

January 19th, 2021

Dear ND House Human Services Committee Members,

I am writing this morning to urge you to support and pass:

[HB 1307](#) that would enact a law that prohibits places of public accommodation from refusing services, goods, or access to facilities to individuals who refuse vaccination.

[HB 1320](#) that would prohibit state and local government from mandating vaccination and would prohibit making the receipt of a vaccine a condition for entry, education, employment, or services.

[HB 1306](#) that would establish an interim committee to study the interrelationship between sudden infant death syndrome, vaccines, and autism spectrum disorder in children.

I am a retired pharmacist having worked 32 years in hospital, community, and compounding pharmacies. Having done so, I have been eyewitness to vaccine injury over the years and have grave concerns over the SARS-COV2 vaccine. New pharmaceutical drugs commonly take 7-8 years to come on the market because of extensive animal and human trials done first to ensure safety of the drug and thereby ensure the pharmaceutical manufacturer will not face exorbitant damage liability. However, as you likely know, vaccine manufacturers are exempt from damage liability. Though it is amazing that this vaccine has been formulated in a short amount of time, it has not passed the test of time and trials to determine safety. I also oppose this vaccine because it is a mRNA vaccine with the possibility of being incorporated into one's genetic code. Also, the use of cell lines from aborted babies is highly problematic for religious reasons.

Last September, I was sick with what appeared to be COVID and recovered without incident. I have had numerous bouts of influenza in my lifetime which were worse. My observation has been that people with symptoms have not been treated adequately in the early stages of the disease, especially when complaining of shortness of breath. I know of MD's who successfully treat people with Vitamin C, D, and Zn, Quercetin, HCQ or Ivermectin, and Budesonide for inhalation. These treatments were vilified by the powers that be who likely stood to benefit from the emergency authorization of the vaccines. Herd immunity will happen without vaccines. The number of deaths due to COVID is dropping weekly. I would encourage you to keep that statistic before you, and not the number of cases which is determined by a test with dubious false positives. Also, the study of the 30 million people in Wuhan showed that there is not asymptomatic spread of the virus.

Finally, I believe that implementation of a laws to prevent people without the vaccine from enjoying their rights as citizens of the United States of America is unconstitutional. For most, this disease is not worse than the common flu and draconian measures to attempt to vaccinate everyone with an untested vaccine is reckless and suspect. Thank you so much for your time and consideration of my concerns.

Regards,

Maureen Bratten
