2 ~~SECTION 2. AMENDMENT. Subdivision c of subsection 5 of section 6-09.4-03 of the North~~
3 ~~Dakota Century Code is amended and reenacted as follows:~~

8 **SECTION 2. AMENDMENT.** Section 6-09.4-06 of the North Dakota Century Code is
9 amended and reenacted as follows:

10 **6-09.4-06. Lending and borrowing powers generally.**

11 1. The public finance authority may lend money to political subdivisions or other
12 contracting parties through the purchase or holding of municipal securities which, in
13 the opinion of the attorney general, are properly eligible for purchase or holding by the
14 public finance authority under this chapter or chapter 40-57 and for purposes of the
15 public finance authority's capital financing program the principal amount of any one
16 issue does not exceed five hundred thousand dollars. However, the public finance
17 authority may lend money to political subdivisions through the purchase of securities
18 issued by the political subdivisions through the capital financing program without
19 regard to the principal amount of the bonds issued, if the industrial commission
20 approves a resolution that authorizes the public finance authority to purchase the
21 securities. The capital financing program authorizing resolution must state that the
22 industrial commission has determined that private bond markets will not be responsive
23 to the needs of the issuing political subdivision concerning the securities or, if it
24 appears that the securities can be sold through private bond markets without the
25 involvement of the public finance authority, the authorizing resolution must state
26 reasons for the public finance authority's involvement in the bond issue. The public
27 finance authority may hold such municipal securities for any length of time it finds to
28 be necessary. The public finance authority, for the purposes authorized by this chapter
29 or chapter 40-57, may issue its bonds payable solely from the revenues available to
30 the public finance authority which are authorized or pledged for payment of public

1 finance authority obligations, and to otherwise assist political subdivisions or other
2 contracting parties as provided in this chapter or chapter 40-57.

3 2. The public finance authority may lend or transfer money to the Bank of North Dakota
4 underas follows:

5 a. Under terms and conditions requiring the Bank to use the proceeds to make
6 loans for agricultural improvements that qualify for assistance under the revolving
7 loan fund program established byunder chapter 61-28.2; and

8 b. Under terms and conditions requiring the Bank to use the proceeds to make
9 loans for infrastructure projects that qualify for assistance under the ~~essential~~
10 infrastructure revolving loan fund established under section 6-09-49. Bonds
11 issued for this purpose are payable in each biennium solely from amounts the
12 legislative assembly may appropriate for debt service for any biennium or from a
13 reserve fund established for the bonds. This section may not be construed to
14 require the state to appropriate funds sufficient to make debt service payments
15 with respect to the bonds or replenish a related reserve fund. The bonds are not
16 a debt of the department of transportation or the state, and the full faith, credit,
17 and taxing powers of the state are not pledged to the payment of the bonds. The
18 obligation of the public finance authority with respect to the bonds must terminate
19 and the bonds are no longer outstanding as of the date appropriated funds and
20 reserves are not sufficient to pay debt service on the bonds. In addition to
21 providing funds for transfers to the department of transportation, the public
22 finance authority may use the bond proceeds to pay the costs of issuance of the
23 bonds and establish a reserve fund for the bonds.

24 3. Bonds of the public finance authority issued under this chapter or chapter 40-57 are
25 not in any way a debt or liability of the state and do not constitute a loan of the credit of
26 the state or create any debt or debts, liability or liabilities, on behalf of the state, or
27 constitute a pledge of the faith and credit of the state, but all such bonds are payable
28 solely from revenues pledged or available for their payment as authorized in this
29 chapter. Each bond must contain on its face a statement to the effect that the public
30 finance authority is obligated to pay such principal or interest, and redemption
31 premium, if any, and that neither the faith and credit nor the taxing power of the state

1 is pledged to the payment of the principal of or the interest on such bonds. Specific
2 funds pledged to fulfill the public finance authority's obligations are obligations of the
3 public finance authority.

4 4. All expenses incurred in carrying out the purposes of this chapter or chapter 40-57 are
5 payable solely from revenues or funds provided or to be provided under this chapter or
6 chapter 40-57 and nothing in this chapter may be construed to authorize the public
7 finance authority to incur any indebtedness or liability on behalf of or payable by the
8 state.

9 **SECTION 3. AMENDMENT.** Section 6-09.4-10 of the North Dakota Century Code is
10 amended and reenacted as follows:

11 **6-09.4-10. Reserve fund.**

12 1. The public finance authority shall establish and maintain a reserve fund in which there
13 must be deposited all moneys appropriated by the state for the purpose of the fund, all
14 proceeds of bonds required to be deposited therein by terms of any contract between
15 the public finance authority and its bondholders or any resolution of the public finance
16 authority with respect to the proceeds of bonds, any other moneys or funds of the
17 public finance authority which it determines to deposit therein, any contractual right to
18 the receipt of moneys by the public finance authority for the purpose of the fund,
19 including a letter of credit or similar instrument, and any other moneys made available
20 to the public finance authority only for the purposes of the fund from any other source
21 or sources. Moneys in the reserve fund must be held and applied solely to the
22 payment of the interest on and the principal of bonds and sinking fund payments as
23 the same become due and payable and for the retirement of bonds, including payment
24 of any redemption premium required to be paid when any bonds are redeemed or
25 retired prior to maturity. Moneys in the reserve fund may not be withdrawn therefrom if
26 the withdrawal would reduce the amount in the reserve fund to an amount less than
27 the required debt service reserve, except for payment of interest then due and payable
28 on bonds and the principal of bonds then maturing and payable and sinking fund
29 payments and for the retirement of bonds in accordance with the terms of any contract
30 between the public finance authority and its bondholders and for the payments on
31 account of which interest or principal or sinking fund payments or retirement of bonds,

1 other moneys of the public finance authority are not then available in accordance with
2 the terms of the contract. The required debt service reserve must be an aggregate
3 amount equal to at least the largest amount of money required by the terms of all
4 contracts between the public finance authority and its bondholders to be raised in the
5 then current or any succeeding calendar year for the payment of interest on and
6 maturing principal of outstanding bonds, and sinking fund payments required by the
7 terms of any contracts to sinking funds established for the payment or redemption of
8 the bonds.

9 2. If the establishment of the reserve fund for an issue or the maintenance of an existing
10 reserve fund at a required level under this section would necessitate the investment of
11 all or any portion of a new reserve fund or all or any portion of an existing reserve fund
12 at a restricted yield, because to not restrict the yield may cause the bonds to be
13 taxable under the Internal Revenue Code, then at the discretion of the public finance
14 authority no reserve fund need be established prior to the issuance of bonds or the
15 reserve fund need not be funded to the levels required by other subsections of this
16 section or an existing reserve fund may be reduced.

17 3. No bonds may be issued by the public finance authority unless there is in the reserve
18 fund the required debt service reserve for all bonds then issued and outstanding and
19 the bonds to be issued. Nothing in this chapter prevents or precludes the public
20 finance authority from satisfying the foregoing requirement by depositing so much of
21 the proceeds of the bonds to be issued, upon their issuance, as is needed to achieve
22 the required debt service reserve. The public finance authority may at any time issue
23 its bonds or notes for the purpose of providing any amount necessary to increase the
24 amount in the reserve fund to the required debt service reserve, or to meet such
25 higher or additional reserve as may be fixed by the public finance authority with
26 respect to such fund.

27 4. In order to assure the maintenance of the required debt service reserve, there shall be
28 appropriated by the legislative assembly and paid to the public finance authority for
29 deposit in the reserve fund, such sum, if any, as shall be certified by the industrial
30 commission as necessary to restore the reserve fund to an amount equal to the
31 required debt service reserve. However, the commission may approve a resolution for

1 the issuance of bonds, as provided by section 6-09.4-06, which states in substance
2 that this subsection is not applicable to the required debt service reserve for bonds
3 issued under that resolution.

4 5. If the maturity of a series of bonds of the public finance authority is three years or less
5 from the date of issuance of the bonds, the public finance authority may determine that
6 no reserve fund need be established for that respective series of bonds. If such a
7 determination is made, holders of that respective series of bonds may have no interest
8 in or claim on existing reserve funds established for the security of the holders of
9 previously issued public finance authority bonds, and may have no interest in or claim
10 on reserve funds established for the holders of subsequent issues of bonds of the
11 public finance authority.

12 6. The industrial commission may determine that this section is inapplicable in whole or
13 in part for bonds issued under sections as follows:

14 a. Under section 6-09.4-06:

15 b. Under section 6-09.4-24; or under

16 c. Under the public finance authority's state revolving fund program.

17 **SECTION 4.** Section 6-09.4-28 of the North Dakota Century Code is created and enacted
18 as follows:

19 **6-09.4-28. Debt service requirements - ~~Essential infrastructure~~Infrastructure**
20 **revolving loan fund - Legacy fund earnings.**

21 Each biennium, the public finance authority shall request from the legislative assembly an
22 appropriation from the general fund ~~of moneys derived from the earnings of the legacy fund, as~~
23 ~~defined under section 21-10-12,~~ to meet the debt service requirements for evidences of
24 indebtedness issued by the authority to support the ~~essential~~ infrastructure revolving loan fund.

25 **SECTION 5. AMENDMENT.** Subsection 6 of section 21-03-07 of the North Dakota Century
26 Code is amended and reenacted as follows:

27 6. The governing body of any county may also by resolution adopted by a two-thirds vote
28 dedicate the tax levy authorized by section 57-15-06.6 and subsection 5 of
29 section 57-15-06.7 and may authorize and issue general obligation bonds to be paid
30 by the dedicated levy for the ~~purpose of providing funds for the purchase, construction,~~
31 ~~reconstruction, or repair of regional or county correction centers, or parks and~~

1 ~~recreational facilities~~ purposes identified under section 57-15-06.6 and subsection 5 of
2 section 57-15-06.7; provided, that the initial resolution authorizing the tax levy
3 dedication and general obligation bonds must be published in the official newspaper,
4 and any owner of taxable property within the county may, within sixty days after
5 publication, file with the county auditor a protest against the adoption of the resolution.
6 Protests must be in writing and must describe the property which is the subject of the
7 protest. If the governing body finds such protests to have been signed by the owners
8 of taxable property having an assessed valuation equal to five percent or more of the
9 assessed valuation of all taxable property within the county, as theretofore last finally
10 equalized, all further proceedings under the initial resolution are barred.

11 **SECTION 6. AMENDMENT.** Section 21-03-19 of the North Dakota Century Code is
12 amended and reenacted as follows:

13 **21-03-19. Bonds - Terms.**

14 Bonds issued under this chapter must be authorized by resolution, bear such date or dates,
15 be in such denomination or denominations, be in such form, be subject to redemption with or
16 without premium, and be subject to such other terms or conditions as in the judgment of the
17 municipality are in the public interest of the municipality, and must provide that the last
18 installment of principal falls due not more than twenty years from the date of the bonds or not
19 more than thirty years for bonds sold to the entities under section 21-03-30. The requirements
20 of this section apply to each new issue of bonds, or if so determined by the governing body, to
21 the bonds of a new issue combined with all of the outstanding bonds of one or more designated
22 issues of bonds previously issued and similarly payable from taxes or other sources of
23 revenues, or both, as the case may be.
