- B. **Fiscal impact sections:** *Identify and provide a brief description of the sections of the measure which have fiscal impact. Include any assumptions and comments relevant to the analysis.*

17-10-04 establishes the Oil and Gas Development Strategic Planning Authority Administrative Fund which will have a continuing appropriation. One source of funding for this new Administrative Fund will be the Oil and Gas Research Fund. The funding for the staffing of this new Authority will come from the Oil and Gas Research Fund.

3. **State fiscal effect detail:** *For information shown under state fiscal effect in 1A, please:*

- A. **Revenues:** *Explain the revenue amounts. Provide detail, when appropriate, for each revenue type and fund affected and any amounts included in the executive budget.*

Revenues for the newly created Oil and Gas Development Strategic Planning Authority will come from other funds including but not limited to the Oil and Gas Research Fund. Since the revenues come from another special fund the net result is zero for revenues.

- B. **Expenditures:** *Explain the expenditure amounts. Provide detail, when appropriate, for each agency, line item, and fund affected and the number of FTE positions affected.*

It is estimated that the costs for this new authority would be approximately \$300,000 a biennium. This amount is based on the costs that are currently being expended by the Industrial Commission through the Oil and Gas Research Fund for contracted labor under another authority overseen by the Commission. This cost would cover the staffing and expenses for the staff to travel for meetings or host meetings with political subdivisions. In addition there will be costs for distributing the plan either electronically or by hard copy.

- C. **Appropriations:** *Explain the appropriation amounts. Provide detail, when appropriate, for each agency and fund affected. Explain the relationship between the amounts shown for expenditures and appropriations. Indicate whether the appropriation or a part of the appropriation is included in the executive budget or relates to a continuing appropriation.*

The Oil and Gas Development Strategic Planning Authority Administrative Fund is being established as a continuing appropriation. It is anticipated that the costs for the first biennium will be \$300,000 and the monies would come from the Oil and Gas Research Fund. These costs would be for retaining a consultant/staff to develop and maintain the plan and for expenses that would be necessary to have meetings and facilitate discussions between political subdivisions. In addition there will be costs for distributing the plan either electronically or by hard copy.
