

We are residents of Brookwood in West Fargo, North Dakota, that was bought by Haven Park. They have made life very stressful for us and many others. They raised the rent twice in a year and half. They are threatening to charge us for things that should be included in our rent, like tree trimming, street sweeping etc. . Our biggest concern is them coming into my yard or house. We own our home and will not allow them access to it or my yard, unless there is an issue under it. I think this Bill needs a few changes.....no admin fees, not being able to access our homes or yards without a 24 to 48 hr notice. I used to love living here but where is the affordable housing for people on social security or a fixed income. Haven Park will not allow people with disabilities into the park. Discrimination is against the law. Think about !
