

To Whom It Concerns,

I am opposed to HB1469.

This bill creates a situation which implies that a parent who disagrees with vaccination is guilty of a crime. Just as a person with a traffic violation may be required to be “re-educated” by watching videos on traffic laws, this bill puts a parent in the position of being punished with a “re-education” video. It is wrong for North Dakota to punish parents who have the right to claim a religious or philosophical exemption!

Vote NO on HB1469!
