Dear Members of the House Government and Veterans Affairs Committee,

I am writing to urge a that this this HCR 3029 receives a DO NOT PASS recommendation.

This resolution is yet another dumb resolution put forward by Representatives K. Koppleman and Pollert. What is “federalism” anyway that we should care? Federalism is a mode of political organization that unites separate states into an overarching political system. Wow! It sounds just like what we have and what is working right now.

Again, I am writing to urge that this commit recommend that this resolution receives a DO NOT PASS recommendation.

Sincerely,

Brian Glaeske
