**Special Legislative Session Address  
The Honorable Jack Dalrymple  
Governor of the State of North Dakota  
Bismarck, North Dakota  
Aug. 2, 2016**

Distinguished legislators, elected officials, First Lady Betsy, and fellow citizens of North Dakota – welcome and thank you for being here today.

It's always good to have our legislators in the Capitol, but I think we would all have preferred not to be here in August. However, our state constitution prohibits deficit spending, and unlike the federal government, we will not allow a potential deficit to develop during the biennium.

I appreciate the opportunity to welcome you back and to explain firsthand why I have called you to convene this special session.

First the bad news: the state has completed a revised revenue forecast and the bottom line is that our revenues will be \$309.5 million below the previous forecast. This is in spite of the fact that we already made up a revenue shortfall in February by ordering a 4.05 percent allotment of General Fund appropriations and by authorizing the transfer of \$497 million, as needed, from the Budget Stabilization Fund. One would have hoped that the February adjustments would take care of the problem, but the continuation of weak sales tax receipts, especially in Western North Dakota, has produced a revised forecast that calls for still further adjustments.

Yesterday, I ordered a 2.5 percent allotment among General Fund agencies, the first step in our integrated plan to resolve the shortfall and balance the budget on June 30, 2017. The main benefit of the allotment process is that it provides me with the authority to access the Foundation Aid Stabilization Fund, which we intend to utilize to restore what would have been a \$44 million reduction in K-12 school funding.

By law any allotment ordered by the Governor must be made in an across-the-board fashion, agency by agency. I made the decision in February that the 4.05 percent allotment was the maximum amount we could reasonably require without serious adverse consequences to certain agencies, like the Dept. of Human Services. Although painful, these reductions were handled well by our agency directors and the impacts on people's lives were minimized. In many cases, projects or new programs authorized last year were simply postponed and generally, existing core services have been continued.

In the situation we are facing today one option would have been to enact another sizeable allotment to reduce spending by the necessary amount. However, I decided we had reached the limit of what reductions were feasible using an across-the-board method. It simply was not prudent to make further reductions in the Department of Human Services because important services for the needy would be impacted. Therefore, I have called for your assistance to craft a combination of targeted funding restorations in key areas and making available the contingency funds necessary to remedy the shortfall.

I am fully in support of a bill that will be introduced to the Delayed Bills Committee this morning. The bill calls for a 2 ½ percent reduction in spending for General Fund agencies, except for the Dept. of Human Services which will receive no further reduction and the Dept. of Corrections and Rehabilitation, which will be required to make a 1 percent reduction. The 2 ½ percent reduction in Foundation Aid is already being covered by an automatic transfer from the Foundation Aid Stabilization Fund. The bill also calls for a contingency transfer of surplus capital from the Bank of North Dakota of up to \$100 million, as well as affirming the availability of \$75 million remaining in the Budget Stabilization Fund.

The bill also contains a statement of legislative intent that, if additional revenues become available prior to the next regular session, the 65<sup>th</sup> Legislative Assembly should consider early in the session the restoration of funds that support behavioral health services, autism and long-term care.

Our economic output is indeed down from last year, but only after several consecutive years of being the nation's top performing economy. We have diversified our state economy tremendously over the last 15 years, and many parts of our economy are still growing very nicely. Job openings are still available across North Dakota, and our unemployment rate remains low.

We all knew the day would eventually come when the markets for crude oil and farm commodities would take a turn for the worse, and that these downturns would also impact our tax receipts.

Of course, there are always the Monday morning quarterbacks who say they knew when the price of oil would go down and what the price of wheat would do. At the same time, many of you will remember being told that we should spend more even if it meant tapping into our reserves, because we were hoarding too much money in the Capitol.

Obviously there is always a balance between too much optimism and too much caution. The good news is that our Legislature had the foresight to set aside strong reserves, which will be used for the exact purpose for which they were intended.

Looking ahead, we know that the 2017-19 budget will be extremely tight because we will be, for the time being, using a forecast that is very close to a worst case scenario. We know our state economy will improve as commodities cycle back up again, and as our economy grows we will be able to once again build up budget reserves. But for now, belt tightening is the order of the day and I know the people of North Dakota will be supportive of the adjustments you make in this special session.

Thank you for your service and best wishes for a successful and expeditious special session.

#### **MOTION**

**REP. VIGESAA MOVED** that the Joint Session be dissolved, which motion prevailed.

**SPEAKER BELTER ANNOUNCED** that the House would stand in recess until 11:00 a.m.

**THE HOUSE RECONVENED** with Speaker Belter presiding.
