

FISCAL NOTE
Requested by Legislative Council
01/15/2021

Bill/Resolution No.: HB 1360

- 1 A. **State fiscal effect:** *Identify the state fiscal effect and the fiscal effect on agency appropriations compared to funding levels and appropriations anticipated under current law.*

	2019-2021 Biennium		2021-2023 Biennium		2023-2025 Biennium	
	General Fund	Other Funds	General Fund	Other Funds	General Fund	Other Funds
Revenues	\$0	\$0	\$0	\$0	\$0	\$0
Expenditures	\$0	\$0	\$15,200,680	\$0	\$1,178,080	\$0
Appropriations	\$0	\$0	\$15,200,680	\$0	\$1,178,080	\$0

- 1 B. **County, city, school district and township fiscal effect:** *Identify the fiscal effect on the appropriate political subdivision.*

	2019-2021 Biennium	2021-2023 Biennium	2023-2025 Biennium
Counties	\$0	\$40,000	\$40,000
Cities	\$0	\$40,000	\$40,000
School Districts	\$0	\$40,000	\$40,000
Townships	\$0	\$0	\$0

- 2 A. **Bill and fiscal impact summary:** *Provide a brief summary of the measure, including description of the provisions having fiscal impact (limited to 300 characters).*

Only numbered and scannable ballots may be used. Ballot images posted on web for voter to retrieve.
 Implementation of an independent audit system.

- B. **Fiscal impact sections:** *Identify and provide a brief description of the sections of the measure which have fiscal impact. Include any assumptions and comments relevant to the analysis.*

Section 6 would eliminate the possibility of counting the votes on a ballot only by hand. Many school districts and cities administer their own elections without the assistance of a voting system to count the votes. This section would require cities and schools to use the voting system purchased by the state for their elections. We believe the fiscal impact to the counties, cities and schools is low, but it is unknown how many contests this would impact to come up with a true cost.

The costs behind Section 9 include: one-time costs of approximately \$84,000 for programming and servers and monthly costs of just over \$67,000 for storage and hosting for the first biennium. We estimate the cost for servers and monthly costs of just over \$67,000 for storage and hosting for the first biennium. We anticipate that the initial storage needed would be 4 TB. With each passing election, the monthly costs would go up by nearly \$6,000 for each TB of storage added.

Section 10 would require programming to allow a voter to securely retrieve the image of the ballot they cast in an election and to be provided a notice if the voter's ballot was rejected, provide the proper contact information to the voter to correct the deficiencies of the ballot before the results are certified. It is unknown what this would cost, but \$50,000 is a safe guess.

Section 11 would essentially require the purchase of a new voting system to independently audit the tally produced by the first voting system. The statewide voting system we purchase in 2019 was 9,000,000, but this section of the bill would require the new system to do something that we believe has not been created and therefore it must be built from scratch. Therefore, a \$15,000,000 price tag is not unreasonable, and we think it will be much greater than that. That second system will need to be maintained each year at a cost of not less than \$1,000,000 per biennium.

With the timelines mandated, the only way that the counties, cities, and schools could meet the deadlines is to hire a large number of temporary staff after each election. The guess is not less than \$20,000 per election.

3. **State fiscal effect detail:** *For information shown under state fiscal effect in 1A, please:*

- A. **Revenues:** *Explain the revenue amounts. Provide detail, when appropriate, for each revenue type and fund affected and any amounts included in the executive budget.*

No revenue is anticipated.

- B. **Expenditures:** *Explain the expenditure amounts. Provide detail, when appropriate, for each agency, line item, and fund affected and the number of FTE positions affected.*

Please see 2B.

- C. **Appropriations:** *Explain the appropriation amounts. Provide detail, when appropriate, for each agency and fund affected. Explain the relationship between the amounts shown for expenditures and appropriations. Indicate whether the appropriation or a part of the appropriation is included in the executive budget or relates to a continuing appropriation.*

The appropriation needed for the first biennium will be at least \$15,320,680 and ongoing \$1,400,000, but those are estimates that will likely be much higher. These amounts are not included in the executive budget.
