Page 1, line 1, after "A BILL" replace the remainder of the bill with "for an Act to amend and reenact sections 57-12-09, 57-15-02.1, and 57-20-07.1 of the North Dakota Century Code, relating to notices of property assessment increases, hearings on proposed property tax increases, and contents of property tax statements; to provide for a study; and to provide an effective date.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 57-12-09 of the North Dakota Century Code is amended and reenacted as follows:

57-12-09. Notice of increased assessment to real estate owner.

1. When any assessor has increased the true and full valuation of any lot or tract of land including any improvements thereon by three thousand dollars or more and to ten percent or more than the amount of the last assessment, written notice of the amount of increase and the amount of the last assessment must be delivered in writing by the assessor to the property owner, mailed in writing to the property owner at the property owner's last-known address, or provided to the property owner by electronic mail directed with verification of receipt to an electronic mail address at which the property owner has consented to receive notice. Delivery of notice to a property owner under this section must be completed not fewer than fifteen days before the meeting of the local equalization board. The tax commissioner shall prescribe suitable forms for this notice and the notice must show the true and full value as defined

by law of the property, including improvements, that the assessor used in making the assessment for the current year and for the year in which the last assessment was made and must also show the date prescribed by law for the meeting of the local equalization board of the assessment district in which the property is located and the meeting date of the county equalization board. The notice must be mailed or delivered at the expense of the assessment district for which the assessor is employed.

2. The form of notice prescribed by the tax commissioner must require a statement to inform the taxpayer that an assessment increase does not mean property taxes on the parcel will increase. The notice must state that each taxing district must base its tax rate on the number of dollars raised from property taxes in the previous taxable year by the taxing district and that notice of public hearing will be mailed to the property owner if a greater property tax levy is being proposed by the taxing district. The notice may not contain an estimate of a tax increase resulting from the assessment increase.
3. The assessor shall provide an electronic or printed list including the name and address of the addressee of each assessment increase notice required under this section to each city, county, school district, or city park district in which the subject property is located, but a copy does not have to be provided to any such taxing district that levied a property tax levy of less than one hundred thousand dollars for the prior year.

SECTION 2. AMENDMENT. Section 57-15-02.1 of the North Dakota Century Code is amended and reenacted as follows:

57-15-02.1. Property tax levy increase notice and public hearing.

Notwithstanding any other provision of law, a taxing district may not impose a property tax levy in a greater number of mills than the zero increase number of mills, unless the taxing district is in substantial compliance with this section.

1. The governing body shall cause publication of notice in its official newspaper at least seven days before a public hearing on its property tax levy. A public hearing under this section may not be scheduled to begin earlier than six p.m. The notice must have at least one-half inch [1.27 centimeters] white space margin on all four sides and must be at least two columns wide by five inches [12.7 centimeters] high. The heading must be capitalized in boldface type of at least eighteen point stating "IMPORTANT NOTICE TO (name of taxing district) TAXPAYERS". The proposed percentage increase must be printed in a boldface type size no less than two points less than the heading, while the remaining portion of the advertisement must be printed in a type face size no less than four points less than the heading. The text of the notice must contain:
 - a. The date, time, and place of the public hearing.
 - b. A statement that the public hearing will be held to consider increasing the property tax levy by a stated percentage, expressed as a percentage increase exceeding the zero increase number of mills.
 - c. A statement that there will be an opportunity for citizens to present oral or written comments regarding the property tax levy.
 - d. Any other information the taxing district wishes to provide to inform taxpayers.
2. At least seven days before a public hearing on its property tax levy under this section, the governing body shall cause notice of the information required under subsection 1 to be mailed to each property owner who received notice of an assessment increase for the taxable year under section 57-12-09.

3. If the governing body of the taxing district does not make a final decision on imposing a property tax levy exceeding the zero increase number of mills at the public hearing required by this section, the governing body shall announce at that public hearing the scheduled time and place of the next public meeting at which the governing body will consider final adoption of a property tax levy exceeding the tax district's zero increase number of mills.
- ~~3.4.~~ For purposes of this section:
- a. "New growth" means the taxable valuation of any property that was not taxable in the prior year.
 - b. "Property tax levy" means the tax rate, expressed in mills, for all property taxes levied by the taxing district.
 - c. "Taxing district" means a city, county, school district, or city park district but does not include any such taxing district that levied a property tax levy of less than one hundred thousand dollars for the prior year and sets a budget for the current year calling for a property tax levy of less than one hundred thousand dollars.
 - d. "Zero increase number of mills" means the number of mills against the taxing district's current year taxable valuation, excluding consideration of new growth, which will provide the same amount of property tax revenue as the property tax levy in the prior year.
5. For the taxable year 2013 only, for purposes of determining the zero increase number of mills for a school district, the amount of property tax revenue from the property tax levy in the 2012 taxable year must be recalculated by reducing the 2012 mill rate of the school district by the lesser of:
- a. Sixty mills; or
 - b. The 2012 general fund mill rate of the school district minus fifty mills.

SECTION 3. AMENDMENT. Section 57-20-07.1 of the North Dakota Century Code is amended and reenacted as follows:

57-20-07.1. County treasurer to mail real estate tax statement.

1. On or before December twenty-sixth of each year, the county treasurer shall mail a real estate tax statement to the owner of each parcel of real property at the owner's last-known address. The form of the real estate tax statement to be used in every county must be prescribed and approved for use by the tax commissioner. The statement must be provided in a manner that allows the taxpayer to retain a printed record of the obligation for payment of taxes and special assessments as provided in the statement. If a parcel of real property is owned by more than one individual, the county treasurer shall send only one statement to one of the owners of that property. Additional copies of the tax statement will be sent to the other owners upon their request and the furnishing of their names and addresses to the county treasurer. The tax statement must include:
 - a. Include a dollar valuation of the true and full value as defined by law of the property and the total mill levy applicable. ~~The tax statement must include~~
 - b. Include, or be accompanied by a separate sheet, with three columns showing, for the taxable year to which the tax statement applies and the two immediately preceding taxable years, the property tax levy in dollars against the parcel by the county and school district and any city or township that levied taxes against the parcel.

- c. Provide information identifying the property tax savings provided by the state of North Dakota. The tax statement must include a line item that is entitled "legislative tax relief" and identifies the dollar amount of property tax savings realized by the taxpayer under chapter 15.1-27. For purposes of this subdivision, legislative tax relief is determined by multiplying the taxable value for the taxable year for each parcel shown on the tax statement by the number of mills of mill levy reduction grant under chapter 57-64 for the 2012 taxable year plus the number of mills determined by subtracting from the 2012 taxable year mill rate of the school district in which the parcel is located the lesser of:
- (1) Sixty mills; or
 - (2) The 2012 taxable year mill rate of the school district minus fifty mills.
2. Failure of an owner to receive a statement will not relieve that owner of liability, nor extend the discount privilege past the February fifteenth deadline.

SECTION 4. LEGISLATIVE MANAGEMENT STUDY. The legislative management shall consider studying development of standard procedures and classification of accounts to provide a means of accumulating financial information that will be uniform for all counties, regardless of their size or various approaches to budgeting and accounting that may be in use, with the objective of achieving uniformity of financial information to guide preparation of financial reports required by law and preparation of management reports on county government performance. The legislative management shall report its findings and recommendations, together with any legislation required to implement the recommendations, to the sixty-fourth legislative assembly.

SECTION 5. EFFECTIVE DATE. This Act is effective for taxable years beginning after December 31, 2012."

If a parcel of real property is owned by more than one individual, the county treasurer shall send only one statement to one of the owners of that property. Additional copies of the tax statement will be sent to the other owners upon their request and the furnishing of their names and addresses to the county treasurer. The tax statement must include:

2. Include, or be accompanied by a separate sheet, with three columns showing, for the taxable year to which the tax statement applies and the two immediately preceding taxable years, the property tax levy in dollars against the parcel by the county and school district and any city or township that levied taxes against the parcel.
3. Include, for the taxable year to which the tax statement applies and the two immediately preceding taxable years, a line item identified as "legislative property tax relief" showing the amount in dollars paid through legislative appropriation pursuant to section 57-20-07.2 and chapter 57-64 against the property taxes levied against the property.

SECTION 4. Section 57-20-07.2 of the North Dakota Century Code is created and enacted as follows:

57-20-07.2. State-paid property tax relief credit.

1. The credit is equal to eighteen percent of property or mobile home taxes levied in dollars against that property.
2. The owner, operator, or lessee of railroad property assessed by the state board of equalization under chapter 57-05 or public utility operative property assessed by the state board of equalization under chapter 57-06

The tax commissioner shall determine the total amount of credits under this subsection and certify the amount to the state treasurer for transfer from the general fund to the air transportation fund. The credit for each air transportation company must be allocated to each city or municipal airport authority where that company makes regularly scheduled landings, in the same manner as the tax collected from that company is allocated.
 4. The tax commissioner shall estimate the amount necessary to provide each county advance payment of seventy-five percent of the amount the county and the taxing districts in the county will ultimately receive for a taxable year under this section and certify the estimated amounts to the state treasurer by March fifteenth for transfer by April first to the county treasurer and distribution to the county and taxing districts in the county as provided in subsection 5.

The tax commissioner shall certify to the state treasurer for payment, by June first following receipt of the abstract of the tax list, the amount determined for each county under this subsection. No penalty or interest applies to any state payment under this section, regardless of when the payment is made. The tax commissioner shall reduce the June certification of payments to reflect the April estimated payments previously made to counties under subsection 4.
 6. Upon receipt of the payment from the state treasurer under subsections 4 and 5, the county treasurer shall apportion and distribute it to the county and the taxing districts in the county on the basis on which the general real estate tax for the preceding year is apportioned and distributed.
 7. After payments to counties under subsection 5 have been made, the tax commissioner shall certify to the state treasurer as necessary any supplemental amounts payable to counties or the air transportation fund or any amounts that must be returned by counties or returned from the air transportation fund for deposit in the state general fund to correct any errors in payments or reflect any abatement or compromise of taxes, court-ordered tax reduction or increase, or levy of taxes against omitted property. The county auditor shall provide any supplemental information requested by the tax commissioner after submission of the abstract of the tax list. The county treasurer shall apply to the tax commissioner for any supplemental payments to which the county treasurer believes the county is entitled.
 8. Notwithstanding any other provision of law, for any property other than mobile homes, the property tax credit under this section does not apply to any property subject to payments or taxes that are stated by law to be in lieu of personal or real property taxes.

SECTION 5. AMENDMENT. Section 57-20-09 of the North Dakota Century Code is amended and reenacted as follows:

57-20-09. Discount for early payment of tax.

Except as provided in section 57-20-21.1, the county treasurer shall allow a five percent discount to all taxpayers who shall pay all of the real estate taxes levied

on any tract or parcel of real property in any one year in full on or before February fifteenth prior to the date of delinquency. Such discount applies, after deduction of any credit allowed under section 57-20-07.2, to the net remaining amount of all general real estate taxes levied for state, county, city, township, school district, fire district, park district, and any other taxing districts but does not apply to personal property taxes or special assessment installments. Whenever the board of county commissioners, by resolution, determines that an emergency exists in the county by virtue of weather or other catastrophe, it may extend the discount period for an additional thirty days.

SECTION 6. AMENDMENT. Section 57-20-21.1 of the North Dakota Century Code is amended and reenacted as follows:

57-20-21.1. Priority for delinquent taxes.

When payment is made for any real or personal property taxes or special assessments, payments must be applied first to the oldest unpaid delinquent taxes or special assessments due, if any, shown to exist upon the property for which the tax payments are made, including any penalty and interest, except payments of state-paid property tax relief credit made by the state must be applied to taxes for the year for which the state-paid property tax relief credit is granted. The discounts applicable to payment of taxes set out in section 57-20-09 do not apply to payment of taxes made on property upon which tax payments are delinquent."

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 15-05-10 of the North Dakota Century Code is amended and reenacted as follows:

15-05-10. Royalties from oil leases - Rents from other leases - Rules.

Oil leases must be made by the board of university and school lands at such annual minimum payments as are determined by the board, but the royalty shall be not less than twelve and one-half percent of the gross output of oil from the lands leased. Oil leases made by the board may authorize a royalty of less than twelve and one-half percent for production from stripper well properties or individual stripper wells and qualifying secondary recovery and qualifying tertiary recovery projects as defined in section 57-51.1-01. Leases for gas, coal, cement materials, sodium sulfate, sand and gravel, road material, building stone, chemical substances, metallic ores, or colloidal or other clays must be made by the board in such annual payments as are determined by the board. The board may adopt rules regarding annual payments and royalties under this section.

SECTION 2. AMENDMENT. Subsection 4 of section 38-08-04 of the North Dakota Century Code is amended and reenacted as follows:

4. To classify wells as oil or gas wells for purposes material to the interpretation or enforcement of this chapter, to classify and determine the status and depth of wells that are stripper well property as defined in subsection 8 of section 57-51.1-01, to certify to the tax commissioner which wells are stripper wells and the depth of those wells, to recertify stripper wells that are reentered and recompleted as horizontal wells, and to certify to the tax commissioner which wells involve secondary or

tertiary recovery operations under section 57-51.1-01, and the date of qualification for the reduced rate of oil extraction tax for secondary and tertiary recovery operations.

SECTION 3. A new section to chapter 57-38 of the North Dakota Century Code is created and enacted as follows:

Withholding requirement for oil and gas royalty payments to nonresidents.

1. For purposes of this section:
 - a. "Publicly traded partnership" means a publicly traded partnership as defined in section 7704 of the Internal Revenue Code [26 U.S.C. 7704] which is not treated as a corporation.
 - b. "Remitter" means any person who distributes royalty payments to royalty owners.
 - c. "Royalty owner" means a person or entity entitled to receive periodic royalty payments for a nonworking interest in the production of oil or gas.
2. Except as provided in subsection 3, each remitter shall deduct and withhold from the net amount of the royalty payment made to each nonresident individual or business entity that does not have its commercial domicile in this state at the highest marginal rate provided in sections 57-38-30 and 57-38-30.3. Sections 57-38-59 and 57-38-60 apply to the filing of the returns and payment of the tax under this subsection.
3. This section does not apply to royalty payments made to a royalty owner if the royalty owner is:
 - a. The United States or an agency of the federal government, this state or a political subdivision of this state, or another state or a political subdivision of another state;
 - b. A federally recognized Indian tribe with respect to on-reservation oil and gas production pursuant to a lease entered under the Indian Mineral Leasing Act of 1938 [25 U.S.C. 396a through 396g];
 - c. The United States as trustee for individual Indians;
 - d. A publicly traded partnership;
 - e. An organization that is exempt from the tax under this chapter; or
 - f. The same person or entity as the remitter.
4. a. This section does not apply to a remitter that produced less than three hundred fifty thousand barrels of oil or less than five hundred million cubic feet of gas in the preceding calendar year as certified to the tax commissioner in the manner and on forms prescribed by the tax commissioner.
 - b. Each remitter that is exempt from withholding under this subsection shall make an annual return to report royalty payments that exceed the dollar amounts in subsection 6 and must be reported in the same manner as provided in section 57-38-60.
5. a. Each year, a publicly traded partnership that is exempt from withholding under subsection 3 shall transmit to the tax commissioner, in an electronic format approved by the tax commissioner, each partner's United States department of the

treasury schedule K-1, form 1065, or form 1065-B, as applicable, filed electronically for the year with the United States internal revenue service.

- b. A royalty owner that is a publicly traded partnership, or an organization exempt from taxation under section 57-38-09, shall report to the remitter and tax commissioner under oath, on a form prescribed by the tax commissioner, all information necessary to establish that the remitter is not required under subsection 2 to withhold royalty payments made to the partnership or organization.
6. If the royalty payment made to a royalty owner under this section is less than six hundred dollars for the current withholding period, or is less than one thousand dollars if the payment is annualized, the tax commissioner may grant a remitter's request to forego withholding the tax from the royalty payment made to that royalty owner for the current withholding period or, if applicable, the royalty payments for the annual period.

SECTION 4. AMENDMENT. Section 57-51.1-01 of the North Dakota Century Code is amended and reenacted as follows:

57-51.1-01. Definitions for oil extraction tax.

~~For the purposes of the oil extraction tax law, the following words and terms shall have the meaning ascribed to them in this section~~this chapter:

1. "Average daily production" of a well means the qualified maximum total production of oil from the well during a calendar month period divided by the number of calendar days in that period, and "qualified maximum total production" of a well means that the well must have been maintained at the maximum efficient rate of production as defined and determined by rule adopted by the industrial commission in furtherance of its authority under chapter 38-08.
2. "Average price" of a barrel of crude oil means the monthly average of the daily closing price for a barrel of west Texas intermediate cushing crude oil, as those prices appear in the Wall Street Journal, midwest edition, minus two dollars and fifty cents. When computing the monthly average price, the most recent previous daily closing price must be considered the daily closing price for the days on which the market is closed.
3. "Horizontal reentry well" means a well that was not initially drilled and completed as a horizontal well, including any well initially plugged and abandoned as a dry hole, which is reentered and recompleted as a horizontal well.
4. "Horizontal well" means a well with a horizontal displacement of the well bore drilled at an angle of at least eighty degrees within the productive formation of at least three hundred feet [91.44 meters].
5. "Oil" means petroleum, crude oil, mineral oil, casinghead gasoline, and all liquid hydrocarbons that are recovered from gas on the lease incidental to the production of the gas.
6. "Property" means the right which arises from a lease or fee interest, as a whole or any designated portion thereof, to produce oil. A producer shall treat as a separate property each separate and distinct producing reservoir subject to the same right to produce crude oil; provided, that such reservoir is recognized by the industrial commission as a producing formation that is separate and distinct from, and not in communication with, any other producing formation.
7. "Qualifying secondary recovery project" means a project employing water flooding. To be eligible for the tax reduction provided under section 57-51.1-02, a secondary recovery project must be certified as qualifying

by the industrial commission and the project operator must have achieved for six consecutive months an average production level of at least twenty-five percent above the level that would have been recovered under normal recovery operations. To be eligible for the tax exemption provided under section 57-51.1-03 and subsequent thereto the rate reduction provided under section 57-51.1-02, a secondary recovery project must be certified as qualifying by the industrial commission and the project operator must have obtained incremental production as defined in subsection 5 of section 57-51.1-03.

8. "Qualifying tertiary recovery project" means a project for enhancing recovery of oil which meets the requirements of section 4993(c), Internal Revenue Code of 1954, as amended through December 31, 1986, and includes the following methods for recovery:
 - a. Miscible fluid displacement.
 - b. Steam drive injection.
 - c. Microemulsion.
 - d. In situ combustion.
 - e. Polymer augmented water flooding.
 - f. Cyclic steam injection.
 - g. Alkaline flooding.
 - h. Carbonated water flooding.
 - i. Immiscible carbon dioxide displacement.
 - j. New tertiary recovery methods certified by the industrial commission.

It does not include water flooding, unless the water flooding is used as an element of one of the qualifying tertiary recovery techniques described in this subsection, or immiscible natural gas injection. To be eligible for the tax reduction provided under section 57-51.1-02, a tertiary recovery project must be certified as qualifying by the industrial commission, the project operator must continue to operate the unit as a qualifying tertiary recovery project, and the project operator must have achieved for at least one month a production level of at least fifteen percent above the level that would have been recovered under normal recovery operations. To be eligible for the tax exemption provided under section 57-51.1-03 and subsequent thereto the rate reduction provided under section 57-51.1-02, a tertiary recovery project must be certified as qualifying by the industrial commission, the project operator must continue to operate the unit as a qualifying tertiary recovery project, and the project operator must have obtained incremental production as defined in subsection 5 of section 57-51.1-03.

9. "Royalty owner" means an owner of what is commonly known as the royalty interest and shall not include the owner of any overriding royalty or other payment carved out of the working interest.
10. "Stripper well" means a well drilled and completed, or reentered and recompleted as a horizontal well, after June 30, 2013, whose average daily production of oil during any preceding consecutive twelve-month period, excluding condensate recovered in nonassociated production, per well did not exceed ten barrels per day for wells of a depth of six thousand feet [1828.80 meters] or less, fifteen barrels per day for wells of a depth of more than six thousand feet [1828.80 meters] but not more than ten thousand feet [3048 meters], and thirty barrels per day for wells of a depth of more than ten thousand feet [3048 meters] outside the

Bakken and Three Forks formations, and thirty-five barrels per day for wells of a depth of more than ten thousand feet [3048 meters] in the Bakken or Three Forks formation.

11. "Stripper well property" means wells drilled and completed, or a well reentered and recompleted as a horizontal well, before July 1, 2013, on a "property" whose average daily production of oil, excluding condensate recovered in nonassociated production, per well did not exceed ten barrels per day for wells of a depth of six thousand feet [1828.80 meters] or less, fifteen barrels per day for wells of a depth of more than six thousand feet [1828.80 meters] but not more than ten thousand feet [3048 meters], and thirty barrels per day for wells of a depth of more than ten thousand feet [3048 meters] during any preceding consecutive twelve-month period. Wells which did not actually yield or produce oil during the qualifying twelve-month period, including disposal wells, dry wells, spent wells, and shut-in wells, are not production wells for the purpose of determining whether the stripper well property exemption applies.
- 41-12. "Trigger price" means thirty-five dollars and fifty cents, as indexed for inflation. By December thirty-first of each year, the tax commissioner shall compute an indexed trigger price by applying to the current trigger price the rate of change of the producer price index for industrial commodities as calculated and published by the United States department of labor, bureau of labor statistics, for the twelve months ending June thirtieth of that year and the indexed trigger price so determined is the trigger price for the following calendar year.
- 42-13. "Two-year inactive well" means any well certified by the industrial commission that did not produce oil in more than one month in any consecutive twenty-four-month period before being recompleted or otherwise returned to production after July 31, 1995. A well that has never produced oil, a dry hole, and a plugged and abandoned well are eligible for status as a two-year inactive well.

SECTION 5. AMENDMENT. Section 57-51.1-03 of the North Dakota Century Code is amended and reenacted as follows:

57-51.1-03. (~~Effective through June 30, 2013~~) Exemptions from oil extraction tax.

The following activities are specifically exempted from the oil extraction tax:

1. The activity of extracting from the earth any oil that is exempt from the gross production tax imposed by chapter 57-51.
2. The activity of extracting from the earth any oil from a stripper well property or individual stripper well.
3. For a well drilled and completed as a vertical well, the initial production of oil from the well is exempt from any taxes imposed under this chapter for a period of fifteen months, except that oil produced from any well drilled and completed as a horizontal well is exempt from any taxes imposed under this chapter for a period of twenty-four months. Oil recovered during testing prior to well completion is exempt from the oil extraction tax. The exemption under this subsection becomes ineffective if the average price of a barrel of crude oil exceeds the trigger price for each month in any consecutive five-month period. However, the exemption is reinstated if, after the trigger provision becomes effective, the average price of a barrel of crude oil is less than the trigger price for each month in any consecutive five-month period.
4. The production of oil from a qualifying well that was worked over is exempt from any taxes imposed under this chapter for a period of twelve months, beginning with the first day of the third calendar month after the

completion of the work-over project. The exemption provided by this subsection is only effective if the well operator establishes to the satisfaction of the industrial commission upon completion of the project that the cost of the project exceeded sixty-five thousand dollars or production is increased at least fifty percent during the first two months after completion of the project. A qualifying well under this subsection is a well with an average daily production of no more than fifty barrels of oil during the latest six calendar months of continuous production. A work-over project under this subsection means the continuous employment of a work-over rig, including recompletions and reentries. The exemption provided by this subsection becomes ineffective if the average price of a barrel of crude oil exceeds the trigger price for each month in any consecutive five-month period. However, the exemption is reinstated if, after the trigger provision becomes effective, the average price of a barrel of crude oil is less than the trigger price for each month in any consecutive five-month period.

5. a. The incremental production from a secondary recovery project which has been certified as a qualified project by the industrial commission after July 1, 1991, is exempt from any taxes imposed under this chapter for a period of five years from the date the incremental production begins.
- b. The incremental production from a tertiary recovery project that does not use carbon dioxide and which has been certified as a qualified project by the industrial commission is exempt from any taxes imposed under this chapter for a period of ten years from the date the incremental production begins. Incremental production from a tertiary recovery project that uses carbon dioxide and which has been certified as a qualified project by the industrial commission is exempt from any taxes imposed under this chapter from the date the incremental production begins.
- c. For purposes of this subsection, incremental production is defined in the following manner:
 - (1) For purposes of determining the exemption provided for in subdivision a and with respect to a unit where there has not been a secondary recovery project, incremental production means the difference between the total amount of oil produced from the unit during the secondary recovery project and the amount of primary production from the unit. For purposes of this paragraph, primary production means the amount of oil which would have been produced from the unit if the secondary recovery project had not been commenced. The industrial commission shall determine the amount of primary production in a manner which conforms to the practice and procedure used by the commission at the time the project is certified.
 - (2) For purposes of determining the exemption provided for in subdivision a and with respect to a unit where a secondary recovery project was in existence prior to July 1, 1991, and where the industrial commission cannot establish an accurate production decline curve, incremental production means the difference between the total amount of oil produced from the unit during a new secondary recovery project and the amount of production which would be equivalent to the average monthly production from the unit during the most recent twelve months of normal production reduced by a production decline rate of ten percent for each year. The industrial commission shall determine the average monthly production from the unit during the most recent twelve months of normal production and must upon request or upon its own motion hold a hearing to make this determination. For purposes of this paragraph, when determining the most recent twelve months of normal

production the industrial commission is not required to use twelve consecutive months. In addition, the production decline rate of ten percent must be applied from the last month in the twelve-month period of time.

- (3) For purposes of determining the exemption provided for in subdivision a and with respect to a unit where a secondary recovery project was in existence before July 1, 1991, and where the industrial commission can establish an accurate production decline curve, incremental production means the difference between the total amount of oil produced from the unit during the new secondary recovery project and the total amount of oil that would have been produced from the unit if the new secondary recovery project had not been commenced. For purposes of this paragraph, the total amount of oil that would have been produced from the unit if the new secondary recovery project had not been commenced includes both primary production and production that occurred as a result of the secondary recovery project that was in existence before July 1, 1991. The industrial commission shall determine the amount of oil that would have been produced from the unit if the new secondary recovery project had not been commenced in a manner that conforms to the practice and procedure used by the commission at the time the new secondary recovery project is certified.
- (4) For purposes of determining the exemption provided for in subdivision b and with respect to a unit where there has not been a secondary recovery project, incremental production means the difference between the total amount of oil produced from the unit during the tertiary recovery project and the amount of primary production from the unit. For purposes of this paragraph, primary production means the amount of oil which would have been produced from the unit if the tertiary recovery project had not been commenced. The industrial commission shall determine the amount of primary production in a manner which conforms to the practice and procedure used by the commission at the time the project is certified.
- (5) For purposes of determining the exemption provided for in subdivision b and with respect to a unit where there is or has been a secondary recovery project, incremental production means the difference between the total amount of oil produced during the tertiary recovery project and the amount of production which would be equivalent to the average monthly production from the unit during the most recent twelve months of normal production reduced by a production decline rate of ten percent for each year. The industrial commission shall determine the average monthly production from the unit during the most recent twelve months of normal production and must upon request or upon its own motion hold a hearing to make this determination. For purposes of this paragraph, when determining the most recent twelve months of normal production the industrial commission is not required to use twelve consecutive months. In addition, the production decline rate of ten percent must be applied from the last month in the twelve-month period of time.
- (6) For purposes of determining the exemption provided for in subdivision b and with respect to a unit where there is or has been a secondary recovery project and where the industrial commission can establish an accurate production decline curve, incremental production means the difference between the total amount of oil produced from the unit during the tertiary recovery project and the total amount of oil that would have

been produced from the unit if the tertiary recovery project had not been commenced. For purposes of this paragraph, the total amount of oil that would have been produced from the unit if the tertiary recovery project had not been commenced includes both primary production and production that occurred as a result of any secondary recovery project. The industrial commission shall determine the amount of oil that would have been produced from the unit if the tertiary recovery project had not been commenced in a manner that conforms to the practice and procedure used by the commission at the time the tertiary recovery project is certified.

- d. The industrial commission shall adopt rules relating to this exemption that must include procedures for determining incremental production as defined in subdivision c.
6. The production of oil from a two-year inactive well, as determined by the industrial commission and certified to the state tax commissioner, for a period of ten years after the date of receipt of the certification. The exemption under this subsection becomes ineffective if the average price of a barrel of crude oil exceeds the trigger price for each month in any consecutive five-month period. However, the exemption is reinstated if, after the trigger provision becomes effective, the average price of a barrel of crude oil is less than the trigger price for each month in any consecutive five-month period.
7. The production of oil from a horizontal reentry well, as determined by the industrial commission and certified to the state tax commissioner, for a period of nine months after the date the well is completed as a horizontal well. The exemption under this subsection becomes ineffective if the average price of a barrel of crude oil exceeds the trigger price for each month in any consecutive five-month period. However, the exemption is reinstated if, after the trigger provision becomes effective, the average price of a barrel of crude oil is less than the trigger price for each month in any consecutive five-month period.
8. The initial production of oil from a well is exempt from any taxes imposed under this chapter for a period of sixty months if:
 - a. The well is ~~located~~ drilled and completed before July 1, 2013, on nontrust lands within the boundaries of an Indian reservation;
 - b. The well is drilled and completed before July 1, 2013, on lands held in trust by the United States for an Indian tribe or individual Indian; or
 - c. The well is drilled and completed before July 1, 2013, on lands held by an Indian tribe if the interest is in existence on August 1, 1997.
9. The first seventy-five thousand barrels or the first four million five hundred thousand dollars of gross value at the well, whichever is less, of oil produced during the first eighteen months after completion, from a horizontal well drilled and completed after April 30, 2009, and before July 1, 2015, is subject to a reduced tax rate of two percent of the gross value at the well of the oil extracted under this chapter. A well eligible for a reduced tax rate under this subsection is eligible for the exemption for horizontal wells under subsection 3, if the exemption under subsection 3 is effective during all or part of the first twenty-four months after completion. The rate reduction under this subsection becomes effective on the first day of the month following a month for which the average price of a barrel of crude oil is less than fifty-five dollars. The rate reduction under this subsection becomes ineffective on the first day of the month following a month in which the average price of a barrel of crude oil exceeds seventy dollars. If the rate reduction under this subsection is effective on the date of completion of a well, the rate reduction applies to production from that well for up to eighteen months

after completion, subject to the other limitations of this subsection. If the rate reduction under this subsection is ineffective on the date of completion of a well, the rate reduction under this subsection does not apply to production from that well at any time.

10. The first seventy-five thousand barrels of oil produced during the first eighteen months after completion, from a well drilled and completed outside the Bakken and Three Forks formations, and ten miles or more outside an established field in which the industrial commission has defined the pool to include the Bakken or Three Forks formation, is subject to a reduced tax rate of two percent of the gross value at the well of the oil extracted under this chapter. A well eligible for a reduced tax rate under this subsection is eligible for the exemption under subsection 3, if the exemption under subsection 3 is effective during all or part of the first twenty-four months after completion.

(Effective after June 30, 2013) Exemptions from oil extraction tax. The following activities are specifically exempted from the oil extraction tax:

1. ~~The activity of extracting from the earth any oil that is exempt from the gross production tax imposed by chapter 57-51.~~
2. ~~The activity of extracting from the earth any oil from a stripper well property.~~
3. ~~For a well drilled and completed as a vertical well, the initial production of oil from the well is exempt from any taxes imposed under this chapter for a period of fifteen months, except that oil produced from any well drilled and completed as a horizontal well is exempt from any taxes imposed under this chapter for a period of twenty-four months. Oil recovered during testing prior to well completion is exempt from the oil extraction tax. The exemption under this subsection becomes ineffective if the average price of a barrel of crude oil exceeds the trigger price for each month in any consecutive five-month period. However, the exemption is reinstated if, after the trigger provision becomes effective, the average price of a barrel of crude oil is less than the trigger price for each month in any consecutive five-month period.~~
4. ~~The production of oil from a qualifying well that was worked over is exempt from any taxes imposed under this chapter for a period of twelve months, beginning with the first day of the third calendar month after the completion of the work-over project. The exemption provided by this subsection is only effective if the well operator establishes to the satisfaction of the industrial commission upon completion of the project that the cost of the project exceeded sixty-five thousand dollars or production is increased at least fifty percent during the first two months after completion of the project. A qualifying well under this subsection is a well with an average daily production of no more than fifty barrels of oil during the latest six calendar months of continuous production. A work-over project under this subsection means the continuous employment of a work-over rig, including recompletions and reentries. The exemption provided by this subsection becomes ineffective if the average price of a barrel of crude oil exceeds the trigger price for each month in any consecutive five-month period. However, the exemption is reinstated if, after the trigger provision becomes effective, the average price of a barrel of crude oil is less than the trigger price for each month in any consecutive five-month period.~~
5. a. ~~The incremental production from a secondary recovery project which has been certified as a qualified project by the industrial commission after July 1, 1991, is exempt from any taxes imposed under this chapter for a period of five years from the date the incremental production begins.~~

- b. ~~The incremental production from a tertiary recovery project that does not use carbon dioxide and which has been certified as a qualified project by the industrial commission is exempt from any taxes imposed under this chapter for a period of ten years from the date the incremental production begins. Incremental production from a tertiary recovery project that uses carbon dioxide and which has been certified as a qualified project by the industrial commission is exempt from any taxes imposed under this chapter from the date the incremental production begins.~~
- c. ~~For purposes of this subsection, incremental production is defined in the following manner:~~
- ~~(1) For purposes of determining the exemption provided for in subdivision a and with respect to a unit where there has not been a secondary recovery project, incremental production means the difference between the total amount of oil produced from the unit during the secondary recovery project and the amount of primary production from the unit. For purposes of this paragraph, primary production means the amount of oil which would have been produced from the unit if the secondary recovery project had not been commenced. The industrial commission shall determine the amount of primary production in a manner which conforms to the practice and procedure used by the commission at the time the project is certified.~~
 - ~~(2) For purposes of determining the exemption provided for in subdivision a and with respect to a unit where a secondary recovery project was in existence prior to July 1, 1991, and where the industrial commission cannot establish an accurate production decline curve, incremental production means the difference between the total amount of oil produced from the unit during a new secondary recovery project and the amount of production which would be equivalent to the average monthly production from the unit during the most recent twelve months of normal production reduced by a production decline rate of ten percent for each year. The industrial commission shall determine the average monthly production from the unit during the most recent twelve months of normal production and must upon request or upon its own motion hold a hearing to make this determination. For purposes of this paragraph, when determining the most recent twelve months of normal production the industrial commission is not required to use twelve consecutive months. In addition, the production decline rate of ten percent must be applied from the last month in the twelve-month period of time.~~
 - ~~(3) For purposes of determining the exemption provided for in subdivision a and with respect to a unit where a secondary recovery project was in existence before July 1, 1991, and where the industrial commission can establish an accurate production decline curve, incremental production means the difference between the total amount of oil produced from the unit during the new secondary recovery project and the total amount of oil that would have been produced from the unit if the new secondary recovery project had not been commenced. For purposes of this paragraph, the total amount of oil that would have been produced from the unit if the new secondary recovery project had not been commenced includes both primary production and production that occurred as a result of the secondary recovery project that was in existence before July 1, 1991. The industrial commission shall determine the amount of oil that would have been produced from the unit if the new secondary recovery project had not been commenced in a manner that conforms to the practice and procedure used~~

by the commission at the time the new secondary recovery project is certified.

- (4) For purposes of determining the exemption provided for in subdivision b and with respect to a unit where there has not been a secondary recovery project, incremental production means the difference between the total amount of oil produced from the unit during the tertiary recovery project and the amount of primary production from the unit. For purposes of this paragraph, primary production means the amount of oil which would have been produced from the unit if the tertiary recovery project had not been commenced. The industrial commission shall determine the amount of primary production in a manner which conforms to the practice and procedure used by the commission at the time the project is certified.
- (5) For purposes of determining the exemption provided for in subdivision b and with respect to a unit where there is or has been a secondary recovery project, incremental production means the difference between the total amount of oil produced during the tertiary recovery project and the amount of production which would be equivalent to the average monthly production from the unit during the most recent twelve months of normal production reduced by a production decline rate of ten percent for each year. The industrial commission shall determine the average monthly production from the unit during the most recent twelve months of normal production and must upon request or upon its own motion hold a hearing to make this determination. For purposes of this paragraph, when determining the most recent twelve months of normal production the industrial commission is not required to use twelve consecutive months. In addition, the production decline rate of ten percent must be applied from the last month in the twelve-month period of time.
- (6) For purposes of determining the exemption provided for in subdivision b and with respect to a unit where there is or has been a secondary recovery project and where the industrial commission can establish an accurate production decline curve, incremental production means the difference between the total amount of oil produced from the unit during the tertiary recovery project and the total amount of oil that would have been produced from the unit if the tertiary recovery project had not been commenced. For purposes of this paragraph, the total amount of oil that would have been produced from the unit if the tertiary recovery project had not been commenced includes both primary production and production that occurred as a result of any secondary recovery project. The industrial commission shall determine the amount of oil that would have been produced from the unit if the tertiary recovery project had not been commenced in a manner that conforms to the practice and procedure used by the commission at the time the tertiary recovery project is certified.
- d. The industrial commission shall adopt rules relating to this exemption that must include procedures for determining incremental production as defined in subdivision c.
6. The production of oil from a two-year inactive well, as determined by the industrial commission and certified to the state tax commissioner, for a period of ten years after the date of receipt of the certification. The exemption under this subsection becomes ineffective if the average price of a barrel of crude oil exceeds the trigger price for each month in any consecutive five-month period. However, the exemption is reinstated if, after the trigger provision becomes effective, the average price of a barrel

of crude oil is less than the trigger price for each month in any consecutive five-month period.

7. ~~The production of oil from a horizontal reentry well, as determined by the industrial commission and certified to the state tax commissioner, for a period of nine months after the date the well is completed as a horizontal well. The exemption under this subsection becomes ineffective if the average price of a barrel of crude oil exceeds the trigger price for each month in any consecutive five-month period. However, the exemption is reinstated if, after the trigger provision becomes effective, the average price of a barrel of crude oil is less than the trigger price for each month in any consecutive five-month period.~~
8. ~~The initial production of oil from a well is exempt from any taxes imposed under this chapter for a period of sixty months if:~~
 - a. ~~The well is located within the boundaries of an Indian reservation;~~
 - b. ~~The well is drilled and completed on lands held in trust by the United States for an Indian tribe or individual Indian; or~~
 - c. ~~The well is drilled and completed on lands held by an Indian tribe if the interest is in existence on August 1, 1997.~~
9. ~~The first seventy-five thousand barrels of oil produced during the first eighteen months after completion, from a horizontal well drilled and completed in the Bakken formation after June 30, 2007, and before July 1, 2008, is subject to a reduced tax rate of two percent of the gross value at the well of the oil extracted under this chapter. A well eligible for a reduced tax rate under this subsection is eligible for the exemption for horizontal wells under subsection 3, if the exemption under subsection 3 is effective during all or part of the first twenty-four months after completion.~~

SECTION 6. AMENDMENT. Subsection 1 of section 57-51.1-03.1 of the North Dakota Century Code is amended and reenacted as follows:

1. To receive, from the first day of eligibility, a tax exemption on production from a stripper well property ~~or individual stripper well~~ under subsection 2 of section 57-51.1-03, the industrial commission's certification must be submitted to the tax commissioner within eighteen months after the end of the stripper well property's ~~or stripper well's~~ qualification period.

5. The allocation of revenue from oil and gas production taxes on the Fort Berthold Reservation must be as follows:
 - a. Production attributable to trust lands. All revenues and exemptions from all oil and gas gross production and oil extraction taxes attributable to production from trust lands on the Fort Berthold Reservation must be evenly divided between the tribe and the state.
 - b. All other production. The tribe must receive ~~twenty~~^{fifty} percent of the total oil and gas gross production and oil extraction taxes collected from all production attributable to nontrust lands on the Fort Berthold Reservation in lieu of the application of the Three Affiliated Tribes' fees and taxes related to production on such lands. SECTION 8. LEGISLATIVE MANAGEMENT STUDY - ANALYSIS OF FUTURE OIL INDUSTRY CHANGES - CONSULTANT ASSISTANCE. The legislative management shall study the likely changes to oil industry practices, production, impacts, and tax policy in the foreseeable future. To assist with this study, the legislative management shall obtain the services of an independent consultant with demonstrated insight into current and future production advances, including use

of carbon dioxide and water or other means of enhancing production; effects of mature production areas on state and local tax policy; future infrastructure needs; and environmental considerations. The objective of the study is development of a legislative vision of appropriate long-term policy issues and revenue and expenditure expectations. The legislative management shall report its findings and recommendations, together with any legislation to implement the recommendations, to the sixty-fourth legislative assembly.

SECTION 1. AMENDMENT. Section 57-12-09 of the North Dakota Century Code is amended and reenacted as follows:

57-12-09. Notice of increased assessment to real estate owner.

1. When any assessor has increased the true and full valuation of any lot or tract of land including any improvements thereon by three thousand dollars or more and to ten percent or more than the amount of the last assessment, written notice of the amount of increase and the amount of the last assessment must be delivered in writing by the assessor to the property owner, mailed in writing to the property owner at the property owner's last-known address, or provided to the property owner by electronic mail directed with verification of receipt to an electronic mail address at which the property owner has consented to receive notice. Delivery of notice to a property owner under this section must be completed not fewer than fifteen days before the meeting of the local equalization board. The tax commissioner shall prescribe suitable forms for this notice and the notice must show the true and full value as defined by law of the property, including improvements, that the assessor used in making the assessment for the current year and for the year in which the last assessment was made and must also show the date prescribed by law for the meeting of the local equalization board of the assessment district in which the property is located and the meeting date of the county equalization board. The notice must be mailed or delivered at the expense of the assessment district for which the assessor is employed.
2. The form of notice prescribed by the tax commissioner must require a statement to inform the taxpayer that an assessment increase does not mean property taxes on the parcel will increase. The notice must state that each taxing district must base its tax rate on the number of dollars raised from property taxes in the previous taxable year by the taxing district and that notice of public hearing will be mailed to the property owner if a greater property tax levy is being proposed by the taxing district. The notice may not contain an estimate of a tax increase resulting from the assessment increase.
3. The assessor shall provide an electronic or printed list including the name and address of the addressee of each assessment increase notice required under this section to each city, county, school district, or city park district in which the subject property is located, but a copy does not have to be provided to any such taxing district that levied a property tax levy of less than one hundred thousand dollars for the prior year.

SECTION 2. AMENDMENT. Section 57-15-02.1 of the North Dakota Century Code is amended and reenacted as follows:

57-15-02.1. Property tax levy increase notice and public hearing.

Notwithstanding any other provision of law, a taxing district may not impose a property tax levy in a greater number of mills than the zero increase number of mills, unless the taxing district is in substantial compliance with this section.

1. The governing body shall cause publication of notice in its official newspaper at least seven days before a public hearing on its property tax levy. A public hearing under this section may not be scheduled to begin earlier than six p.m. The notice must have at least one-half inch [1.27 centimeters] white space margin on all four sides and must be at least two columns wide by five inches [12.7 centimeters] high. The heading must be capitalized in boldface type of at least eighteen point stating "IMPORTANT NOTICE TO (name of taxing district) TAXPAYERS". The proposed percentage increase must be printed in a boldface type size no less than two points less than the heading, while the remaining portion of the advertisement must be printed in a type face size no less than four points less than the heading. The text of the notice must contain:
 - a. The date, time, and place of the public hearing.
 - b. A statement that the public hearing will be held to consider increasing the property tax levy by a stated percentage, expressed as a percentage increase exceeding the zero increase number of mills.
 - c. A statement that there will be an opportunity for citizens to present oral or written comments regarding the property tax levy.
 - d. Any other information the taxing district wishes to provide to inform taxpayers.
2. At least seven days before a public hearing on its property tax levy under this section, the governing body shall cause notice of the information required under subsection 1 to be mailed to each property owner who received notice of an assessment increase for the taxable year under section 57-12-09.
3. If the governing body of the taxing district does not make a final decision on imposing a property tax levy exceeding the zero increase number of mills at the public hearing required by this section, the governing body shall announce at that public hearing the scheduled time and place of the next public meeting at which the governing body will consider final adoption of a property tax levy exceeding the tax district's zero increase number of mills.
- ~~3.4.~~ For purposes of this section:
 - a. "New growth" means the taxable valuation of any property that was not taxable in the prior year.
 - b. "Property tax levy" means the tax rate, expressed in mills, for all property taxes levied by the taxing district.
 - c. "Taxing district" means a city, county, school district, or city park district but does not include any such taxing district that levied a property tax levy of less than one hundred thousand dollars for the prior year and sets a budget for the current year calling for a property tax levy of less than one hundred thousand dollars.
 - d. "Zero increase number of mills" means the number of mills against the taxing district's current year taxable valuation, excluding consideration of new growth, which will provide the same amount of property tax revenue as the property tax levy in the prior year.

5. For the taxable year 2013 only, for purposes of determining the zero increase number of mills for a school district, the amount of property tax revenue from the property tax levy in the 2012 taxable year must be recalculated by reducing the 2012 mill rate of the school district by the lesser of:
 - a. Fifty mills; or
 - b. The 2012 general fund mill rate of the school district minus sixty mills.

SECTION 3. AMENDMENT. Section 57-20-07.1 of the North Dakota Century Code is amended and reenacted as follows:

57-20-07.1. County treasurer to mail real estate tax statement - Contents of statement.

1. On or before December twenty-sixth of each year, the county treasurer shall mail a real estate tax statement to the owner of each parcel of real property at the owner's last-known address. The form of the real estate tax statement to be used in every county must be prescribed and approved for use by the tax commissioner. The statement must be provided in a manner that allows the taxpayer to retain a printed record of the obligation for payment of taxes and special assessments as provided in the statement. If a parcel of real property is owned by more than one individual, the county treasurer shall send only one statement to one of the owners of that property. Additional copies of the tax statement will be sent to the other owners upon their request and the furnishing of their names and addresses to the county treasurer. The tax statement must include:
 - a. Include a dollar valuation of the true and full value as defined by law of the property and the total mill levy applicable. ~~The tax statement must include~~
 - b. Include, or be accompanied by a separate sheet, with three columns showing, for the taxable year to which the tax statement applies and the two immediately preceding taxable years, the property tax levy in dollars against the parcel by the county and school district and any city or township that levied taxes against the parcel.
 - c. Provide information identifying the property tax savings provided by the state of North Dakota. The tax statement must include a line item that is entitled "legislative tax relief" and identifies the dollar amount of property tax savings realized by the taxpayer under chapter 15.1-27 and under section 57-20-07.2. For purposes of this subdivision, legislative tax relief is determined by multiplying the taxable value for the taxable year for each parcel shown on the tax statement by the number of mills of mill levy reduction grant under chapter 57-64 for the 2012 taxable year plus the number of mills determined by subtracting from the 2012 taxable year mill rate of the school district in which the parcel is located the lesser of:
 - (1) Fifty mills; or
 - (2) The 2012 taxable year mill rate of the school district minus sixty mills.
2. Failure of an owner to receive a statement will not relieve that owner of liability, nor extend the discount privilege past the February fifteenth deadline.

SECTION 4. Section 57-20-07.2 of the North Dakota Century Code is created and enacted as follows:

57-20-07.2. State-paid property tax relief credit.

1. The owner of taxable property is entitled to a credit against property taxes levied against the total amount of property or mobile home taxes in dollars levied against the taxable value of the property. The credit is equal to twelve percent of property or mobile home taxes levied in dollars against that property.
2. The owner, operator, or lessee of railroad property assessed by the state board of equalization under chapter 57-05 or public utility operative property assessed by the state board of equalization under chapter 57-06 is entitled to a credit against property taxes levied within each county against that property in the amount provided in subsection 1 against property taxes levied in dollars against that property in that county.
3. The owner, operator, or lessee of operative property of an air carrier transportation company assessed and taxed under chapter 57-32 is entitled to a credit in the amount provided in subsection 1 against property taxes in dollars levied against that property. The tax commissioner shall determine the total amount of credits under this subsection and certify the amount to the state treasurer for transfer from the general fund to the air transportation fund. The credit for each air transportation company must be allocated to each city or municipal airport authority where that company makes regularly scheduled landings, in the same manner as the tax collected from that company is allocated.
4. The tax commissioner shall estimate the amount necessary to provide each county advance payment of seventy-five percent of the amount the county and the taxing districts in the county will ultimately receive for a taxable year under this section and certify the estimated amounts to the state treasurer by March fifteenth for transfer by April first to the county treasurer and distribution to the county and taxing districts in the county as provided in subsection 5.
5. The tax commissioner shall determine the total amount of credits under this section for each county from the abstract of the tax list filed by the county auditor under section 57-20-04, as audited and corrected by the tax commissioner. The tax commissioner shall certify to the state treasurer for payment, by June first following receipt of the abstract of the tax list, the amount determined for each county under this subsection. No penalty or interest applies to any state payment under this section, regardless of when the payment is made. The tax commissioner shall reduce the June certification of payments to reflect the April estimated payments previously made to counties under subsection 4.
6. Upon receipt of the payment from the state treasurer under subsections 4 and 5, the county treasurer shall apportion and distribute it to the county and the taxing districts in the county on the basis on which the general real estate tax for the preceding year is apportioned and distributed.
7. After payments to counties under subsection 5 have been made, the tax commissioner shall certify to the state treasurer as necessary any supplemental amounts payable to counties or the air transportation fund or any amounts that must be returned by counties or returned from the air transportation fund for deposit in the state general fund to correct any errors in payments or reflect any abatement or compromise of taxes, court-ordered tax reduction or increase, or levy of taxes against omitted property. The county auditor shall provide any supplemental information requested by the tax commissioner after submission of the abstract of the tax list. The county treasurer shall apply to the tax commissioner for any supplemental payments to which the county treasurer believes the county is entitled.

8. Notwithstanding any other provision of law, for any property other than mobile homes, the property tax credit under this section does not apply to any property subject to payments or taxes that are stated by law to be in lieu of personal or real property taxes.

SECTION 5. AMENDMENT. Section 57-20-09 of the North Dakota Century Code is amended and reenacted as follows:

57-20-09. Discount for early payment of tax.

Except as provided in section 57-20-21.1, the county treasurer shall allow a five percent discount to all taxpayers who shall pay all of the real estate taxes levied on any tract or parcel of real property in any one year in full on or before February fifteenth prior to the date of delinquency. Such discount applies, after deduction of any credit allowed under section 57-20-07.2, to the net remaining amount of all general real estate taxes levied for state, county, city, township, school district, fire district, park district, and any other taxing districts but does not apply to personal property taxes or special assessment installments. Whenever the board of county commissioners, by resolution, determines that an emergency exists in the county by virtue of weather or other catastrophe, it may extend the discount period for an additional thirty days.

SECTION 6. AMENDMENT. Section 57-20-21.1 of the North Dakota Century Code is amended and reenacted as follows:

57-20-21.1. Priority for delinquent taxes.

When payment is made for any real or personal property taxes or special assessments, payments must be applied first to the oldest unpaid delinquent taxes or special assessments due, if any, shown to exist upon the property for which the tax payments are made, including any penalty and interest, except payments of state-paid property tax relief credit made by the state must be applied to taxes for the year for which the state-paid property tax relief credit is granted. The discounts applicable to payment of taxes set out in section 57-20-09 do not apply to payment of taxes made on property upon which tax payments are delinquent.

SECTION 7. TAX COMMISSIONER REPORT ON ASSESSOR COMPLIANCE RULES. Before January 1, 2014, the tax commissioner shall report to the legislative management on the development of rules for detailed and efficient administration of section 57-01-05 regarding supervision of assessment officials.

SECTION 8. APPROPRIATION. There is appropriated out of any moneys in the general fund in the state treasury, not otherwise appropriated, the sum of \$200,000,000, or so much of the sum as may be necessary, to the state treasurer for the purpose of state-paid property tax relief credits under section 57-20-07.2, for the biennium beginning July 1, 2013, and ending June 30, 2015.

SECTION 9. LEGISLATIVE MANAGEMENT STUDY. The legislative management shall consider studying development of standard procedures and classification of accounts to provide a means of accumulating financial information that will be uniform for all counties, regardless of their size or various approaches to budgeting and accounting that may be in use, with the objective of achieving uniformity of financial information to guide preparation of financial reports required by law and preparation of management reports on county government performance. The legislative management shall report its findings and recommendations, together with any legislation required to implement the recommendations, to the sixty-fourth legislative assembly.

SECTION 10. LEGISLATIVE MANAGEMENT STUDY - CONTROLLING GROWTH OF PROPERTY TAX LEVIES. During the 2013-14 interim, the legislative management shall consider studying controlling the growth of property tax levies, with emphasis on consideration of the following:

1. In recent years, the legislative assembly has diverted an enormous amount of state funds to benefit political subdivisions and provide

property tax relief to taxpayers and an analysis should be made of whether the level of property tax relief received by taxpayers has been commensurate with the amount of state funds distributed.

2. The legislative assembly has provided for state assumption of funding for some social service functions previously funded by counties. Analysis is needed to determine the additional cost to the state of these functions in each county and compare that amount to the actual reduction in property taxes passed through to taxpayers in each county.
3. Consideration is needed of whether voter approval through referral or levy and budget restrictions should play a greater role in local taxing decisions.
4. Consideration is needed of the feasibility of establishing more restrictive statutory property tax limits to manage the growth of property taxes.

The legislative management shall report its findings and recommendations, together with any legislation required to implement the recommendations, to the sixty-fourth legislative assembly.

2. For purposes of this section:
 - a. "Base year" means the taxing district's taxable year with the highest amount levied in dollars in property taxes of the three taxable years immediately preceding the budget year. For a park district general fund, the "amount levied in dollars in property taxes" is the sum of amounts levied in dollars in property taxes for the general fund under section 57-15-12 including any additional levy approved by the electors, the insurance reserve fund under section 32-12.1-08, the employee health care program under section 40-49-12, the public recreation system under section 40-55-09 including any additional levy approved by the electors, forestry purposes under section 57-15-12.1 except any additional levy approved by the electors, pest control under section 4-33-11, and handicapped person programs and activities under section 57-15-60;

3. A taxing district may elect to levy the amount levied in dollars in the base year. Any levy under this section must be specifically approved by a resolution approved by the governing body of the taxing district. Before determining the levy limitation under this section, the dollar amount levied in the base year must be:
 - a. Reduced by an amount equal to the sum determined by application of the base year's calculated mill rate for that taxing district to the final base year taxable valuation of any taxable property and property exempt by local discretion or charitable status which is not included in the taxing district for the budget year but was included in the taxing district for the base year.

- b. - ~~e. Reduced for a school district determining its levy limitation under this section, by the amount the school district's mill levy reduction grant under section 57-64-02 for the budget year exceeds the amount of the school district's mill levy reduction grant under section 57-64-02 for the base year.~~

 - (1) The base year mill rate of the school district minus sixty mills;
or
 - (2) Fifty mills.
- 4. In addition to any other levy limitation factor under this section, a taxing district may increase its levy in dollars to reflect new or increased mill levies authorized by the legislative assembly or authorized by the electors of the taxing district.
- 5. Under this section a taxing district may supersede any applicable mill levy limitations otherwise provided by law, or a taxing district may levy up to the mill levy limitations otherwise provided by law without reference to this section, but the provisions of this section do not apply to the following:

~~Any school district which has heretofore by mistake, or for any other reason, considered all or any part of a special reserve fund, as provided for in chapter 57-19, in determining the budget for the school district which has deducted all or any part of the funds in such special reserve fund from the amount necessary to be levied for any school fiscal year, may transfer from the special reserve fund into the general fund all or any part of such amounts which have been so considered contrary to the provisions of section 57-19-05. Any school district special reserve fund and the tax levy therefor may be discontinued by a vote of sixty percent of the electors of the school district voting upon the question at any special or general election. Any moneys remaining unexpended in such special reserve fund must be transferred to the building or general fund of the school district. The discontinuance of a special reserve fund shall not decrease the school district tax levies otherwise provided for by law by more than twenty percent. That number, as determined by the superintendent of public instruction, must be multiplied by \$8,810.

REMARKS OF MAJORITY LEADER WARDNER

Thank you all for your dedicated work. You have been a part of making major investments in North Dakota. First I want to recognize the staff and your contribution to the legislative process that allowed the Senators to do their job. Second, I need to recognize the majority Caucus for their loyalty and drive to get the job done. Third, I want the minority caucus to know that they were a part of the successes of this session.

I am truly honored to be your leader, because you all have worked together as a team. We all worked together to improve the quality of life in our state. Our goals are the same it's just that we have different ways to get to the goals. The state has been blessed with natural assets that have given us the ability to meet the needs of North Dakota.

There is no question that this legislature has invested major dollars into the state this session. Education, tax relief (property and income), energy impacts in oil country, water projects, flood control, road construction and Human Services. A large amount being one time spending.

There are 141 Legislators all with different ideas, therefore, the ability to compromise is an important part of the legislative process It is not always just the way we would like the end solution. We have all experienced defeats and triumphs, however, in the end it worked out.

As you leave, have a safe trip home. I believe you can feel good about your

accomplishments.

Thank you and God Bless You!

REMARKS OF MINORITY LEADER SCHNEIDER

Mr. President, this is the time in the session where the policy debates have concluded, the conference committees have adjourned, and legislators are ready to return to the four corners of this great state. Before we head home to our communities and our families, however, a few words of thanks are in order for the hard work and dedication you have shown throughout the 63rd Legislative Session.

Let's start with the man who literally rises above it all, Senate President Drew Wrigley. Seven years ago at about exactly this time of year, I was beginning the first job I ever had in the law as an intern with the United States Attorney's office in Fargo. I will never forget the kindness that our president showed me that summer, and it has been very special to come to work every day with my friend, our presiding officer, and get called out of order by him on a fairly routine basis.

Next, I would like to thank our caucus staff, Kathy Wachter, Shane Zahrt, Alison Kelly, Jared Pfliger and Wanda Baar-Hoechst. They are consummate professionals who have made our voices a little bit louder, our workload a lot lighter, and our days here in the capitol much more enjoyable. I would also like to thank all of the staff who help us here in the Senate. We literally could not do this without you.

You may have also noticed that we have a young intern helping us out in the office on occasion. Her name is Merritt, she's about 2 foot 6 inches tall, and at this stage in her life, still shares her father's hairline. The last four months have been just a legislative session to us, but to Merritt, that's more than a third of her life. I am so thankful for my supportive and thoroughly awesome wife, Crystal, who made arrangements for us to be together as a family in Bismarck this session.

Turning now to my family here in the chamber, I want to thank our assistant leader, Senator Joan Heckaman, for her service this session. As all of you know, Senator Heckaman goes about her work in a no-nonsense way with a humble intelligence and unwavering dedication to the people she serves. Having Senator Heckaman as our assistant leader and a friend has made this job a lot easier and way more fun.

Working my way down the row, I also want to praise the efforts of our caucus chair, Senator John Warner. Senator Warner is a deep-thinking and deeply-committed public servant. The term "Renaissance Man" aptly describes him. I thank him for his hard work this session.

While I could talk without end about every member of the Dem-NPL caucus, for the sake of time I'll simply say that you make me so proud. The ancient Spartans, when they were outnumbered, were said to ask about their opponents, "Not how many, but where?" That has been the approach of the Dem-NPL caucus this session: Where? Where can we make the most difference? Where can we work with the majority to address areas of common concern? Where can we push to improve the lives of North Dakotans now and into the future? This approach has led to success on important priorities like addressing the challenges in western North Dakota, ensuring a lasting harvest of our oil resources, and increasing educational opportunities for our kids. You should all be proud, as I am, of the way you have fought for children, the disabled, the elderly, and others who don't always have lobbyists pacing the halls of the capitol on their behalf. Allowing me to serve as caucus leader has been a high personal privilege and honor.

I am also thankful for my friends in the majority and appreciate the hard work all of you have put in over the course of the session. I am often asked what it is like working with my friend, the majority leader. And I will now tell the body what I have told many over the course of the last several months: That the majority leader is a thoroughly decent person. That his instinct is to treat people fairly. That he clearly loves this state and wants to help make North Dakota a better place.

While we are from different generations and different parts of the state, we do have much in common. For instance, we have way better parking spots than most of you. But beyond that, we both understand that aggressive, but fair, competition makes everyone better and that even the most intense competition should end in a handshake. I have greatly enjoyed

working with the majority leader over the course of the last four months, and I know we will continue our productive working relationship -- and friendship -- in the years ahead.

Mr. President, we've debated our priorities over the course of the last several months. We've agreed on much, and we've disagreed as well. But now isn't the day to revisit those debates, as important as they were. Now, you should feel proud of your service. For every single member of this body, I can think of several instances in which I have been moved by your words during debate or impressed by your actions as legislators. It is a privilege to serve with you.

So before we head home, I will leave you with a quote from everybody's favorite Republican, Teddy Roosevelt. "Far and away the best prize that life has to offer is the chance to work hard at work worth doing."

I know I speak for all of us when I say this work is worth doing. And the chance to work hard in these chambers on behalf of this state we call home is an absolute honor.

THE SENATE RECOGNIZED THE PRESENCE OF:

Governor Jack Dalrymple

REMARKS OF PRESIDENT OF THE SENATE PRESIDENT WRIGLEY

Members of the Senate, Senate Staff, and interested parties who come here to observe the fact that the President sometimes falls short of Papal infallibility.

I rise to pay personal and professional respect to the Senate, and to thank you for your many courtesies across the 80 days of the 63rd Legislative Session. Speaking of courtesy, thank you to those of you who periodically tried to promote me this session, replacing the "Mr. President" title with the loftier "Mr. Chairman". But nothing quite equaled being addressed as "Mr. Krebsbach". I thank the Senator from Minot's District 40.

Our heartfelt thanks to the Senate desk staff and the entire staff of the Senate and her committees. Thanks to the Minority office staff and the Majority office staff. You are patient and caring people. And you feed us! Special thanks to Mr. Joe Wolf. I wonder whether you all know how many times a presiding officer nearly heads off the procedural cliff, only to be grasped at the precipice by Joe. Thanks Joe....see you in two years, right?

I brought along this gavel, a fond reminder of my first Session, the 62nd of this Legislature. It was a gift from the Senate. Each Senator was kind enough to take the time to sign the gavel. Every member signed it.

That was a touching gesture by the Senate, even before any of us could have known that eight of your colleagues - my colleagues too - were not destined to return for the opening gavel of this 63rd Legislative Session.

For some (6), the winds of political change rolled in, while for two others, Senator Bob Stenehjem and Senator Tom Fisher, the seasons came to a close. All were colleagues here, they were personal friends, they were mentors, and we miss them.

All who served her before this session can join this Senate in smiling with approval, even if a bit wearily. The tax cuts were the largest in state history, as were the infrastructure investments, worthy of the nation's number one economy with a bright future. You passed impactful education funding, and water projects to protect our people and bring water to the citizens of a state in the midst of growth. And this: I applaud the Senate for your guts. No matter how you voted, you did not shy away from casting a vote on the central question of life. We should all defend any of our colleagues who have been sent here to debate, to listen, to persuade, and then to vote. We have each been true to our oath.

The future is never secured by mere laws, but our promise in North Dakota is unlimited, and this Senate can be proud of what has been achieved.

You have taken your place in history. By the time the first gavel drops on the 64th Legislative Session, North Dakota will have celebrated her 125th birthday. Five hundred seasons for a people who love our land, love the unlimited potential of our natural wonder, value one another deeply, and look to the horizons continually. It is an honor to serve with each and

every member of this body, and I want to convey how deeply I appreciate these friendships.

As we bring the 63rd Legislative Session to a close, may God continue to richly bless the United States of America, this esteemed State Senate, and our beloved North Dakota, the greatest state, in the finest nation on the face of Earth.
