- 2 A. **Bill and fiscal impact summary:** *Provide a brief summary of the measure, including description of the provisions having fiscal impact (limited to 300 characters).*

HB 1365 affects how much money is deducted from the foundation aid formula for revenue in lieu of property taxes and property taxes for school districts.

B. Fiscal impact sections: *Identify and provide a brief description of the sections of the measure which have fiscal impact. Include any assumptions and comments relevant to the analysis.*

Subsection 6 of HB 1365 changes the amount deducted from the foundation aid formula to 75% of all revenue in lieu of property taxes. The 75% is deducted from the percentage of mills that are not attributed to the sinking and interest levy. This would increase the expenditures by \$9.25 million per year (\$18.5 million per biennium) and every year thereafter. These amounts may vary slightly when school districts pass bond elections and change their mill levies.

Subsection 4 of HB 1365 changes the amount deducted for property taxes beginning in the 2019-20 school year. Calculating the contribution from property tax changes from a 12% increase in dollars capped at 60 mills, to either, what the school district is currently levying in general fund mills capped at 60 mills or a 12% increase in dollars deducted capped at 60 mills. The section would also not allow a school district's contribution from property tax to go down in mills from the 2018-19 school year if their taxable valuation growth is over 12%. DPI is not projecting any school districts to have a growth of more than 12%. Beginning in 2022-23 and each year thereafter, all school districts will be deducted at 60 mills in the integrated formula payment.

Changing the property tax deduction to what school districts are currently levying would decrease the integrated formula expenditures \$10.7 million dollars in the 2019-20 payment year. In the current law, the estimated contribution from property tax is \$532.3 million (\$260.7 & \$271.6) for the 2019-21 biennium. HB 1365 increases those projections to \$552.8 million (\$271.4 & \$281.4) for the 2019-21 biennium. This bill does not change a school districts levying authority.

The deduction for the contribution from property taxes for the 2021-23 biennium increase from \$571.5 million (\$280.9 & \$290.6) in current law to \$600 million (\$291.2 + 308.8)

In the 2022-23 school year, the formula will deduct 60 mills. DPI projects that several school districts will not be able to levy 60 mills due to the 12% cap. This accounts for the difference of \$7 million for the effect on school districts.

3. State fiscal effect detail: *For information shown under state fiscal effect in 1A, please:*

A. Revenues: *Explain the revenue amounts. Provide detail, when appropriate, for each revenue type and fund affected and any amounts included in the executive budget.*

B. Expenditures: *Explain the expenditure amounts. Provide detail, when appropriate, for each agency, line item, and fund affected and the number of FTE positions affected.*

C. Appropriations: *Explain the appropriation amounts. Provide detail, when appropriate, for each agency and fund affected. Explain the relationship between the amounts shown for expenditures and appropriations. Indicate whether the appropriation or a part of the appropriation is included in the executive budget or relates to a continuing appropriation.*
