

Senator,

There should be no need for a parenting coordinator if the courts would just follow the US Supreme court rulings on parents' rights!

No parent should lose any custody of their children unless first proven unfit to parent by clear and convincing evidence!!!!

The current family law in ND is Unconstitutional!

This whole system is designed to create an absent parent by force and when that parent tries to get his rights restored the courts retaliate against them and the custodial parent can get away with murder and the court does NOTHING to them!

Thank you,

Mr. Mitchell S. Sanderson
