

## **Senate Judiciary Committee**

### **HB 1272**

**Chairman Larson and Committee Members, I urge a strong YES vote on HB 1272,**

### **Gun Control Nullification**

House Bill No. 1272 ([HB 1272](#)) is sponsored by nine representatives. The House [passed](#) the bill, 69-23, on February 17.

If passed, HB 1272 would [exempt](#) – from all federal laws or regulations – any “personal firearm, firearm accessory, or ammunition” that is “manufactured commercially or privately in the state and which remains within the state.”

This is important because the U.S. Constitution’s Commerce Clause ([Article I, Section 8, Clause 3](#)) does not apply to commerce that remains inside a single state. HB 1272, if passed, would go a long way toward nullifying the federal government’s overreach via its blatant disregard of this constitutional provision.

Thank You
