

My name is Nikki Johansen from rural Ryder, ND I am writing to you in support of bill 1204. If a person has a medical condition, I feel they should not be forced to wear a mask to work or have to take a leave of absence. I personally have a medical condition. I suffer from claustrophobia. If I have anything close to my face, I feel as though someone is suffocating me. I have had this condition for sometime, and feel as though it has gotten worse as there have been several instances that I have been forced to wear a mask or face shield. When I do wear one, my blood pressure goes dangerously high. When I am not wearing a mask, my blood pressure is in normal range. Again, I am writing in support of this bill as I feel if a person suffers of a medical condition, they should not be forced to put their health as risk.
