

House Energy and Natural Resources

SB 2344

Chairman Porter and Committee

I urge a strong YES on SB 2344 to protect businesses and citizens of North Dakota. This is much needed legislation.

[Senate Bill 2344](#) provides protections for gun stores, ranges, or any other entity that engages in the lawful selling or servicing of firearms, components, or accessories. SB 2344 also prevents the prohibition, regulation, or seizure of citizens' Second Amendment rights during a declared State of Emergency

Thank You
