22       is in possession of a valid registry identification card and is not in possession of usable  
23       marijuana in an amount that exceeds what is authorized under this chapter. This  
24       presumption may be rebutted by evidence the conduct related to the cultivation or

26       purpose of treating or alleviating the registered qualifying patient's debilitating medical  
27       condition under this chapter.

30      stating in the health care provider's professional opinion a patient is likely to receive  
31      therapeutic or palliative benefit from the medical use of usable marijuana to treat or

1           alleviate the patient's debilitating medical condition or for refusing to provide written  
2           certification or a statement. This chapter does not release a health care provider from  
3           the duty to exercise a professional standard of care for evaluating or treating a  
4           patient's medical condition.

5       11. A cardholder or registered compassion center is not subject to arrest or prosecution for
