There is appropriated out of any moneys in the strategic investment and improvements fund in the state treasury, not otherwise appropriated, the sum of \$352,000,000, or so much of the sum as may be necessary, to the department of transportation for the purpose of distributions to counties for road and bridge infrastructure needs, for the period beginning with the effective date of this Act, and ending June 30, 2017.

1. The department of transportation shall distribute \$240,000,000 to oil-producing counties based on the most recent data compiled by the upper great plains transportation institute regarding North Dakota's county, township, and tribal road and bridge infrastructure needs. The distribution to each oil-producing county must be proportional to each oil-producing county's total estimated road and bridge investment needs for the years 2015 to 2034, identified by the upper great plains transportation institute relative to the combined total estimated road and bridge investment needs for the years 2015 to 2034, identified by the upper great plains transportation institute of all the eligible oil-producing counties under this subsection. Each county's total estimated road and bridge investment needs include unpaved and paved road and bridge needs. For purposes of this section, "oil-producing counties" means the ten counties that received the highest total allocations under subsection 2 of section 57-51-15 for the period beginning September 1, 2013, and ending August 31, 2014.
2. The department of transportation shall distribute \$112,000,000 to non-oil-producing counties based on county major collector roadway miles, as defined by the department of transportation. The distribution to each non-oil-producing county must be proportional to each non-oil-producing county's total county major collector roadway miles relative to the combined total of county major collector roadway miles of all the eligible non-oil-producing counties under this subsection. For purposes of this section, "non-oil-producing counties" means the forty-three counties that received no allocation of funding or a total allocation under subsection 2 of section 57-51-15 of less than \$5,000,000 for the period beginning September 1, 2013, and ending August 31, 2014.
3. a. Each county requesting funding under this section for county road and bridge projects shall submit the request in accordance with criteria developed by the department of transportation. For oil-producing counties, the request must include a proposed plan for funding projects that rehabilitate or reconstruct paved and unpaved roads and bridges within the county which are needed to support oil and gas production and distribution in the state. For non-oil-producing counties, the request must include a proposed plan for funding projects that rehabilitate or reconstruct paved and unpaved roads and bridges within the county which are needed to

support economic activity in the state. The plan must meet the following criteria:

- (1) Roadways and bridges must provide continuity and connectivity to efficiently integrate and improve major paved and unpaved corridors within the county and across county borders.
 - (2) Projects must be consistent with the upper great plains transportation institute's estimated road and bridge investment needs for the years 2015 to 2034 and other planning studies.
 - (3) Upon completion of a major roadway construction or reconstruction project, the roadway segment must be posted at a legal load limit of 105,500 pounds [47853.995 kilograms].
 - (4) Design speed on the roadway must be at least 55 miles per hour [88.51 kilometers per hour], unless the department of transportation provides an exemption.
 - (5) Projects must comply with the American association of state highway transportation officials pavement design procedures and standards developed by the department of transportation in conjunction with the local jurisdiction.
 - (6) Bridges must be designed to meet an HL 93 loading.
- b. The department of transportation, in consultation with the county, may approve the plan or approve the plan with amendments. Upon approval of the plan, the department of transportation shall transfer to the county the approved funding for engineering and plan development costs. Upon execution of a construction contract by the county, the department of transportation shall transfer to the county the approved funding for county and township rehabilitation and reconstruction projects. Counties shall report to the department of transportation upon awarding of each contract and upon completion of each project in a manner prescribed by the department.
- c. Funding provided under this section may be used for construction, engineering, and plan development costs, but may not be used for routine maintenance. Funding provided under this section may be applied to engineering, design, and construction costs incurred on related projects as of January 1, 2015. Section 54-44.1-11 does not apply to funding under this section. Any funds not spent by June 30, 2017, must be continued into the biennium beginning July 1, 2017, and ending June 30, 2019, and may be expended only for the purposes authorized by this section. The funding provided in this section is considered a one-time funding item.
4. The department of transportation shall report to the budget section and to the appropriations committees of the sixty-fifth legislative assembly on the use of this one-time funding, including the amounts distributed to each county, the amounts spent to date, and the amounts anticipated to be continued into the 2017-19 biennium."
