PROPOSED AMENDMENTS TO SENATE BILL NO. 2364

Page 1, line 1, replace the first "subsection" with "subsections 1 and"

Page 1, line 1, replace the second "subsection" with "subsections 1 and"

Page 1, after line 6 insert:

"SECTION 1. AMENDMENT. Subsection 1 of section 54-59-25 of the North Dakota Century Code is amended and reenacted as follows:

1. The health information technology advisory committee consists of the state chief information officer or the chief information officer's designee, the state health officer or the state health officer's designee, the governor or the governor's designee, the executive director of the department of human services or the executive director's designee, the chairman of the house human services committee and the chairman of the senate human services committee or if either or both of them are unwilling or unable to serve then the chairman of the legislative management shall appoint a replacement who is a member of the same legislative chamber as the individual being replaced, and individuals appointed by the governor to represent a broad range of public and private health information technology stakeholders. A committee member who is not an ex officio member, designee of an ex officio member, state employee, or legislator is entitled to mileage and expenses as provided by law for state officers and employees, to be paid by the health information technology office. A committee member who is an ex officio member, designee of an ex officio member, state employee, or legislator is entitled to receive that member's regular salary and receive mileage and expenses, to be paid by the employing agency."

Page 1, after line 11, insert:

"SECTION 3. AMENDMENT. Subsection 1 of section 54-59-26 of the North Dakota Century Code is amended and reenacted as follows:

1. The health information technology office is created in the department. The health information technology advisory committee shall make recommendations to the health information technology office for implementing ~~a statewide~~ interoperable health information infrastructure that is consistent with emerging national standards; promote the adoption and use of electronic health records and other health information technologies; and promote interoperability of health information systems for the purpose of improving health care quality, patient safety, and the overall efficiency of health care and public health services."

Renumber accordingly
