15      b.   If the recalculated formula payment results in an increase of five percent or less  
16      as compared to the formula payment determined under subsection 1, the director  
17      shall distribute fifty percent of the amount of each service area's formula payment  
18      determined under subsection 1, within the limits of legislative appropriation, on or  
19      before June fifteenth.

20      c.   If the recalculated formula payment results in an increase of more than five  
21      percent as compared to the formula payment determined under subsection 1, the  
22      director shall calculate the remainder of each service area's formula payment by  
23      subtracting the amount distributed under subsection 2 from the amount  
24      determined under subdivision a. The director shall distribute the remainder of  
25      each service area's formula payment, within the limits of legislative appropriation,  
26      on or before June fifteenth.

27     4.   For payments disbursed after calendar year 2018, the director shall subtract from a  
28      service area's June fifteenth disbursement any amount exceeding the limitation under  
29      section 50-34-06.

1       **50-34-04. Baseline funding amounts.**

2       1.   The director shall calculate each service area's base year case-month totals and direct  
3       gross expenditures. A service area's direct gross expenditures include the actual  
4       amount expended within a service area in the base year for staffing and administrative  
5       costs related to the administration of economic assistance and social service  
6       programs as well as eligible federally allowable indirect costs. For purposes of this  
7       subsection, "eligible federally allowable indirect costs" means twenty-five percent of  
8       the average of the federally allowable indirect costs allocated to each service area in  
9       calendar years 2012, 2013, and 2014.

10      2.   The director shall calculate each service area's base rate per economic assistance  
11      case-month by dividing the service area's economic assistance net expenditures by  
12      the economic assistance case-months reported for the service area in the base year.  
13      For purposes of this subsection, "economic assistance net expenditures" means the  
14      amount calculated by subtracting the amount paid to the service area in the base year  
15      for services reimbursed by medical assistance from the service area's economic  
16      assistance base year gross expenditures.

17      3.   The director shall calculate each service area's base rate per social service  
18      case-month by dividing the service area's social service net expenditures by the social  
19      service case-months reported for the service area in the base year. For purposes of  
20      this subsection, "social service net expenditures" means the amount calculated by  
21      subtracting the amount paid to the service area in the base year for services  
22      reimbursed by medical assistance from the service area's social service base year  
23      gross expenditures.

24      **50-34-05. Calculation of formula payment - Minimum and maximum allowable**  
25      **increases.**

26      1.   The director shall calculate the total formula payment by summing the following:  
27      a.   The product of the service area's rate per economic assistance case-month and  
28      the service area's most recently available economic assistance caseload data.  
29      b.   The product of the service area's rate per social service case-month and the  
30      service area's most recently available social service caseload data.

1       2.   The director shall adjust the total formula payment as calculated in subsection 1 for  
2       minimum and maximum allowable increases to ensure the service area's formula  
3       payment is at least one hundred percent but no more than one hundred five percent of  
4       the service area's combined economic assistance base year gross expenditures and  
5       social services base year gross expenditures.

6       **50-34-06. Service area human services fund - Establishment - Fund balance**  
7       **limitations.**

8       Each service area in this state shall maintain a fund to be known as the service area human  
9       services fund. All expenditures by the service area for the relief of the needy must be paid from  
10      the service area human services fund. If, due to unforeseen or other extenuating  
11      circumstances, a service area's formula distribution payment is not sufficient to meet the  
12      expenses of that service area, the board of county commissioners may approve a transfer from  
13      the county's general fund to the service area human services fund upon a majority vote of all  
14      members. The balance of moneys in the fund on January first of each year may not exceed  
15      thirty-five percent of the annual budget for the service area in the previous year or one hundred  
16      thousand dollars, whichever is greater.

17      **50-34-07. Service area human services fund - Transfer.**

18      If on January 1, 2018, the balance of a service area human services fund exceeds the  
19      limitations in section 50-34-06, the county treasurer shall transfer the amount exceeding the  
20      limitations in section 50-34-06 to the designated county general fund within that service area. A  
21      county receiving a transfer shall reduce its county general fund mill levy for taxable year 2018  
22      by an equivalent amount. If the amount of a county's general fund mill levy is not sufficient to  
23      account for the entire required reduction, the county shall reduce an additional county-wide mill  
24      levy for taxable year 2018 to account for the remainder of the required reduction. If on  
25      January 1, 2019, the balance of a service area human services fund exceeds the limitations in  
26      section 50-34-06, the director shall reduce the service area's formula payment as directed in  
27      subsection 4 of section 50-34-03.

28      **50-34-08. Authority to withhold funding.**

29      Notwithstanding subsection 2 of section 50-01.2-06, if a service area fails to perform duties  
30      directed or assigned and supervised by the department of human services, the department of  
31      human services may withhold funding from the service area. The amount withheld may not

1 exceed double the actual cost of the duty that was not performed, the per activity amount from  
2 the formula, the cost to the department of human services, or the amount of a federal penalty  
3 imposed as a result of the duty that was not performed.
