"SECTION 3. AMENDMENT. Subsection 3 of section 50-24.4-06 of the North Dakota Century Code is amended and reenacted as follows:

3. For purposes of determining rates, the department shall:
 - a. Include, contingent upon approval of the medicaid state plan by the centers for medicare and medicaid services, allowable bad debt expenses in an amount not to exceed one hundred eighty days of resident care per year or an aggregate of three hundred sixty days of resident care for any one individual; and
 - b. Include allowable bad debt expenses in the property indirect care cost category in the report year in which the bad debt is determined to be uncollectible with no likelihood of future recovery.
 - c. Notwithstanding section 50-24.4-07, include as an allowable cost any tax paid by a basic care or nursing facility due to provisions of the federal Patient Protection and Affordable Care Act [Pub. L. 111-148], as amended by the Health Care and Education Reconciliation Act of 2010 [Pub. L. 111-152].

SECTION 4. AMENDMENT. Subsection 6 of section 50-24.4-07 of the North Dakota Century Code is amended and reenacted as follows:

6. The facility shall report the education expense separately on the facility's cost report. The expense is allowed as a passthrough in the indirect care cost category and is limited only by the fifteen thousand dollar maximum per individual.

SECTION 5. AMENDMENT. Section 50-24.4-10 of the North Dakota Century Code is amended and reenacted as follows:

50-24.4-10. Operating costs.

1. The department shall establish procedures for determining per diem reimbursement for operating costs.
2. The department shall analyze and evaluate each nursing home's cost report of allowable operating costs incurred by the nursing home during the reporting year immediately preceding the rate year for which the payment rate becomes effective.
3. The department shall establish limits on actual allowable historical operating cost per diems based on cost reports of allowable operating costs taking into consideration relevant factors including resident needs, nursing hours necessary to meet resident needs, size of the nursing home, and the costs that must be incurred for the care of residents in an efficiently and economically operated nursing home. For the rate year beginning 2006, the department shall establish limits for cost categories using the June 30, 2003, cost report year as the base period. The limits may not fall below the median of the most recent cost report. Until a new base period is established, the department shall adjust the limits annually by the inflation rate for nursing home services used to develop the legislative appropriation for the department. In determining allowable historical operating cost per diems for purposes of setting limits and nursing home payment rates, the department shall divide the allowable historical operating costs by the actual number of resident days, except that when a nursing home is occupied at less than ninety percent of licensed capacity days, the department may establish procedures to adjust the computation of the indirect care cost per diem to an imputed occupancy level at or below ninety percent. To encourage the development of home and community-based services as an alternative to nursing home care, the department may waive the imputed occupancy level requirements for a nursing home that the department determines to be providing significant home and community-based services in coordination with home and community-based service providers to avoid duplicating existing services. The department shall establish efficiency incentives for indirect care costs. The department may establish efficiency incentives for different operating cost categories. The department shall consider establishing efficiency incentives in care-related cost categories.
4. Each nursing home shall receive an operating cost payment rate equal to the sum of the nursing home's operating cost payment rates for each operating cost category. The operating cost payment rate for an operating cost category must be the lesser of the nursing home's historical operating cost in the category increased by the inflation rate for nursing home services used to develop the legislative appropriation for the department for the operating cost category plus an efficiency incentive established pursuant to subsection 3 or the limit for the operating cost category increased by the same inflation rate. If a nursing home's actual historic operating costs are greater than the prospective payment rate for that rate year, there may be no retroactive cost settle-up. In establishing payment rates for one or more operating cost categories, the department may establish separate rates for different classes of residents based on their relative care needs.

5. ~~The efficiency incentives to be established by the department, pursuant to subsection 3 for a facility with an actual rate below the limit rate for, shall establish an indirect care costs must include the lesser of two dollars and sixty cents per resident day or the amount determined by multiplying seventy percent times the difference between the actual rate, exclusive of inflation rates, and the limit rate, exclusive of current inflation rates~~cost category incentive for a nursing home with an actual indirect care cost rate below the limit rate for indirect care costs, within the limits of legislative appropriations. The efficiency incentive must be included as a part of the indirect care cost rate, and calculated as follows:
 - a. The base year for each nursing home's indirect care limit rate is the 2016 reporting year;
 - b. Annually, the base year limit must be adjusted by the inflation rate for nursing home services used to develop the legislative appropriation for the department; and
 - c. The incentive is equal to half of the difference between the nursing home's indirect care limit rate and the nursing home's actual indirect care cost per diem that is under the nursing home's limit rate.
6. Each nursing home must receive an operating margin of at least three percent based upon the lesser of the actual ~~direct care and other direct care costs~~ and the limit rate prior to inflation. The operating margin will then be added to the rate for ~~direct care and other direct care cost categories~~category.
7. ~~A~~Except as provided in subsections 5 and 8, a new base period must be established at least every four years beginning with the cost report period June 30, 2006.
8. The department, pursuant to subsection 3, shall establish a direct care cost category incentive based on nursing salaries and benefits and contract nursing staffing costs within the direct care cost category for a nursing home with an actual rate below the limit rate for direct care costs, within the limits of legislative appropriations, and calculated as follows:
 - a. The base year for each nursing home's staffing limit rate is the 2016 reporting year;
 - b. Annually, the base year limit must be adjusted by the inflation rate for nursing home services used to develop the legislative appropriation for the department;
 - c. The incentive is equal to half of the difference between the nursing home's staffing limit rate and the nursing home's actual staffing rate that is under the nursing home's limit rate; and
 - d. The direct care operating margin will be added to the direct care cost category rate.
9. The department, pursuant to subsection 3, shall establish a direct care operating margin incentive of three and one-half percent for nursing homes that are under the direct care limit before inflation. The direct care operating margin will be added to the direct care cost category rate.

SECTION 6. A new subsection to section 50-24.4-15 of the North Dakota Century Code is created and enacted as follows:

For rate years beginning after December 31, 2017, the limitation on actual allowable historical property costs per diem is sixty dollars for a nursing home licensed before July 1, 2017. The limitation on actual allowable historical property costs per diem is forty dollars for a nursing home first licensed after June 30, 2017. Annually, the department shall

adjust the limits by the inflation rate for nursing home services used to develop the legislative appropriation for the department.

SECTION 7. AMENDMENT. Subsection 1 of section 50-24.4-19 of the North Dakota Century Code is amended and reenacted as follows:

1. Charging private-paying residents rates for similar services which exceed those rates which are approved by the department for medical assistance recipients, as determined by the prospective desk audit rate, except under the following circumstances: the nursing home may charge private-paying residents a property rate that does not exceed the actual allowable historical property costs less the property costs reimbursable under section 6 of this Act; and the nursing home may charge private-paying residents a higher rate for a private room and charge for special services which are not included in the daily rate if medical assistance residents are charged separately at the same rate for the same services in addition to the daily rate paid by the department of human services. Services covered by the payment rate must be the same regardless of payment source. Special services, if offered, must be offered to all residents and charged separately at the same rate. Residents are free to select or decline special services. Special services must not include services which must be provided by the nursing home in order to comply with licensure or certification standards and that if not provided would result in a deficiency or violation by the nursing home. Services beyond those required to comply with licensure or certification standards must not be charged separately as a special service if they were included in the payment rate for the previous reporting year. A nursing home that charges a private-paying resident a rate in violation of this chapter is subject to an action by the state or any of its subdivisions or agencies for civil damages. A private-paying resident or the resident's legal representative has a cause of action for civil damages against a nursing home that charges the resident rates in violation of this chapter. The damages awarded shall include three times the payments that result from the violation, together with costs and disbursements, including reasonable attorney's fees or their equivalent."

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 40-63-02 of the North Dakota Century Code is amended and reenacted as follows:

40-63-02. Eligibility - Local zone authority designation.

Any incorporated city may apply to the department of commerce division of community services to designate a portion of the city as a renaissance zone. Any individual, partnership, limited partnership, limited liability company, trust, or corporation may apply for a ~~tax credit or exemption under sections 40-63-04 through 40-63-07~~ tax benefits under this chapter. The governing body of a city may designate a local zone authority to implement a development plan on behalf of the city.

SECTION 2. AMENDMENT. Section 40-63-03 of the North Dakota Century Code is amended and reenacted as follows:

40-63-03. Renaissance zones.

1. A city may apply to the department of commerce division of community services to designate a portion of that city as a renaissance zone if the following criteria are met:
 - a. The geographic area proposed for the renaissance zone is located wholly within the boundaries of the city submitting the application.
 - b. The application includes a development plan.
 - c. The proposed renaissance zone is not more than thirty-four square blocks, except in a city with a population of greater than five thousand the renaissance zone may exceed thirty-four square blocks at the rate of one additional block for each additional five thousand population to a maximum size of forty-nine blocks. Population is based upon the most recent federal decennial census or federal census estimate.

If a city finds that renaissance zone projects have satisfactorily completed one or more blocks within the renaissance zone, the city may apply for and the department of commerce division of community services may approve withdrawal of those blocks from the renaissance zone and replacement of those blocks with other blocks that otherwise meet the requirements of this chapter.

- d. Except as provided under subdivision g, the proposed renaissance zone has a continuous boundary and all blocks are contiguous.
 - e. The proposed land usage includes both commercial and residential property.
 - f. The application includes the proposed duration of renaissance zone status, not to exceed fifteen years. Upon application by the city, the department of commerce division of community services may extend the duration of renaissance zone status in increments of up to five years.
 - g. The proposed renaissance zone may have a single exception to the continuous boundary and contiguous block requirements under subdivision d if the area of the excepted noncontiguous blocks does not exceed three square blocks.

 - d. Promote the renaissance zone program.
 - e. Monitor the progress of the designated renaissance zones against submitted plans in an annual plan review.
 - f. Report on renaissance zone progress to the governor and the legislative management on an annual basis until all designated zones expire.
3. The department of commerce division of community services shall consider the following criteria in designating a renaissance zone:
- a. The viability of the development plan.
 - b. The incorporation and enhancement of unique natural and historic features into the development plan.
 - c. Whether the development plan is creative and innovative in comparison to other applications.
 - d. Public and private commitment to and other resources available for the proposed renaissance zone, including the provisions for a renaissance fund organization.
 - e. How renaissance zone designation would relate to a broader plan for the community as a whole.
 - f. How the local regulatory burden, in particular that burden associated with the renovation of historic properties and that burden associated with mixed use development, will be eased for developers and investors in the renaissance zone.
 - g. The strategies for the promotion, development, and management of the zone, including the use of a local zone authority if designated.
 - h. Any other information required by the office.

4. The department of commerce division of community services may not designate a portion of a city as a renaissance zone unless, as a part of the application, the city provides a resolution from the governing body of the city that states if the renaissance zone designation is granted, persons and property within the renaissance zone are exempt from taxes as provided in sections ~~40-63-04 through 40-63-07~~ this chapter.
5. A city may not propose or be part of more than one renaissance zone.
6. ~~A parcel of property may be exempted from property taxes under section 40-63-05 only once, but during the five taxable years of eligibility for that exemption, the property tax exemption transfers with the transfer of the property to a qualifying user. The ownership or lease of, or investment in, a parcel of property may qualify for exemption or credit under section 40-63-04 only once, but during the five taxable years of eligibility for that exemption or credit, the exemption or credit under section 40-63-04 transfers with the transfer of the property to a qualified user and with respect to the year in which the transfer is made must be prorated for use of the property during that year.~~
- ~~7.~~ A city may apply to the department of commerce division of community services at any time during the duration of a zone to expand a previously approved renaissance zone that is less than the maximum size allowed under subdivision c of subsection 1. If the expansion is approved by the department of commerce division of community services, the blocks in the expansion are eligible for up to fifteen years of renaissance zone status.
- ~~8-7.~~ The use of grant funds as the sole source of investment in the purchase of a building or space in a building does not qualify a taxpayer for any tax exemption or credit available under the chapter, and grant funds may not be counted in determining if the cost of rehabilitation meets or exceeds the current true and full value of the building.
- ~~9-8.~~ If a portion of an approved renaissance zone is not progressing, the city may request the department of commerce division of community services to permit deleting that portion and to make an adjustment of the boundaries to add another equal, contiguous area to the original zone.
- ~~10-9.~~ If within a renaissance zone there is property that is included in a tax increment financing district, the city in which the property is located shall provide the department of commerce an annual report regarding any such property at the time requested by the department of commerce. The report required under this subsection must identify the property, provide the expected duration of inclusion of the property in the tax increment financing district and the renaissance zone, and identify any property and income tax benefits of the property and the expected duration of those benefits. The department of commerce shall deliver an annual report compiling the information required under this subsection to the legislative management interim committee on taxation issues or upon request of any other interim committee of the legislative management.

SECTION 3. AMENDMENT. Section 40-63-04 of the North Dakota Century Code is amended and reenacted as follows:

40-63-04. (Effective for the first five taxable years beginning after December 31, 2017) Income tax exemptions.

1. An individual taxpayer who purchases or rehabilitates single-family residential property for the individual's primary place of residence as a zone project before January 1, 2018, is exempt from up to ten thousand dollars of personal income tax liability as determined under section 57-38-30.3 for five taxable years beginning with the date of occupancy or completion of rehabilitation.

2. A taxpayer that purchases, leases, rehabilitates, or makes leasehold improvements to residential, public utility infrastructure, or commercial property for any business or investment purpose as a zone project before January 1, 2018, is exempt from tax on income derived from the business or investment locations within the zone for five taxable years, beginning with the date of purchase, lease, or completion of rehabilitation.
 - a. The maximum amount of income that a taxpayer may exempt from tax under this subsection for any taxable year is five hundred thousand dollars. The limitation in this subdivision applies to the sum of the exempt income derived from the taxpayer's business and investment interests in all zone projects.
 - b. If a zone project consists of a physical expansion of an existing building owned and used by the taxpayer for business or investment purposes, the amount of income exempt from tax under this subsection is limited to an amount equal to the income derived from the business, or from the investment use of the building, during the taxable year multiplied by a ratio equal to the square footage added by the expansion divided by the total square footage of the building after expansion.
3. If the cost of a new business purchase, leasehold improvement, or expansion of an existing business, approved as a zone project, exceeds seventy-five thousand dollars, and the business is located in a city with a population of not more than two thousand five hundred, an individual taxpayer may, in lieu of the exemption provided in subsection 2, elect to take an income tax exemption of up to two thousand dollars of individual income tax liability as determined under section 57-38-30.3. The election must be made on the taxpayer's return as originally and timely filed. The election is irrevocable and binding for the duration of the exemptions provided in subsection 2 or this subsection. If an election is not made on the original return, the taxpayer is only eligible for the exemption provided in subsection 2.
4. If a property owner not participating in a renaissance zone project is required to make changes in utility services or in a building structure before January 1, 2018, because of changes made to property that is part of a zone project, the owner of the nonparticipating property is entitled to state income tax credits equal to the total amount of the investment necessary to complete the required changes. The credit must be approved by the local renaissance zone authority. The credit must be claimed in the taxable year in which the related project was completed. The credit may not exceed the taxpayer's tax liability, and an unused credit may be carried forward up to five taxable years.
5. The ownership or lease of, or investment in, a parcel of property may qualify for an exemption or credit under this section only once, but during the five taxable years of eligibility for that exemption or credit, the exemption or credit under this section transfers with the transfer of the property to a qualified user and with respect to the year in which the transfer is made must be prorated for use of the property during that year.
6. The exemptions provided by this section do not eliminate any duty to file a return or to report income as required under chapter 57-38.

57-15-02.2. Limitation on levies by taxing districts without voter approval.

1. Notwithstanding that a taxing district may have unused or excess levy authority under any other provision of law, this section supersedes and limits that authority. For purposes of this section, "taxing district" means any political subdivision empowered to levy taxes. This section may not be interpreted as authority to increase any property tax levy authority

otherwise provided by law and must be applied to limit any property tax levy authority to which a taxing district may otherwise be entitled. Property taxes levied in dollars by a taxing district may not exceed the amount the taxing district levied in dollars in the preceding taxable year by more than three percent, except:

- a. When property and improvements to property which were not taxable in the preceding taxable year are taxable in the current year, the amount levied in dollars in the preceding taxable year by the taxing district must be increased for purposes of this section to reflect the taxes that would have been imposed against the additional taxable valuation attributable to that property at the mill rate applied to all property in the preceding taxable year.
 - b. When a property tax exemption existed in the preceding taxable year which has been reduced or no longer exists for the current taxable year, the amount levied in dollars in the preceding taxable year by the taxing district must be increased for purposes of this section to reflect the taxes that would have been imposed against the portion of the taxable valuation of the property which is no longer exempt at the mill rate applied to all property in the preceding taxable year.
 - c. When property that was taxable in the preceding taxable year is not taxable for the current taxable year, the amount levied in dollars in the preceding taxable year by the taxing district must be reduced for purposes of this section by the amount of taxes that were imposed against the taxable valuation of that property in the preceding taxable year.
 - d. When a temporary mill levy increase, excluding an increase under this section, authorized by the electors of the taxing district or mill levy imposition authority under state law existed in the previous taxable year but is no longer applicable or has been reduced, the amount levied in dollars in the previous taxable year by the taxing district must be adjusted to reflect the expired temporary mill levy increase and the eliminated or reduced mill levy under state law before the percentage increase allowable under this subsection is applied.
2. The limitation on the total amount levied by a taxing district under subsection 1 does not apply to:
 - a. New or increased property tax levy authority that was not available to the taxing district in the preceding taxable year, including property tax levy authority provided by state law or approved by the electors of the taxing district.
 - b. Any irrepealable tax to pay bonded indebtedness levied under section 16 of article X of the Constitution of North Dakota. Any tax levied for this purpose must be excluded from the mill rate applied under subdivisions a through c of subsection 1.
 - c. The one-mill levy for the state medical center authorized by section 10 of article X of the Constitution of North Dakota. Any tax levied for this purpose must be excluded from the mill rate applied under subdivisions a through c of subsection 1.
3. A levy exceeding the percentage increase limitation under subsection 1 may be imposed upon approval of a ballot measure, stating the percentage of the proposed property tax levy increase percentage compared to the percentage limitation under subsection 1, by a majority of the qualified electors of the taxing district voting on the question at a regular or special election of the taxing district. A levy exceeding the percentage increase limitation under subsection 1 may be approved by electors for not more than one taxable year at a time.

4. A city or county may not supersede or modify the application of the provisions of this section under home rule authority."
