Littlefield and Brett Johnson.

Chase Johnson and his Speech Coach Brian Geffre are here today. While these students have already won an international competition, they aren't done. All three of them are competing today in the qualifying tournament to represent their state in the National Forensics League's national tournament. Chase Johnson is competing in US Extemporaneous Speaking and is able to join us today during his lunch break, while Seb and Tom Startz are competing in International Extemporaneous Speaking and are in Mandan right now preparing for their next round of competition.

Members of the assembly, it is my belief that nothing prepares students for college, or beyond, better than debate. These students should be proud of how they represented the state of North Dakota, they should be proud of how they represented Shanley High School, and they should be proud of how they represented themselves in this competition. I ask that this assembly congratulates them on their achievement as it is truly a great accomplishment for them, and for the state of North Dakota.

Thank you Mr. Speaker.

REQUEST

REP. VIGESAA REQUESTED that the remarks of Rep. Beadle be printed in the Journal, which request was granted.

¹ Funding added by the Senate for grants to townships in oil-producing counties is reduced from \$10 million to \$9.1 million.

This amendment also amends Section 27 of Chapter 579 of the 2011 Special Session Session Laws to provide that a political subdivision eligible to receive a transportation funding distribution under that section must have received an allocation under Section 57-51-15 (oil and gas gross production tax allocations) of \$500,000 or less in state fiscal year 2010 rather than state fiscal year 2011. Section 9 of the bill which provided a \$590,000 general fund appropriation to correct earlier township distributions is replaced with an appropriation of \$700,000 from the general fund to the State Treasurer to distribute funding to any political subdivision eligible to receive a distribution under subsection 3 of Section 27 of Chapter 579 of the 2011 Special Session Session Laws which has not already received a distribution under that subsection.

¹ This amendment adjusts the state employee compensation and benefits package as follows:

- Reduces the performance component from 3 to 5 percent per year to 2 to 4 percent per year.
- Reduces the market component from 2 to 4 percent per year for employees below the midpoint of their salary range to up to 2 percent for employees in the first quartile of their salary range for the first year of the biennium only.
- Removes funding for additional retirement contribution increases.

² A portion of salaries and wages funding for permanent employees' compensation and benefits is reallocated to an accrued leave payments line item for paying annual leave and sick leave for eligible employees.

³ Funding included in the executive budget for salary enhancements (\$2,544,999) and rental assistance (\$1,100,000) for employees living in areas affected by energy development is removed.

⁴ Funding from the general fund is added to the county and township road reconstruction program in areas impacted by oil and gas development to provide total program funding of \$190 million, an increase of \$48 million from the executive budget and Senate version of \$142 million.

⁵ Appropriation authority to provide grants from the public transportation fund is removed. House Bill No. 1142, as approved by the 63rd Legislative Assembly, provides continuing appropriation authority for any funds deposited in the public transportation fund.

⁶ Funding for the general license plate issue is increased by \$620,000 to provide for digitally printed license plates to be issued rather than embossed plates.

⁷ Funding from the strategic investment and improvements fund for a county and township bridge reconstruction program is reduced from \$27 million to \$20 million. Adjustments are also made to Section 5 regarding the definition of a bridge and the priority of bridges to be reconstructed.

⁸ A section is added to appropriate \$150 million from the general fund for transportation funding distributions to counties that received less than \$5 million of oil and gas production tax allocations in the preceding state fiscal year.

This amendment also:

- Adds sections to provide statutory changes regarding the motor vehicle registration renewal dates of vehicles exceeding 20,000 pounds.
- Adds a section to establish a highway-rail grade crossing safety program in the Department of Transportation and requires the department to allocate \$1.4 million from the state highway fund for the program each year.
- Adds sections to provide for Legislative Management studies of state railroad assistance programs, transportation costs and funding, and renewable fuel standards.

"SECTION 13. AMENDMENT. Section 61-40-01 of the North Dakota Century Code is amended and reenacted as follows:

61-40-01. Legislative declarations - Authority of western area water supply authority.

The legislative assembly declares that many areas and localities in western North Dakota do not enjoy adequate quantities of high-quality drinking water; that other areas and localities in western North Dakota do not have sufficient quantities of water to ensure a dependable, long-term domestic or industrial water supply; that greater economic security and the protection of health and property benefits the land, natural resources, and water resources of this state; and that the promotion of the prosperity and general welfare of all of the people of this state depend on the effective development and utilization of the land and water resources of this state and necessitates and requires the exercise of the sovereign powers of this state and concern a public purpose. To accomplish this public purpose, it is declared necessary that a water authority to treat, store, and distribute water to western North Dakota be established to provide for the supply and distribution of water to the people of western North Dakota for purposes, including domestic, rural water, municipal, livestock, industrial, oil and gas development, and other uses, and provide for the future economic welfare and prosperity of the people of this state, and particularly the people of western North Dakota, by the creation and development of a western area water supply project for beneficial and public uses. The western area water supply authority may acquire, construct, improve, develop, and own water supply infrastructure and may enter water supply contracts with member cities, water districts, and private users, such as oil and gas producers, for the sale of water for use within or outside the authority boundaries or the state. The western area water supply authority shall consider in the process of locating industrial water depots the location of private water sellers so as to minimize the impact on private water sellers. The independent water providers shall consider in the process of locating industrial water depots the location of private water sellers so as to minimize the impact on private water sellers.

SECTION 14. AMENDMENT. Section 61-40-02 of the North Dakota Century Code is amended and reenacted as follows:

61-40-02. Western area water supply authority.

Other cities and water systems, within or outside the authority counties' boundaries, including cities or water systems in Montana, may contract with the authority for a bulk water supply. The authority is a political subdivision of the state, a governmental agency, body politic and corporate, with the authority to exercise the powers specified in this chapter, or which may be reasonably implied. Participating member entities may be required to pay dues or water sale income to the authority, as determined by the bylaws and future resolutions of the authority. Participating member entities may not withdraw from the authority or fail or refuse to pay any water sale income to the authority ~~if the twenty-five million dollar zero interest loan from the state water commission has not been repaid until the state-guaranteed loans have been repaid.~~ The provisions of subsections 1 through 5 of section 61-35-02.1 apply if the authority's board of directors unanimously votes to convert to a water district.

SECTION 15. AMENDMENT. Section 61-40-03 of the North Dakota Century Code is amended and reenacted as follows:

61-40-03. Western area water supply authority - Board of directors.

1. The initial board of directors of the western area water supply authority consists of two representatives from each of the following entities: Williams rural water district, McKenzie County water resource district, the city of Williston, BDW water system association, and R&T water supply association. The governing body of each member entity shall select two representatives to the authority board who are water users of the

member entity. If a vacancy arises for a member entity, the governing body of the member entity shall select a new representative to act on its behalf on the authority board. ~~In addition, the state engineer or designee is a voting member on the authority's board of directors.~~ Directors have a term of one year and may be reappointed.

2. Additional political subdivisions or water systems may be given membership on the board upon two-thirds majority vote of the existing board. To be eligible for membership on the board, the member entity must first contract with the authority for financial participation in the project.
3. A member entity may designate an alternate representative to attend meetings and to act on the member's behalf. The board may designate associate members who are nonvoting members of the board. Notwithstanding this section, ~~except for the state engineer or designee,~~ initial board members must be removed if they have not entered a contract with the authority, before August 1, 2013, for financial participation in the project.

1. An accounting of industrial water depot and lateral sales collected and distributed by the authority must be reported to the industrial commission on a monthly basis. Participating member entities shall transfer industrial water depot and lateral sales to the authority within thirty days of receipt of the revenues. The boards of the authority and participating member entities must be notified of the sweep of revenues; however, board approval is not required. Upon the receipt of industrial water depot and lateral revenues by the authority, the authority shall apply immediately all revenues each month in the following order:
 - a. One hundred fifty thousand dollars per biennium to the industrial commission for one additional full-time equivalent position to implement this Act.
 - b. Reimburse the authority for industrial water depot capital improvements and the cost for delivery of potable or nonpotable water sold at industrial water depots and lateral lines, at a cost no greater than the participating member, or submember, if applicable, entity rate at the location of the depot or lateral line.
 - c. Regular payments on the participating member entity debt as described in the agreements with the authority as of March 31, 2013, and baseline 2010 industrial water sales included in the authority and participating member agreements as of March 31, 2013. Baseline 2010 industrial water sales for the city of Tioga in the year 2013 are limited to the lesser of legally permitted industrial water sales or the amount in the member agreement.
 - d. Required monthly payments on state-guaranteed loans. The required transfer must occur no later than the twentieth day of the following month.
 - e. Additional principal payment on state-guaranteed loans.
 - f. Payment to the resources trust fund.
2. If the state-guaranteed loans have not been repaid, without the written consent of the industrial commission the authority may not sell, lease, abandon, encumber, or otherwise dispose of any part of the property used in a water system of the authority if the property is used to provide revenue. Any requirements on the state-guaranteed loans for establishment of reserve funds for operation and maintenance or debt service are waived.
3. The state water commission shall approve the planning, location, and water supply contracts of any authority depots, laterals, taps, turnouts, and risers for industrial sales for oil and gas exploration and production after the effective date of this Act.

SECTION 19. A new section to chapter 61-40 of the North Dakota Century Code is created and enacted as follows:

Water rates.

The authority shall develop an industrial water depot and lateral retail rate and present the rate to the industrial commission for approval. Any industrial water depot and lateral rate adjustment must have approval of the industrial commission before going into effect. The authority shall develop domestic water rates that must include all costs for operation, maintenance, and operating and capital reserves, and debt repayment of all infrastructure managed or constructed by the authority, with the

SECTION 20. A new section to chapter 61-40 of the North Dakota Century Code is created and enacted as follows:

Construction funding.

The authority shall follow the state water commission requirements for funding through the resources trust fund or Bank of North Dakota state-guaranteed loans and shall present the overall plan and project components to the state water commission for funding approval. Priority on project funding first is reserved for state-guaranteed loan payments if not met by industrial water depot and lateral sales, second is for full repayment of existing federal debt if 7 U.S.C. 1926(b) protection for oil and gas exploration and production industrial water sales is asserted, and third for expanding domestic water supply to areas currently not served. In accepting construction funding, the authority and participating member entities agree to not hinder or prevent depot and lateral industrial water sales for oil and gas exploration and production.

In addition, the state assumes the powers of the authority. The industrial commission may review the ability of water depot and lateral sales to meet expenses in subdivisions a through d of subsection 1 of section 18 of this Act, and if the industrial commission is uncertain of that ability, the industrial commission shall provide written notification to the state water commission and direct the Bank of North Dakota to consider revision of the terms of the loan repayments. If the authority is in default in the payment of the principal of or interest on the obligation to the Bank of North Dakota for a loan for which the Bank of North Dakota is the source of funds for the loan, the state water commission shall request funding from the legislative assembly to repay the principal and interest due. Upon written notice, the members of the governing board of the authority are immediately removed, and the state water commission is the governing board from the date of notice. If the state water commission determines that governance, possession, and ownership of the water system is not necessary for the authority to be able to reimburse the state in the necessary time period, the state water commission may develop a plan to return governance, possession, and ownership to the authority, subject to approval of the plan by the budget section.~~

SECTION 22. A new section to chapter 61-40 of the North Dakota Century Code is created and enacted as follows:

Franchise protection.

Notwithstanding any other provision of law, neither the authority nor its participating member entities may be required to waive the right to assert franchise protection under state or federal law with regard to water used for purposes other than industrial sales for oil and gas exploration and production."

Page 9, line 4, remove "and"
