(Agriculture and Transportation Committee)

A BILL for an Act to amend and reenact section 39-12-23 of the North Dakota Century Code,
relating to a governor's order authorizing excess limits regarding road trains.for an Act to
provide for a department of transportation long combination vehicle study and pilot projects; and
to provide for a legislative management report.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

6 SECTION 1. AMENDMENT. Section 39-12-23 of the North Dakota Century Code is 7 amended and reenacted as follows: 8 39-12-23. Governor's order authorizing excess limits. 9 1. The governor of this state is hereby authorized, by order of general application, tomay 10 permit and prescribe definite excess limitations as to size and weight for: 11 For the operation of motor vehicles in emergencies; 12 For the operation of road trains; and to 13 To meet unusual conditions for the general welfare of the public. 14 2. The operation of such vehicles, in accordance with the governor's order, does not 15 constitute a violation of the statutes relative to limitations on sizes and weights except 16 an order permitting excess length limitations for the operation of road trains may not 17 exceed the single axle gross weight limitations as established by this chapter.

SECTION 1. DEPARTMENT OF TRANSPORTATION LONG COMBINATION VEHICLE STUDY AND PILOT PROJECTS - REPORT TO LEGISLATIVE MANAGEMENT.

During the 2021-22 interim, the department of transportation shall study and conduct pilot projects on the feasibility and impact of long combination vehicle operations on North Dakota roadways. The study must include:

1 An assessment of the federal regulations impacting long combination vehicle 2 operations beyond the configurations currently allowed, including configuration 3 combinations allowed in Canada and other jurisdictions; 4 An evaluation of the economic impact of permitting long combination vehicle b. 5 operations in the state: 6 An assessment of the impact long combination vehicle operations would have on C. 7 North Dakota bridges and structures; 8 An assessment and evaluation of road networks that are compatible with certain d. 9 long combination vehicle configurations, or with minor modifications, not 10 exceeding one hundred thirty feet of cargo carrying capacity unless approved by 11 the director of the department of transportation; 12 Implementing pilot project safety guidelines that include protocols for traffic safety e. 13 and inclement weather operations; 14 An assessment of the costs associated with implementing long combination 15 vehicle operations; and 16 An examination of the size and weight provisions provided under chapter 39-12. 17 2. If a pilot project includes operating on county, city, or township roads, an agreement 18 with local road authorities must be in place to address traffic safety considerations and 19 costs directly attributed to the pilot project. 20 3. The director of the department of transportation may waive certain statutory size and 21 weight restrictions for the pilot projects. 22 4. The department of transportation may continue any pilot project commenced under 23 subsection 1 until the department determines sufficient information has been gathered 24 to determine the pilot project is no longer necessary. 25 5. Before August 1, 2022, the department of transportation shall report its findings and 26 recommendations, together with any legislation required to implement the 27 recommendations, to the legislative management.
