

I am Gordon Einstein, hybrid Crypto-Attorney, Technologist, and Enterprise Strategist. I received undergraduate degree in Politics in 1991 from Brandeis University in Boston and then received JD in 1995 from the USC Gould School of Law in Los Angeles.

Initially my law practice centered on startup, venture capital, investment banking, regulatory compliance, intellectual property and general business law. As an avid computer and programming hobbyist, in 2012 I was intrigued by Bitcoin, cryptocurrencies, and the related technologies. By 2014, I was providing legal services to several individuals and companies operating in this space. And by 2016 the majority of my law practice involved working with crypto, blockchain and FinTech startups and funds, including as Chief Legal Officer of Distributed Lab. The practice was formalized as CryptoLaw Partners in 2017.

I frequently speak and educate both in the United States and internationally. Some common themes are issues and developments relating to cryptocurrency, the legal aspects of FinTech, structuring blockchain startups, ICOs/STOs, and AML/KYC compliance.

I am in favor of the bill HCR 3024.
