Re: Opposition to House Bill 1298

This is a terrible Anti-Trans Athlete bill that cruelly targets trans-students under the age of 18, particularly trans girls. I do not understand why our state government would act to hurt our very own children. Growing up and being different as a child is a burden and scary. We need to find ways to take care of each other; not hurt each other. Please do not support this bill.

Thank you for your support.
