

This is my public testimony for the HB 1313 agenda item from the state of North Dakota. This item is relating to promoting the commission of an abortion and relating to murder of an unborn child and exceptions for offenses against unborn children; and to provide a penalty. No matter the condition that a person is in, they should always have the right to live, no matter if they can speak for themselves or not. Passing this will effectively give the unborn children the voice that needs to be heard. No matter what stage of development these children are in, they have just as much right to live as any of us should.
